Law Ernesto Vargas Weil,2025-09-04 This book examines the English and German version of the *numerus clausus* principle which holds that there is a closed list of permitted property rights It challenges recent views that the principle renders property law inflexible and unable to accommodate social and economic changes Relying on a novel approach combining property theory and comparative research of English and German law it argues that the restrictions the principle imposes on the creation of new property types actually does accommodate social changes through a process of functional transformation

of the existing property rights This is a fascinating unique study that makes a rigorous original contribution to property law theory

The Greening of Religion Jonathan Leader Editor,2018-02-27 Some have said the America is the most religious industrialized country in the world 6 The power of politics driven at least in part by religious concerns was demonstrated dramatically in the November election But are people at this grassroots level the ones most likely to suffer the consequences of political deafness regarding climate change do they really understand the truth of the approaching environmental storm If not perhaps they will best learn new ways of thinking and living from those whom they hold in highest regard their religious leaders thinkers teachers writers and communicators With The Greening of Religion we hope to have added to a life saving public conversation perhaps even started some conversations And we hope those conversations will lead to actions which can shelter us from the inevitable and perhaps turn us from calamity even here at the last minute

[Modern Economic Regulation](#) Christopher Decker,2015 This book synthesises the vast literature on economic regulation into a coherent overview of regulatory theory and practice

The Legal and Regulatory Aspects of Islamic Banking Abdul Karim Aldohni,2012-05-23 During the last ten years the Islamic banking sector has grown rapidly at an international level as well as in individual jurisdictions including the UK Islamic finance differs quite substantially from conventional banking using very different mechanisms and operating according to a different theory as it is based on Islamic law Yet at the same time it is always subject to the law of the particular financial market in which it operates This book takes a much needed and comprehensive look at the legal and regulatory aspects which affect Islamic finance law and examines the current UK and international banking regulatory frameworks which impact on this sector The book examines the historical genesis of Islamic banking looking at how it has developed in Muslim countries before going on to consider the development of Islamic banking in the UK and the legal position of Islamic banks within English law The book explores company contract and some elements of tax law and traces the impact it has had on the development of Islamic banking in the UK before going on to argue that the current legal and regulatory framework which affects the Islamic banking sector has on certain occasions had an unintended adverse impact on Islamic banking in the UK The book also provides an overview of the Malaysian experience in relation to some of the main legal and regulatory challenges in the context of Islamic banking and finance
