Current British Directories, 2003 *Cities and Agriculture* Henk de Zeeuw, Pay Drechsel, 2015-09-16 As people increasingly migrate to urban settings and more than half of the world's population now lives in cities it is vital to plan and provide for sustainable and resilient food systems which reflect this challenge This volume presents experience and evidence based state of the art chapters on the key dimensions of urban food challenges and types of intra and peri urban agriculture The book provides urban planners local policy makers and urban development practitioners with an overview of crucial aspects of urban food systems based on an up to date review of research results and practical experiences in both developed and developing countries By doing so the international team of authors provides a balanced textbook for students of the growing number of courses on sustainable agriculture food and urban studies as well as a solid basis for well informed policy making planning and implementation regarding the development of sustainable resilient and just urban food systems *The Rough Guide to London* Rob Humphreys, 2003 This definitive insiders handbook to London covers all the sights from the old favorites to new wonders such as the London Eye and Tate Modern Gallery at Bankside Includes additions to listings for clubs shopping dining and performing arts 35 maps color maps **Local Food Environments** Kimberly B. Morland, 2014-09-02 Local Food Environments Food Access in America provides information on the complex nature of food delivery systems as well as the historical and political trends that have shaped them over time The book presents the empirical evidence demonstrating disparities in access to healthy affordable foods across the United States and how these disparities may explain food consumption patterns for some Americans as well as potential risks for diet related illness The

book describes the current body of research surrounding these associations and presents the methodological issues pertinent to this area of public health Evidence from these studies is placed in context of current and past American food policies that have supported the existing food retail market including the production and retailing of foods and ways in which the consolidation of the food system has affected Americans Research conducted regarding local food environments in Canada has also been included as a point of comparison Methods are discussed as well as the current state of knowledge regarding factors associated with disparities between local food environments the effect of these disparities on the diets of residents within those communities and the impact that local food environments have on diet related health outcomes such as obesity Also described are solutions garnered to minimize local food environment inequalities currently being conducted by federal state and local government agencies Although this book focuses on US local food environments similar issues regarding access to food are concurrently taking place outside of the US In all chapters readers are encouraged to critically consider the current research methods as well as recent programs and policies that aim to address local food environments

Waterloo Sunrise John Davis, 2024-03-26 This is an urban history of London during the pivotal years of the 1960s and 1970s when the metropolis was transformed from an industrial city that the Victorians might have recognised to an embryonic modern world city Previous work on London in these years has tended to focus upon the 1960s in particular the Swinging London phenomenon Mary Quant Carnaby Street and the King s Road Chelsea all appear in these pages but it is argued that the swinging moment of the mid sixties was a passing symptom of a much broader transformation from an industrial to a service based city and it is that transformation which this book examines London is too complex and diverse a city to be comprehended in a simple linear narrative this book adopts instead an innovative approach to urban history by which London life and London s transformation are examined through a number of case studies looking at specific themes and areas of the city Consumerism and the experience economy home ownership and gentrification deindustrialisation and deprivation racial tension and unemployment the attrition of public services and the steady loss of confidence in public agencies national and local emerge as overarching themes from the individual case studies in this book Their combined effect it is argued was to prepare the ground for the Britain that Margaret Thatcher is usually held to have created after 1979 without Thatcher herself having anything to do it
