History Paper 2014 November For O Levels Zimsec:

The Palgrave Handbook of History and Social Studies Education Christopher W. Berg, Theodore M. Christou, 2020-04-03
This Handbook presents an international collection of essays examining history education past and present Framing recent curriculum reforms in Canada and in the United States in light of a century long debate between the relationship between theory and practice this collection contextualizes the debate by exploring the evolution of history and social studies education within their state or national contexts With contributions ranging from Canada Finland New Zealand Sweden the Netherlands the Republic of South Africa the United Kingdom and the United States chapters illuminate the ways in which curriculum theorists and academic researchers are working with curriculum developers and educators to translate and refine notions of historical thinking or inquiry as well as pedagogical practice African Music, Power, and Being in Colonial Zimbabwe Mhoze Chikowero, 2015-11-24 In this new history of music in Zimbabwe Mhoze Chikowero deftly uses African sources to interrogate the copious colonial archive reading it as a confessional voice along and against the grain to write a complex history of music colonialism and African self liberation Chikowero s book begins in the 1890s with missionary crusades against African performative cultures and African students being inducted into mission bands which contextualize the music of segregated urban and mining company dance halls in the 1930s and he builds genealogies of the Chimurenga music later popularized by guerrilla artists like Dorothy Masuku Zexie Manatsa Thomas Mapfumo and others in the 1970s Chikowero shows how Africans deployed their music and indigenous knowledge systems to fight for their freedom from British colonial domination and to assert their cultural sovereignty *New Millennium Woes and Livelihood Struggles in Africa* Peter Thomas, Ngonidzashe Marongwe, 2021-05-19 One of the oldest survival pursuits undertaken by the weak and the downtrodden people across the world has been begging Going back to the ancient Christian biblical times up to the present epoch as well as across varying spatial settings in situations of trouble and tribulations parts of various communities have resorted to beggary to either overcome immediate adversities or longer term calamities Drawing on insights from two polar theoretical lenses of Social Constructionism and Social Deconstructionism and guided by a pithy study of the begging across the African continent especially by Zimbabweans this book troubles the various contours related to the subject of begging Inter alia the book considers the concept of begging the causes of the prevalence of begging across the world and particularly among Zimbabweans the challenges and benefits associated with the pursuit of alms the impact of begging in foreign lands as well as some of the strategies that beggars employ to maximize their collections and or profits What can be discerned from the book is that for many begging is one of the last resort undertakings with low pickings However from a utilitarian perspective begging has helped to sustain the impoverished livelihoods of Zimbabweans both inside and outside the borders of the country since the advent of a debilitating crisis experienced from the turn of the new millennium On the whole this book seeks to provoke further researches on an important socio economic area that affects many African

communities but has so far been scantily researched The book is handy for students and practitioners in economic history African studies economics risk and disaster management social anthropology political science and development studies
