Modern World History California Edition Roger B. Beck, Linda Black, Larry S. Krieger, 2005-01-07 *The Patchwork of World History in Texas High Schools* Stephen Jackson, 2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States

Modern World History California Edition Roger B. Beck, Linda Black, Larry S. Krieger, 2002-03-11 *The Trouble with Textbooks* Gary A. Tobin, Dennis R. Ybarra, 2008-07-31 School textbooks in Iran Saudi Arabia Egypt and elsewhere in the Arab and Muslim worlds are filled with anti Western and anti Israel propaganda Most readers will be shocked to discover that history and geography textbooks widely used in America s elementary and secondary classrooms contain some of the very same inaccuracies about Jews Judaism and Israel Did you know that there is no record of any important Jewish contribution to the sciences World Civilizations Thomson Wadsworth Or that Christianity was started by a young Palestinian named Jesus The World Scott Foresman Pearson Supplemental materials and other classroom influences are even worse The Trouble with Textbooks exposes the poor scholarship and untruths in textbooks about Jews and Israel The problems uncovered in this ground breaking analysis are instructive and illustrate the need for reform in the way textbooks are developed written marketed and distributed Substitute another area how we teach American history Western civilization or comparative religion and we have another equally intriguing case study The Trouble with Textbooks shows what can go terribly wrong in discussing religion geography culture or history and in this case all of them The Trouble with Textbooks tells a cautionary tale for all readers whatever their background of how textbooks that Americans depend on to infuse young people with the values for good citizenship and to help acculturate students into the multicultural salad that is American life instead disparage some groups and teach historical distortions With millions of young people using these textbooks each year the

denigration of some should be a concern for all *The Transnational Redress Movement for the Victims of Japanese Military Sexual Slavery* Pyong Gap Min, Thomas Chung, Sejung Sage Yim, 2020-02-10 This book examines the redress movement for the victims of Japanese military sexual slavery in South Korea Japan and the U S comprehensively The Japanese military forcefully mobilized about 80 000 200 000 Asian women to Japanese military brothels and forced them into sexual slavery during the Asian Pacific War 1932 1945 Korean comfort women are believed to have been the largest group because of Korea s colonial status The redress movement for the victims started in South Korea in the late 1980s The emergence of Korean comfort women to society to tell the truth beginning in 1991 and the discovery of Japanese historical documents proving the responsibility of the Japanese military for establishing and operating military brothels by a Japanese historian in 1992 accelerated the redress movement for the victims The movement has received strong support from UN human rights bodies the U S and other Western countries It has also greatly contributed to raising people s consciousness of sexual violence against women at war However the Japanese government has not made a sincere apology and compensation to the victims to bring justice to the victims Christianity, Islam and Atheism William Kilpatrick, 2012-09-26 For many Americans the attack on the World Trade Center on September 11 2001 was the first time they had considered Islam Were the terrorists motivated by the true dictates of their religion or had they hijacked Islam as well as the planes in a political cause unrelated to the teachings of Muhammad Christianity Islam and Atheism argues that Islam is a religion of conquest and subjugation and that in spite of 9 11 and thousands of other terrorist attacks throughout the world many in the West still do not know or admit this because it conflicts with their multiculturalism and their belief in the equivalence of all cultures and religions To meet the challenge from Islam Christians need to know more about the important differences between Islam and Christianity yet many have been lulled into complacency by the misleading and largely unexamined assumption that the two religions are similar The time that Christians spend in pursuing common ground is time that Islamic activists will use to press their radical agenda In addition to challenging both the multicultural and common ground approaches William Kilpatrick also exposes the role played by atheists and secularists in advancing Islam Despite paying lip service to freedom radical secularists serve as enablers of radical Islam The civil liberties that the West enjoys are the fruit of Christian civilization Kilpatrick argues and only a reawakened Christianity can defend them against Islam s advance **Interpreting Islam** Hastings Donnan, 2002-02-15 Islam is one of the most misunderstood concepts in the West Myths and stereotypes surround it This clear and penetrating volume helps readers to make sense of Islam It offers a penetrating guide to the diversity and richness of contemporary knowledge about Islam and Muslim society Throughout the emphasis is upon the value of pluralistic approaches to Islam rather than condensing complexity with unifying concepts such as Orientalism Interdisciplinary in scope and organization the book cuts through the bewildering and seemingly anarchic diversity of contemporary knowledge about Islam and Muslim society The methodological difficulties and advantages of Western researchers focusing on Islam are fully

documented The book demonstrates how gender age status and insider outsider status impacts upon research and inflects research findings

Singer, 2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it **Social Studies for Secondary Schools** Alan J. Singer, 2008-10-26 This

popular text advocates an inquiry and activity based view of social studies teaching that respects the points of view of students and teachers Based in practice and experience it offers systematic support and open honest advice for new teachers is conversational not pedantic and provides lots of examples While the structure and most of the topics remain largely the same as before this Third Edition presents new lesson ideas in every chapter especially designed to help new teachers to address learning standards to work in inclusive settings and to promote literacy and the use of technology in social studies classrooms puts a heavier focus on what is important to know and why includes new essays on the politics of social studies education responds to opponents of project or activity based social studies instruction and multicultural education with a sharpened defense of both of these approaches throughout the book Intended as a text for undergraduate and graduate pre service social studies methods courses this text is also useful for in service training programs as a reference for new social studies teachers and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice

History Textbooks and the Wars in Asia Gi-Wook Shin, Daniel C. Sneider, 2011-02-08 Over the past fifteen years Northeast Asia has witnessed growing intraregional exchanges and interactions especially in the realms of culture and economy Still the region cannot escape from the burden of history This book examines the formation of historical memory in four Northeast Asian societies China Japan South Korea and Taiwan and the United States focusing on the period from the beginning of the Sino Japanese war in 1931 until the formal conclusion of the Pacific War with the San Francisco Peace Treaty of 1951 The contributors analyse the recent efforts of Korean Japanese and Chinese scholars to write a common history of Northeast Asia and question the underlying motivations for their efforts and subsequent achievements In doing so they contend that the greatest obstacle to reconciliation in Northeast Asia lies in the existence of divided and often conflicting historical memories The book argues that a more fruitful approach lies in understanding how historical memory has evolved in each country and been incorporated into respective master narratives Through uncovering the existence of different master narratives it is hoped citizens will develop a more self critical self reflective approach to their own history and that such an introspective effort has the potential to lay the foundation for

greater self and mutual understanding and eventual historical reconciliation in the region This book will be essential reading for students and scholars of Asian history Asian education and international relations in East Asia *Encyclopedia of World Trade: From Ancient Times to the Present* Cynthia Clark Northrup, Jerry H. Bentley, Alfred E.
