asked in the actual exam The Transnationalized Social Question Thomas Faist, 2019 The social question is back Yet today's social question is not primarily between labour and capital as it was in the nineteenth century and throughout much of the twentieth The contemporary social question is located at the interstices between the global South and the global North It finds its expression in movements of people seeking a better life or fleeing unsustainable social political economic and ecological conditions It is transnationalized not only because migrants and their significant others entertain ties across the borders of national states staying in touch with family and friends receiving or sending financial remittances in transnational social spaces Also of importance are cross border recruitment schemes for workers and the cross border diffusion of norms appealed to in the case of migration for example the social right to decent work as a human right Moreover migration can become an issue of inclusion or exclusion in fields important to life chances in the emigration transit or immigration states a transnationalization of national states And as in the nineteenth century political conflicts arise constituting the social question as a public concern In earlier periods class differences dominated conflicts While class has always been crisscrossed by manifold heterogeneities not least of all cultural ones around ethnicity religion and language it is these latter heterogeneities that have sharpened in situations of immigration and emigration over the past decades Casting a wide net in terms of conceptual and empirical scope this book tackles both the social structure and the politics of social inequalities It sets a comprehensive agenda for research which also includes the public role of social scientists in dealing with the transnationalized social question **Globalization and Labour in the Twenty-First Century** Verity

Burgmann, 2016-04-14 The Open Access version of this book available at <http://www.tandfebooks.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license Globalization has adversely affected working class organization and mobilization increasing inequality by redistribution upwards from labour to capital However workers around the world are challenging their increased exploitation by globalizing corporations In developed countries many unions are transforming themselves to confront employer power in ways more appropriate to contemporary circumstances in developing countries militant new labour movements are emerging Drawing upon insights in anti-determinist Marxian perspectives Verity Burgmann shows how working class resistance is not futile as protagonists of globalization often claim She identifies eight characteristics of globalization harmful to workers and describes and analyses how they have responded collectively to these problems since 1990 and especially this century With case studies from around the world including Greece since 2008 she pays particular attention to new types of labour movement organization and mobilization that are not simply defensive reactions but are offensive and innovative responses that compel corporations or political institutions to change Aging and less agile manifestations of the labour movement decline while new expressions of working class organization and mobilization arise to better battle with corporate globalization This book will be of interest to students and scholars of labour studies globalization political economy Marxism and sociology of work **The Middle Class**

in Neo-Urban India Smriti Singh, 2023-11-17 This book critically examines the new middle class and the emergence of neo urban spaces in India within the context of rapid urbanisation and changing socio spatial dynamics in urban areas in the country It looks at class as a socio spatial category where class distinction is tied to and manifests itself through the space of the city With a detailed ethnographic study of the national capital region of Delhi especially Gurugram it explores themes such as class subjectivity morality and social beliefs life inside gated enclaves family and everyday practices of class reproduction and the process of othering and exclusivity among others Class identity vulnerability and hierarchy influence the actions and motivations of the middle class The author studies the nuances and socio political fractures stemming from the complex dynamic of class caste religion and gender that manifest in these neo urban spaces and how these shape the city and community Rich in empirical resources this book will be of interest to scholars and researchers of sociology political sociology ethnography urban sociology urban studies and South Asian studies

Regulating Strikes in Essential Services Moti (Mordehai) Mironi, Monika Schlachter, 2018-11-09 Designing a fair effective and acceptable regime that will reconcile public interest and the public s need for an uninterrupted flow of essential services on the one hand while maintaining the freedom of collective bargaining on the other is an ever more difficult public policy challenge This book the first detailed comparative analysis of existing legal and practical approaches across a spectrum of key national jurisdictions provides a structured and insightful overview of the law and practice of regulating strikes in essential services As such it can be of great value for public policy debate and the enhancement of national law in the field The editors have assembled experts from fourteen countries who describe and analyse their respective country s experience with strikes in essential services and the legislative and judicial as well as informal approaches towards regulating and intervening in such strikes Departing from legal theory with systematic comparative law in action research the contributors offer innumerable valuable insights into a broad array of issues and topics as the following mechanisms aiming at compensating employees for encroaching on their collective bargaining rights public accountability and responsible management of public finance role of international conventions effects of globalization and advances in technology privatization outsourcing and the decline of unions and workers solidarity growing popular intolerance towards strikes in essential services effect of human rights related court decisions convergence and divergence among contemporary legal regimes in defining and approaching strikes in essential services dispute process design and dispute resolution processes mediation conciliation and arbitration and substantive and procedural restrictions on the right to organize bargain collectively and strike The country reports are preceded by a detailed analysis of the inherent normative policy dilemma and a conceptual framework for designing and evaluating models of regulation The concluding chapter presents a comparative overview of the insights gained With its comparative perspective on one of the most sensitive areas of industrial relations and labour law and its contextually relevant options for strategic choice and public policy debate this incomparable volume will be welcomed by labour lawyers
