**Naked City** Sharon Zukin, 2009-12-18 As cities have gentrified educated urbanites have come to prize what they regard as authentic urban life aging buildings art galleries small boutiques upscale food markets neighborhood old timers funky ethnic restaurants and old family owned shops These signify a place's authenticity in contrast to the bland standardization of the suburbs and exurbs But as Sharon Zukin shows in *Naked City* the rapid and pervasive demand for authenticity evident in escalating real estate prices expensive stores and closely monitored urban streetscapes has helped drive out the very people who first lent a neighborhood its authentic aura immigrants the working class and artists Zukin traces this economic and social evolution in six archetypal New York areas Williamsburg Harlem the East Village Union Square Red Hook and the city's community gardens and travels to both the city's first IKEA store and the World Trade Center site She shows that for followers of Jane Jacobs this transformation is a perversion of what was supposed to happen Indeed *Naked City* is a sobering update of Jacobs' legendary 1961 book *The Death and Life of Great American Cities* Like Jacobs Zukin looks at what gives neighborhoods a sense of place but argues that over time the emphasis on neighborhood distinctiveness has become a tool of economic elites to drive up real estate values and effectively force out the neighborhood characters that Jacobs so evocatively idealized

**Michelangelo's Painting** Leo Steinberg, 2019-12-31 Leo Steinberg was one of the most original art historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies In essays and lectures ranging from old masters to contemporary art he combined scholarly erudition with an eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it His writings sometimes provocative and controversial remain vital and influential reading For half a century Steinberg delved into Michelangelo's work revealing the

symbolic structures underlying the artist's highly charged idiom. This volume of essays and unpublished lectures elucidates many of Michelangelo's paintings from frescoes in the Sistine Chapel to the Conversion of St Paul and the Crucifixion of St Peter; the artist's lesser known works in the Vatican's Pauline Chapel also included is a study of the relationship of the Doni Madonna to Leonardo. Steinberg's perceptions evolved from long hard looking. Almost everything he wrote included passages of old-fashioned formal analysis but always put into the service of interpretation. He understood that Michelangelo's rendering of figures as well as their gestures and interrelations conveys an emblematic significance masquerading under the guise of naturalism. Michelangelo pushed Renaissance naturalism into the furthest reaches of metaphor using the language of the body to express fundamental Christian tenets once expressible only by poets and preachers. Leo Steinberg was one of the most original art historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies. Michelangelo's Painting is the second volume in a series that presents Steinberg's writings selected and edited by his longtime associate Sheila Schwartz.

**American/Medieval** Gillian R. Overing, Ulrike Wiethaus, 2016-10-10. This volume offers a dialogue with and through the medieval informed by cultural categories of performativity and simultaneity in on-line media, architecture, film, poetry, and social formations. The articles depart from Medievalism Studies and attempt to answer questions such as: How do medievalists, artists, writers, and entertainment industries communicate, replicate, and evoke medieval formations? How do national and transnational discursive fields relate to understandings of the medieval in its many unstable states? Where are the communal memory sites and what functions do they serve for those who are associated with them? Where are the medieval disjunctions and conjunctions of race, ethnicity, and time in a settler society? And what do place, nature, and landscape have to do with it?

**Anatomy Live** Maaike Bleeker, 2008. Gross anatomy, the study of anatomical structures that can be seen by unassisted vision, has long been a subject of fascination for artists. For most modern viewers, however, the anatomy lesson, the technically precise province of clinical surgeons and medical faculties, hardly seems the proper breeding ground for the hybrid workings of art and theory. We forget that in its early stages, anatomy pursued the highly theatrical spirit of Renaissance science as painters such as Rembrandt and Da Vinci and medical instructors like Fabricius of Aquapendente shared audiences devoted to the workings of the human body. **Anatomy Live: Performance and the Operating Theatre** a remarkable consideration of new developments on the stage as well as in contemporary writings of theorists such as Donna Haraway and Brian Massumi turns our modern notions of the

dissecting table on its head using anatomical theatre as a means of obtaining a fresh perspective on representations of the body conceptions of subjectivity and own knowledge about science and the stage Critically dissecting well known exhibitions like Body Worlds and The Visible Human Project and featuring contributions from a number of diverse scholars on such subjects as the construction of spectatorship and the implications of anatomical history Anatomy Live is not to be missed by anyone with an interest in this engaging intersection of science and artistic practice

**The Story of Mankind** Hendrik Willem Van Loon, 2021-01-01 The Story of Mankind follows the history of western civilization from prehistoric times to the early 20th century Van Loon both wrote and illustrated this book which he wrote for his grandchildren in such a way that children would be learning in an entertaining way From the development of writing and art to the formation of religion and politics Van Loon emphasizes the people and events central to the changes and achievements of human history A remarkable accurate and enduring work of children's literature The Story of Mankind is an engaging narration of the procession of events in world history

