Gender and Judging Ulrike Schultz, Gisela Shaw, 2013-07-10 Does gender make a difference to the way the judiciary works and should work Or is gender blindness a built in prerequisite of judicial objectivity If gender does make a difference how might this be defined These are the key questions posed in this collection of essays by some 30 authors from the following countries Argentina Cambodia Canada England France Germany India Israel Italy Ivory Coast Japan Kenya the Netherlands the Philippines South Africa Switzerland Syria and the United States The contributions draw on various theoretical approaches including gender feminist and sociological theories The book's pressing topicality is underlined by the fact that well into the modern era male opposition to women's admission to and progress within the judicial profession has been largely based on the argument that their very gender programmes women to show empathy partiality and gendered prejudice in short essential qualities running directly counter to the need for judicial objectivity It took until the last century for women to begin to break down such seemingly insurmountable barriers And even now there are a number of countries where even this first step is still waiting to happen In all of them there remains a more or less pronounced glass ceiling to women's judicial careers

Looking for an Argument Richard Louis Levin, 2003 This book collects a number of Richard Levin's essays beginning with his well known PMLA article of 1988 on Feminist Thematics and Shakespearean Tragedy and continuing through the 1990s that examine and evaluate some of the most important aspects of the new critical approaches to the interpretations of the works of Shakespeare and his contemporaries principally the New Historicism feminism and revisionist versions of Marxism and Freudianism In these essays he is looking not only for rational arguments in these approaches but also for a rational argument with their practitioners and therefore he reprints several of the responses that these essays have

elicited including the PMLA Forum letter signed by twenty four people who objected to Feminist Thematics along with his answers to them which contribute to this critique of the present state of the discourse in this field **AF Press Clips**, 1983

AF Press Clips United States Department of State. Bureau of African Affairs, 1983 **The Cambridge Companion to Twentieth-Century Russian Literature** Evgeny Dobrenko, Marina Balina, 2011-02-17 An overview of the main literary schools authors and works in modern Russia and the Soviet Union **Moscow Prime Time** Kristin Roth-Ey, 2011-05-15 When Nikita Khrushchev visited Hollywood in 1959 only to be scandalized by a group of scantily clad actresses his message was blunt Soviet culture would soon consign the mass culture of the West epitomized by Hollywood to the dustbin of history In *Moscow Prime Time* a portrait of the Soviet broadcasting and film industries and of everyday Soviet consumers from the end of World War II through the 1970s Kristin Roth Ey shows us how and why Khrushchev's ambitious vision ultimately failed to materialize The USSR surged full force into the modern media age after World War II building cultural infrastructures and audiences that were among the world's largest Soviet people were enthusiastic radio listeners TV watchers and moviegoers and the great bulk of what they were consuming was not the dissident culture that made headlines in the West but orthodox made in the USSR content This then was Soviet culture's real prime time and a major achievement for a regime that had long touted easy everyday access to a socialist cultural experience as a birthright Yet Soviet success also brought complex and unintended consequences Emphasizing such factors as the rise of the single family household and of a more sophisticated consumer culture the long reach and seductive influence of foreign media and the workings of professional pride and raw ambition in the media industries Roth Ey shows a Soviet media empire transformed from within in the postwar era The result she finds was something dynamic and volatile a new Soviet culture with its center of gravity shifted from the lecture hall to the living room and a new brand of cultural experience at once personal immediate and eclectic a new Soviet culture increasingly similar in fact to that of its self defined enemy the mass culture of the West By the 1970s the Soviet media empire stretching far beyond its founders wildest dreams was busily undermining the very promise of a unique Soviet culture and visibly losing the cultural cold war *Moscow Prime Time* is the first book to untangle the paradoxes of Soviet success and failure in the postwar media age **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1952 Includes Part 1A Books *The (M)other Tongue* Shirley N. Garner, Claire Kahane, Madelon S. Sprengnether, 2019-06-30 This timely and provocative collection of sixteen essays combines feminist and psychoanalytic approaches to literary theory and to the reading of literary texts It demonstrates not only the ways in which psychoanalytic theory can illuminate traditional literary texts but also the ways in which feminist theory can modify enlarge and in some instances transform the body of psychoanalytic literature Treating psychoanalysis as a form of narrative as well as a method of interpretation the editors have divided their collection into three sections 1 interpretations of the relation between contemporary feminism and Freud 2 rereadings of classic patriarchal texts in the light of psychoanalytic feminism and 3

readings of texts by women writers that have subverted patriarchal structures and given authoritative new voice to the maternal figure Many of the essays make original contributions to the current debate about the conjunction of Freud and feminism others offer innovative readings of specific texts that illustrate the significance of that relation The Introduction provides an up to date survey of feminist psychoanalytic theory and enumerates the central issues Because of the diversity of critical perspectives it offers and the range of texts it considers this rich and important book will attract a broad spectrum of readers *Current Catalog* National Library of Medicine (U.S.),1969 Includes subject section name section and 1968 1970 technical reports
