God Is Not Great Audiobook:

God Is Not Great Christopher Hitchens, 2008-11-19 Christopher Hitchens described in the London Observer as one of the most prolific as well as brilliant journalists of our time takes on his biggest subject yet the increasingly dangerous role of religion in the world In the tradition of Bertrand Russell's Why I Am Not a Christian and Sam Harris's bestseller The End Of Faith Christopher Hitchens makes the ultimate case against religion With a close and erudite reading of the major religious texts he documents the ways in which religion is a man made wish a cause of dangerous sexual repression and a distortion of our origins in the cosmos With eloquent clarity Hitchens frames the argument for a more secular life based on science and reason in which hell is replaced by the Hubble Telescope's awesome view of the universe and Moses and the burning bush give way to the beauty and symmetry of the double helix

God is Not Great Christopher Hitchens, 2007 Hitchens takes on his biggest subject yet the increasingly dangerous role of religion in the world With insight and wit he describes the ways in which religion is man made immoral and repressive and argues for a new enlightenment through science and reason World Religions

McGowan,2013-03-18 The easy way to understand atheism and secular philosophy For people seeking a non religious philosophy of life as well as believers with atheist friends Atheism For Dummies offers an intelligent exploration of the historical and moral case for atheism Often wildly misunderstood atheism is a secular approach to life based on the understanding that reality is an arrangement of physical matter with no consideration of unverifiable spiritual forces Atheism For Dummies offers a brief history of atheist philosophy and its evolution explores it as a historical and cultural movement covers important historical writings on the subject and discusses the nature of ethics and morality in the absence of religion A simple yet intelligent exploration of an often misunderstood philosophy Explores the differences between explicit and implicit atheism A comprehensive readable and thoroughly unbiased resource As the number of atheists worldwide continues to grow this book offers a broad understanding of the subject for those exploring atheism as an approach to living The New Atheism Victor J. Stenger,2009-12-04 In recent years a number of bestselling books have forcefully argued that belief in God can no longer be defended on rational or empirical grounds and that the scientific worldview has rendered obsolete the traditional beliefs held by Christianity Judaism and Islam The authors of these books Richard Dawkins Daniel Dennett Sam

Harris Christopher Hitchens and Victor J Stenger have come to be known as the New Atheists Predictably their works have been controversial and attracted a good deal of critical reaction In this new book Victor J Stenger whose *God The Failed Hypothesis* was on the New York Times bestseller list in 2007 reviews and expands upon the principles of New Atheism and answers many of its critics He demonstrates in detail that naturalism the view that all of reality is reducible to matter and nothing else is sufficient to explain everything we observe in the universe from the most distant galaxies to the inner workings of the brain that result in the phenomenon of mind Stenger disputes the claim of many critics that the question of whether God exists is beyond the ken of science On the contrary he argues that absence of evidence for God is indeed evidence of absence when the evidence should be there and is not Turning from scientific to historical evidence Stenger then points out the many examples of evil perpetrated in the name of religion He also notes that the Bible which is still taken to be divine revelation by millions fails as a basis for morality and is unable to account for the problem of unnecessary suffering throughout the world Finally he discusses the teachings of ancient nontheist sages such as Buddha Lao Tzu and Confucius whose guidelines for coping with the problems of life and death did not depend upon a supernatural metaphysics Stenger argues that this way of nature is far superior to the traditional supernatural monotheisms which history shows can lead to a host of evils The New Atheism is a well argued defense of the atheist position and a strong rebuttal of its critics *I Shall Not Die* Gabriel Agbo,2020-08-17 It is not yet over God has not finished with you You are not dying now Yes you are not This book is to reassure you that He still has a plan for your life It doesn't matter how dark things look Here you will find many interesting chapters like I SHALL NOT DIE ALL POWER BELONGS TO GOD GO BACK AND TELL HIM PRAYER WHAT ARE YOU DOING HERE DON'T BE AFRAID DON'T RUN AWAY and GO AND GET MORE VESSELS There is no need to give up now Don't kill yourself You must stand up with faith and hope and fight on face your challenges Don't be afraid and don't run away from them God has come to help you Here you will also read how to resist the spirit of frustration depression and death Why is the rate of suicide rising Any solutions **Becoming God's Canvas** Leia M Vieira,2014-09-19 If you want to break free of all the things holding you back this is the book for you It and s a guide to intuitively connect your inner self with God through the realm of the angels and God and s messengers By making these connections you will break free of your fears This book takes you on an inner journey to awaken your true self and live the life you deserve [Read On...Audiobooks](#) Joyce G. Through Those Pearly Gates Thomas Cathcart,Daniel Klein,2010-10-26 Q Why are there almost as many jokes about death as there are about sex A Because they both scare the pants off us Thomas Cathcart and Daniel Klein first made a name for themselves with the outrageously funny New York Times bestseller Plato and a Platypus Walk into a Bar Now they turn their attention to the Big D and share the timeless wisdom of the great philosophers theologians psychotherapists and wiseguys From angels to zombies and everything in between Cathcart and Klein offer a fearless and irreverent history of how we approach death why we embrace life and whether there really is a hereafter As hilarious as it is enlightening Heidegger and a Hippo Walk Through Those Pearly Gates is a must read for anyone and everyone who ever expects to die And now you can read Daniel Klein s further musings on life and philosophy in Travels with Epicurus and Every Time I Find the Meaning of Life They Change it

Read the Bible like a Mystic Carl McColman,2025-06-10 There is a better way to read the Bible with the eyes of a mystic and the heart of contemplation Can the Bible be saved More and more Christians are troubled by how difficult passages in the Bible can be used to promote sexism homophobia hostility to other faiths and other problems but a sterile academic reading of the sacred text seems spiritually unfulfilling Carl McColman author of The New Big Book of Christian Mysticism reminds us that there is an ancient third way of approaching the Bible reading scripture like a mystic This contemplative approach to the Bible understands that much of the sacred text was never meant to be taken literally yet this approach maintains that spiritual wisdom guidance in prayer and encouragement for meditation are encoded throughout the sacred text Read the Bible like a Mystic will help Christians find an expanded relationship with their sacred textbook and it will also invite all people Christian and non Christian alike to bring together the wisdom of the written word with the wisdom of the contemplative life and the call to foster peace justice and equality in our world Whether you come to the Bible from a preexisting interest in Christianity or mysticism this book shows how contemplative wisdom unlocks the liberating power of the Word for our time
