*Race and Ethnicity* Rodney D. Coates, 2004-10-01 Race and ethnicity much like water and air are all around us Yet race and ethnicity remain impervious to many of us Hence in this volume authors were challenged to think outside the box As such scholars were encouraged to dare to contemplate to evaluate and analyze issues regarding race and ethnicity from radically different perspectives This critical process required them to evaluate their own assumptions and those of their respective disciplines Therefore much like walking a tight rope without a net the scholars attempt to free themselves from the disciplinarian blinders that often preclude the development of fresh insights Collectively the papers challenge the way we conceive and perceive of race and ethnicity As a consequence they go past the ideological constraints that normally limit such discourse by disciplinarian boundaries or disciplinarian myopia Therefore these papers provide a critical reappraisal of race and ethnicity
