Livelihood Struggles in Africa Peter Thomas, Ngonidzashe Marongwe, 2021-05-19 One of the oldest survival pursuits undertaken by the weak and the downtrodden people across the world has been begging Going back to the ancient Christian biblical times up to the present epoch as well as across varying spatial settings in situations of trouble and tribulations parts of various communities have resorted to beggary to either overcome immediate adversities or longer term calamities Drawing on insights from two polar theoretical lenses of Social Constructionism and Social Deconstructionism and guided by a pithy study of the begging across the African continent especially by Zimbabweans this book troubles the various contours related to the subject of begging Inter alia the book considers the concept of begging the causes of the prevalence of begging across the world and particularly among Zimbabweans the challenges and benefits associated with the pursuit of alms the impact of begging in foreign lands as well as some of the strategies that beggars employ to maximize their collections and or profits What can be discerned from the book is that for many begging is one of the last resort undertakings with low pickings However from a utilitarian perspective begging has helped to sustain the impoverished livelihoods of Zimbabweans both inside and outside the borders of the country since the advent of a debilitating crisis experienced from the turn of the new millennium On the whole this book seeks to provoke further researches on an important socio economic area that affects many African communities but has so far been scantily researched The book is handy for students and practitioners in economic history African studies economics risk and disaster management social anthropology political science and development studies Global Challenges to CSR and Sustainable Development Stephen Vertigans, Samuel O.

Idowu, 2021-02-24 This book examines and analyzes the challenges programmes for Corporate Social Responsibility CSR and sustainable development are facing in global management practice It looks at the dichotomy of a general and popular demand for responsible and resilient management and the counterplayers that impact the positive effect of such efforts The book assembles latest research looking at the root causes for this opposition and new case studies that showcase the dilemma and possible solutions to overcome it Overall the book juxtaposes short terminism within CSR programmes and

longer term sustainable development mis allocation of resources and failed promises associated with CSR and sketches pathways how CSR and sustainable development can be directed towards the most pressing issues The Rhodesian Air Force in Zimbabwe's War of Liberation, 1966-1980 Darlington Mutanda,2016-11-10 This book evaluates the development of the Rhodesian Air Force during the Second Chimurenga or Bush War 1966 1980 Airpower in irregular conflict is effective at the tactical level because guerrilla warfare is not a purely military conflict The Rhodesian Air Force was deployed in a war winning versus a supporting role as a result of the shortage of manpower to deal with insurgency and almost all units of the Rhodesian Security Forces depended on its tactical effectiveness Technical challenges faced by the Air Force combined with the rate of guerrilla infiltration and the misuse of airpower to bomb guerrilla bases in neighboring countries largely negated the success of airpower **Reimagining God and Resacralisation** Alexa Blonner,2019-05-14 This book shows that widespread resacralisation has been taking place which is producing new ways of perceiving God and the divine The last century has seen unmistakable changes in religious practices and the concept of spirituality right across the world There was a broad expectation for much of the twentieth century that religious worldviews would eventually succumb to the challenge of secularist materialism but this process of secularisation has yet to occur as predicted The book begins by contrasting theories of secularisation and resacralisation Throughout the book conceptual threads or new religious themes related to this resacralisation are discussed in terms of three main categories reimagining God s nature substance and location reimagining human value and purpose and reimagining modes of redemption Finally the book considers how these threads are moving in various different directions and what the religious future might hold This is a bold examination of contemporary spirituality that will appeal to academics and scholars of religious studies new religious movements and the sociology of religion Minerals Yearbook Geological Survey,Interior Department,Mines Bureau,2019-02-15 This volume covering metals and minerals contains chapters on approximately 90 commodities In addition this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information plus a statistical summary **The Routledge International Handbook of Educational Effectiveness and Improvement** Christopher Chapman,Daniel Muijs,David Reynolds,Pam Sammons,Charles Teddlie,2015-08-14 The International Handbook of Educational Effectiveness and Improvement draws together leading academics and researchers in the field to reflect on the history traditions and the most recent developments in this dynamic and influential field This handbook provides a comprehensive overview of the foundations of the field the evolution of educational effectiveness theory and methodology the links with other research disciplines the links between policy and practice In conclusion the handbook sets out a new agenda for future educational effectiveness research This handbook is an essential resource for those interested in the effectiveness of educational systems organisations and classrooms It offers academics researchers students and policy makers new insights into the latest thinking and evidence about educational effectiveness **Mugabeism after Mugabe?** Duri, Fidelis Peter
