Personal Brand Creation in the Digital Age Mateusz Grzesiak,2018-03-20 Presenting a scientific exploration of personal branding and digital communication this ground breaking book aims to fill a gap between theory and practice Describing how social media can increase brand profiles online it explains basic terms before investigating the cultural context for online personal branding With a special focus on YouTube the author provides a comparative analysis of two countries USA and Poland to open further avenues for research into this growing area An essential read for management and marketing scholars this study outlines and explores the evolution of media in the digital age from a business perspective and offers a thought provoking analysis for those interested in social media Extreme Overvalued Beliefs Tahir Rahman,2024 Extreme

Overvalued Beliefs makes a profound argument that most violent targeted attacks are incorrectly classified as motivated by delusions or obsessions Drawing on exceptionally clear and vivid details of crimes such as the JFK assassination and the January 6th US Capitol attack the monograph illuminates three easily understood cognitive drivers of targeted attacks arguing that we must embrace these in order to thwart future incendiary acts Conservation Drones Serge A. Wich,Lian

Pin Koh,2018-05-31 Increasing numbers of ecologists and conservation biologists have begun to explore the use of drone technology to obtain accurate and up to date data on the distribution and density of species as well as the threats to their habitats in their ongoing attempts to conserve and monitor biodiversity Conservation drones are low cost autonomous and operator friendly unmanned aerial vehicles that can be used for surveying mapping and monitoring both habitat and biodiversity They are fast becoming a valuable complement to ground based surveys and satellite imagery for a wide range of

ecological and conservation applications The authors pioneered the use of conservation drones for the purpose of monitoring orangutan populations in Southeast Asia They subsequently founded ConservationDrones.org to share their knowledge of building and using drones with colleagues in the wider environmental community This website has proved highly popular and this book aims to further build capacity to use drones and inspire others to adapt emerging technologies for practical conservation

*Aerial Photography and Videography Using Drones* Eric Cheng, 2015-10-30 Inexpensive consumer drones that offer ease of flight and high quality photography and videography have exploded on the market recently creating what can only be described as drone mania amongst a diverse range of potential users Because camera carrying drones still really only exist on the edge between hobby and the mainstream there is still a lot of confusion about what these small drones are capable of doing The decision to purchase one is just the first in a long stream of things a new owner must think about *Aerial Photography and Videography Using Drones* is designed to help you make the most of the opportunities these nimble affordable and accessible flying machines have created for aerial photography and videography Within this definitive guide you will learn about the following the current state of camera drone equipment how to become a competent drone operator tips for getting the best aerial still images and videos stories from aerial photographers and videographers from around the world the current regulatory state for drone usage in the U.S techniques demonstrated in several videos you can download from peachpit.com along with pre flight checklists and worksheets for flight training

*Small Flying Drones* Gianluca Casagrande, András Sik, Gergely Szabó, 2017-11-06 This book focuses on small flying drones and their applications in conducting geographic surveys Scholars and professionals will discover the potential of this tool and hopefully develop a conceptual and methodological framework for doing the following things a Translate their data acquisition needs into specifications b Use the developed specifications to choose the best accessible configuration for their drones and c Design and organize effective and low cost field deployment and flight operations by integrating technical aspects with regulatory and research requirements Readers can apply this knowledge to work in cartography environmental monitoring and analysis land use studies and landscape archaeology Particular attention is also given to the reasons why a drone can dramatically boost a geographer's capability to understand geographic phenomena both from hard science and humanities oriented approach

**Design Change to Fishery Independent Surveys: When to Adjust and How to Account For It** Fabio Campanella, Ben Scoulding, Nathan Bacheler, Kyle Shertzer, 2025-03-07 Fishery independent surveys provide crucial information for monitoring and assessing marine fish stocks Their utility can largely be attributed to sampling procedures that are consistent across space and time such that observed dynamics can reasonably be assumed to reflect those of the population or community being studied However sometimes changes to the survey design become desirable or necessary They may be desirable if the benefits of modification outweigh the benefits of consistency for example with improvements in sampling technology or efficiency revised survey priorities or increased funding that allows for greater spatial coverage or

temporal resolution In other cases changes to the survey design may not be desirable but necessary for example when specific supplies or equipment become unobtainable or with reductions in funding ship time or human resources