**The Native Speaker Concept** Neriko Musha Doerr, 2009-12-22 The native speaker is often thought of as an ideal language user with a complete and possibly innate competence in the language which is perceived as being bounded and fixed to a homogeneous speech community and linked to a nation state Despite recent works that challenge its empirical accuracy and theoretical utility the notion of the native speaker is still prevalent today The Native Speaker Concept shifts the analytical focus from the second language acquisition processes and teaching practices to daily interactions situated in wider sociocultural and political contexts marked by increased global movements of people and multilingual situations Using an ethnographic approach the volume critically elucidates the political nature of not claiming the native speaker status in daily life and the ways the ideology of native speaker intersects and articulates supports subverts or complicates various relations of dominance and regimes of standardization The book offers cases from diverse settings including classrooms in Japan a coffee shop in Barcelona secondary schools in South Africa a backyard in Rapa Nui Easter Island restaurant kitchens a high school administrator's office a college classroom in the United States and the Internet It also offers a genealogy of the notion of the native speaker from the time of the Roman Empire Employing linguistic anthropological and educational theories the volume speaks not only to the analyses of language use and language policy planning and teaching but also to the investigation of wider effects of language ideology on relations of dominance and institutional and discursive practices

Out of Italy Fernand Braudel, 2019-07-16 From the author of Memory and the Mediterranean a comprehensive history of the Italian city states from 1450 to 1650 In the fifteenth century even before the city states of the Apennine Peninsula began to coalesce into what would become several centuries later a nation Italy exerted enormous influence over all of Europe and throughout the Mediterranean Its cultural economic and political dominance is utterly astonishing and unique in world history Viewing the Italy the many Italies of that time through the lens of today allows us to gather a fragmented multi faceted and seemingly contradictory history into a single unifying narrative that

speaks to our current reality as much as it does to a specific historical period This is what the acclaimed French historian Fernand Braudel achieves here He brings to life the two extraordinary centuries that span the Renaissance Mannerism and the Baroque and analyzes the complex interaction between art science politics and commerce during Italy's extraordinary cultural flowering

*Sudden Death: Medicine and Religion in Eighteenth-Century Rome* Maria Pia Donato, 2016-04-01

In 1705 1706 during the War of the Spanish Succession and two years after a devastating earthquake an epidemic of mysterious sudden deaths terrorized Rome In early modern society a sudden death was perceived as a *mala mors* because it threatened the victim's salvation by hindering repentance and last confession Special masses were celebrated to implore God's clemency and Pope Clement XI ordered his personal physician Giovanni Maria Lancisi to perform a series of dissections in the university anatomical theatre in order to discover the true causes of the deadly events It was the first investigation of this kind ever to take place for a condition which was not contagious The book that Lancisi published on this topic *De subitaneis mortibus* On Sudden Deaths 1707 is one of the earliest modern scientific investigations of death it was not only an accomplished example of mechanical philosophy as applied to the life sciences in eighteenth century Europe but also heralded a new pathological anatomy traditionally associated with Giambattista Morgagni Moreover Lancisi's tract and the whole affair of the sudden deaths in Rome marked a significant break in the traditional attitude towards dying introducing a more active approach that would later develop into the practice of resuscitation medicine Sudden Death explores how a new scientific interpretation of death and a new attitude towards dying first came into being breaking free from the Hippocratic tradition which regarded death as the obvious limit of physician's capacity and leading the way to a belief in the conquest of death by medicine which remains in force to this day

Campbell, 2016-03-09 Though portraits of old women mediate cultural preoccupations just as effectively as those of younger women the scant published research on images of older women belies their significance within early modern Italy This study examines the remarkable flowering largely overlooked in portraiture scholarship to date of portraits of old women in Northern Italy and especially Bologna during the second half of the sixteenth century when as a result of religious reform the lives of women and the family came under increasing scrutiny *Old Women and Art in the Early Modern Italian Domestic Interior* draws on a wide range of primary visual sources including portraits religious images architectural views prints and drawings as well as extant palazzi and case furnishings and domestic objects created by the leading artists in Bologna including Lavinia Fontana Bartolomeo Passerotti Denys Calvaert and the Carracci The study also draws on an array of historical sources including sixteenth century theories of portraiture prescriptive writings on women and the family philosophical and practical treatises on the home economy sumptuary legislation books of secrets prescriptive writings on old age and household inventories to provide new historical perspectives on the domestic life of the propertied classes in Bologna during the period Author Erin Campbell contends that these images of unidentified women are not only crucial to our understanding of the cultural operations of art within the early modern world but also by working from the margins to revise the center provide an opportunity to present new conceptual frameworks and question our assumptions about old age portraiture and the domestic interior [The city trip guide for Arezzo \(Italy\)](#) , 2025-09-26
