H. Arnason, Elizabeth C. Mansfield, 2013 Since it first appeared in 1968 History of Modern Art has emphasized the unique formal properties of artworks and the book has long been recognized for the acuity of its visual analysis An Introduction to the Making of Western Art Susan L. Green, 2024-03-29 This book is the first introduction to Western art that not only considers how choice of materials can impact form but also how objects in different media can alter in appearance over time and the role of conservators in the preservation of our cultural heritage The first four chapters cover wall and easel paintings sculpture drawings and prints from the late Middle Ages to the present day They examine with numerous examples how these works have been produced how they might have been transformed and how efforts regarding their preservation can sometimes be misleading or result in controversy The final two chapters look at how photography new techniques and modern materials prompted innovative ways of creating art in the twentieth century and how the rapid expansion of technology in the twenty first century has led to a revolution in how artworks are constructed and seen generating specific challenges for collectors curators and conservators alike This book is primarily directed at undergraduates interested in art history museum studies and

Wilson Company,1935 **An Art Lover's Guide to Florence** Judith Testa,2012-09-15 No city but Florence contains such an intense concentration of art produced in such a short span of time The sheer number and proximity of works of painting sculpture and architecture in Florence can be so overwhelming that Florentine hospitals treat hundreds of visitors each year for symptoms brought on by trying to see them all an illness famously identified with the French author Stendhal While most guidebooks offer only brief descriptions of a large number of works with little discussion of the historical background Judith Testa gives a fresh perspective on the rich and brilliant art of the Florentine Renaissance in *An Art Lover's Guide to Florence* Concentrating on a number of the greatest works by such masters as Botticelli and Michelangelo Testa explains each piece in terms of what it meant to the people who produced it and for whom they made it deftly treating the

complex interplay of politics sex and religion that were involved in the creation of those works With Testa as a guide armchair travelers and tourists alike will delight in the fascinating world of Florentine art and history The Politics of Contemporary Art Biennials Panos Kompatsiaris,2017-03-31 Contemporary art biennials are sites of prestige innovation and experimentation where the category of art is meant to be in perpetual motion rearranged and redefined opening itself to the world and its contradictions They are sites of a seemingly peaceful cohabitation between the elitist and the popular where the likes of Jeff Koons encounter the likes of Guy Debord where Angela Davis and Frantz Fanon share the same ground with neoliberal cultural policy makers and creative entrepreneurs Building on the legacy of events that conjoin art critical theory and counterculture from Nova Convention to documenta X the new biennial blends the modalities of protest with a neoliberal politics of creativity This book examines a strained period for these high art institutions a period when their politics are brought into question and often boycotted in the context of austerity crisis and the rise of Occupy cultures Using the 3rd Athens Biennale and the 7th Berlin Biennale as its main case studies it looks at how the in built tensions between the domains of art and politics take shape when spectacular displays attempt to operate as immediate activist sites Drawing on ethnographic research and contemporary cultural theory this book argues that biennials both denunciate the aesthetic as bourgeois category and simultaneously replicate and diffuse an exclusive sociability across social landscapes
