discussing the application of religious insights in teaching history this excellent collection of essays forthrightly addresses the epistemological crisis brought on by the postmodern critique of truth and demonstrates the positive implications of a Christian perspective for the study of history and historiography *The New Atheist Denial of History* B. Painter, 2014-11-19 This compact forcefully argued work calls Sam Harris Richard Dawkins Steven Pinker and the rest of the so called New Atheists to account for failing to take seriously the historical record to which they so freely appeal when attacking religion The popularity of such books as Harris's *The End of Faith* Dawkins's *The God Delusion* and Christopher Hitchens' *God Is Not Great* set off a spate of reviews articles and books for and against yet in all the controversy little attention has focused on the historical evidence and arguments they present to buttress their case This book is the first to challenge in depth the distortions of this New Atheist history It presents the evidence that the three authors and their allies ignore It points out the lack of historical credibility in their work when judged by the conventional criteria used by mainstream historians It does not deal with the debate over theism and atheism nor does it aim to defend the historical record of Christianity or religion more generally It does aim to defend the integrity of history as a discipline in the face of its distortion by those who violate it

Trinkle, 2015-04-29 This volume focuses on the role of the computer and electronic technology in the discipline of history It includes representative articles addressing H Net scholarly publication on line reviewing enhanced lectures using the World Wide Web and historical research **The Quest for the Real Jesus** Jan van der Watt, 2013-07-11 The Radboud Prestige Lectures in New Testament 2010 were presented by Prof Michael Wolter University of Bonn His prestige lecture was entitled Which is the real Jesus In this lecture he challenged many of the current views within the historical Jesus research by critically evaluating the approaches in various categories Afterwards this lecture was presented to a variety of scholars from different disciplines who approach the problem from their particular perspectives thus bringing a rich texture of insights apart from engaging critically with Wolter's views Thus one can appreciate the role the quest for the historical Jesus plays within a wider framework This resulted in interesting articles that not only deal with historical but also with philosophical and hermeneutical issues *Textbooks on Israel-Palestine* Seyed Hadi Borhani, 2022-01-27 How is the Israel Palestine question narrated in Western academia What ideas dominate the key textbooks on the subject and what is presented as truth This book answers these critical questions It is widely known that

Western support of Israel played a vital role in the realization of Zionist objectives in Palestine But academic support of Israel in the West has been a neglected issue with Western academic knowledge being regarded as impartial and objective This book reveals that this understanding of Western academic knowledge is wrong when it comes to the Israel Palestine question Rather knowledge has been biased misleading and dogmatic and Western college students are subscribing to factual histories based on theories at best if not fiction The book is the first empirical investigation able to document this partial reporting of history Seyed Hadi Borhani examines the most popular college level textbooks used to teach the history of the Israel Palestine in Western universities combining textbook analysis to determine how the dominant academic texts report the question and a context analysis to identify who manufactures the dominant knowledge The book provides a historical map of how the Israel Palestine conflict is understood in the West The book can be used as a critique for students and professors to use alongside textbooks and is a vital and much needed intervention into the state of affairs in Western academia

The Beatles and the Historians Erin Torkelson Weber,2016-04-27
Hundreds of books have been written about The Beatles Over the last half century their story has been mythologized and de mythologized and presented by biographers and journalists as history Yet many of these works do not strictly qualify as history and the story of how the Beatles mythology continues to be told has been largely ignored This book examines the band s historiography exploring the four major narratives that have developed over time The semi whitewashed Fab Four account the acrimonious breakup era Lennon Remembers version the biased Shout narrative in the wake of John Lennon s murder and the current Mark Lewisohn orthodoxy Drawing on the most influential primary and secondary sources Beatles history is analyzed using historical methods

A History of Weed Science in the United States Robert L. Zimdahl,2010-02-04 It is important that scientists think about and know their history where they came from what they have accomplished and how these may affect the future Weed scientists similar to scientists in many technological disciplines have not sought historical reflection The technological world asks for results and for progress Achievement is important not in general the road that leads to achievement What was new yesterday is routine today and what is described as revolutionary today may be considered antiquated tomorrow Weed science has been strongly influenced by technology developed by supporting industries subsequently employed in research and ultimately used by farmers and crop growers The science has focused on results and progress Scientists have been and the majority remain problem solvers whose solutions have evolved as rapidly as have the new weed problems needing solutions In a more formal sense weed scientists have been adherents of the instrumental ideology of modern science That is an analysis of their work and their orientation reveals the strong emphasis on practical useful knowledge on know how The opposite and frequently complementary orientation that has been missing from weed science is an emphasis on contemplative knowledge that is knowing why This book expands on and analyzes how these orientations have affected weed science s development The first analytical history of weed science to be written Compares the development of weed science entomology and plant pathology Identifies the primary founders of weed science and describes their role

Early Christianity and Historical Methods Joel Steele, 2021-05-25 The focus of this analysis centers on the work of early Christians prominent theologians and church historians who have developed and established orthodoxy in Christian theology Apologetic approaches are analyzed and problems are shown to emerge when there is a lack of distinction made between historical and theological methods Apologists who approach the study of history the same way they approach theology do both disciplines a disservice The second part of the narrative argues that Christ is the essence of faith i e this entity is a deity that exists only through faith Christ's miracles his resurrection and atonement are not consistent with expected realities in history Moreover these elements of the deity were never intended to be proofs in a historical sense Reason therefore in this context is not humanity's salvation Nothing can be learned about Christ from history he is a paradox as Kierkegaard argued Christ cannot be known from a historical perspective Spiritual truths however have been developed by theologians and can be learned through the Christian faith This book will be especially alluring for those interested in understanding some of the most influential developments of early Christianity that morphed into components of the Christian doctrine It covers textual analysis of ancient writings historical approaches to studying theology and methods used for historical inquiry Emphasis is placed on historical methods and why it's important to distinguish theology from history
