

Trouble-Shooting Guide

Sometimes you may come across minor problems that in most cases do not require a service call and can be easily eliminated. The problem may have resulted from improper handling and / or installation of the appliance. Please refer to the below trouble-shooting guide to assist you in identifying the possible cause and solution to your problem. Should the problem still persist after completing these check-points, contact the nearest authorized service agent in your area for assistance.

The Appliance Fails to Operate After Connecting to Electrical Power Supply

Check if the power cord is properly connected.

Check the power supply in the electrical outlet. (blown fuse / circuit breaker)

Make sure the appliance is switched on. (thermostat knob in operating position)

Continuous Operation of the Cooling System

The door is frequently opened or left open for too long.

The door is not properly closed (the door may sag; the gasket may be polluted or damaged).

Perhaps you may have overloaded the appliance.

The reason may be inadequate ventilation of the compressor (assure adequate air circulation).

Ice Formation on the Inner Rear Wall

As long as the defrost water runs to the channel and through the outlet to the drain pan on the compressor, automatic defrosting of the appliance is assured.

In case the ice formation on the inner back wall is increased (1/8-1/4 inches), ice should be manually defrosted. Set the thermostat knob to STOP (0) position and leave the door open. Never use electric devices for defrosting and do not scrape the ice or frost layer with sharp objects.

After defrosting is complete, turn the knob to desired position and close the door.

The cause of increased ice formation may be one of the following:

the door does not seal well (clean the gasket if it is contaminated, or replace if it is damaged)

the door is frequently opened or left too long

the food stored in the appliance was warm

the food or dish is touching the inner back wall.

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
