Robert M. Fogelson, 2022-10-18 One of the nation's foremost urban historians traces the history of cooperative housing in New York City from the 1920s through the 1970s As World War II ended and Americans turned their attention to problems at home union leaders and other prominent New Yorkers came to believe that cooperative housing would solve the city's century old problem of providing decent housing at a reasonable cost for working class families Working Class Utopias tells the story of this ambitious movement from the construction of the Amalgamated Houses after World War I to the building of Co op City the world's largest housing cooperative four decades later Robert Fogelson brings to life a tumultuous era in the life of New York drawing on a wealth of archival materials such as community newspapers legal records and personal and institutional papers In the early 1950s a consortium of labor unions founded the United Housing Foundation under the visionary leadership of Abraham E Kazan who was supported by Nelson A Rockefeller Robert F Wagner Jr and Robert Moses With the help of the state which provided below market rate mortgages and the city which granted tax abatements Kazan's group built large scale cooperatives in every borough except Staten Island Then came Co op City built in the Bronx in the 1960s as a model for other cities but plagued by unforeseen fiscal problems culminating in the longest and costliest rent strike in American history Co op City survived but the United Housing Foundation did not and neither did the cooperative housing movement Working Class Utopias is essential reading for anyone seeking to understand the housing problem that continues to plague New York and cities across the nation **The Pennsylvania Railroad, Volume 2** Albert J.

Churella, 2023-11-21 By 1933 the Pennsylvania Railroad had been in existence for nearly ninety years During this time it had grown from a small line struggling to build west from the state capital in Harrisburg to the dominant transportation company in the United States In Volume 2 of The Pennsylvania Railroad Albert J Churella continues his history of this giant of American transportation At the beginning of the twentieth century the Pennsylvania Railroad was the world's largest business corporation and the nation's most important railroad By 1917 the Pennsylvania Railroad like the nation itself was confronting a very different world The war that had consumed Europe since 1914 was about to engulf the United States Amid

unprecedented demand for transportation the federal government undertook the management of the railroads while new labor policies and new regulatory initiatives coupled with a postwar recession would challenge the company like never before Only time would tell whether the years that followed would signal a new beginning for the Pennsylvania Railroad or the beginning of the end The Pennsylvania Railroad The Age of Limits 1917 1933 represents an unparalleled look at the history the personalities and the technologies of this iconic American company in a period that marked the shift from building an empire to exploring the limits of their power

**The Schenley Experiment** Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before *Brown v Board of Education* Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary

superintendent Richard C Wallace's reinvigorated school. Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh, officials closed the school in 2008 citing over 50 million in necessary renovations, a controversial event that captured national attention. Schenley alumnus Jake Oresick tells this story through interviews, historical documents, and hundreds of first person accounts drawn from a community indelibly tied to the school. A memorable, important work of local and educational history, his book is a case study of desegregation, magnet education, and the changing nature and legacies of America's oldest public schools.

**Unsettled History** Leslie Witz, Gary Minkley, Ciraj Rassool, 2017-02-27. *Unsettled History* examines South African society and the construction and presentation of its public pasts from Nelson Mandela's release from prison in 1990 to South Africa's hosting of the 2010 FIFA World Cup. Conventionally represented as a time of rectifying the silences and distortions of settler history through inclusion and recovery, the focus here instead is on the shifts in processes and locations of historicizing and the unsettled state of categories of framing history in post-apartheid South Africa. This era saw fundamental transformations in the order of knowledge from the academy to the public, from popular history to public history, from history as lesson to history as forum. Leslie Witz, Gary Minkley, and Ciraj Rassool take the reader to sites of historical production in which complex ideas about pasts are invoked and navigate a path toward understanding the agencies of image making and memory production. This volume is the outcome of the authors' intensive collaborative research and engagement over twenty-five years on questions including the production and performance of apartheid history, the cultural politics of social history, South Africa's Truth and Reconciliation Commission, and practices of orality, tourism as an arena of image making, and historical construction museums as sites of heritage production for a new South Africa, photographs, archival meanings, and the construction of the social documentary and the centenary commemorations of the South African War and the making of race. The authors not only witnessed many of these instances of history making but were also participants in their constitution.

*Going to the dogs* Keith Laybourn, 2019-01-14. Greyhound racing emerged rapidly in Britain in 1926 but in its early years was subject to rabid institutional middle class opposition, largely because of the legal gambling opportunities it offered to the working class. Though condemned as a dissipate and impoverishing activity, it was in fact a significant leisure opportunity for the working class, which cost little for the minority of bettors involved in what was clearly little more than a bit of the flutter. This book is the first national study of greyhound racing in Britain from its beginnings to its heyday in the 1930s and 1940s and up its long slow decline of the late twentieth century. Much of the study will be defined by the dominating issue of working class gambling and the bitter opposition to both it and greyhound racing, although the attractions of this American Night Out will also be examined.

*Yearbook of Transnational History* Thomas Adam, 2019-07-19. The *Yearbook of Transnational History* is dedicated to disseminating pioneering research in the field of transnational history. This second volume provides readers with articles on topics such as transnational marriages, exile, soccer, and missionaries, as well as on the campaigns in Communist

countries for freeing the American civil rights activist Angela Davis These articles highlight the movement of ideas people policies and practices across various cultures and societies and explore the relations connections and spaces created by these movements The articles in this volume explore interconnected historical phenomena in Asia North and South America and Europe from the late seventeenth century to the late twentieth century These articles make clear that historical phenomena such as soccer and exile cannot be contained and explained within just one national setting This volume also offers a theoretical article that provides insights into the concept of intercultural transfer studies and its relationship to comparative and global history and an article that surveys the state of research in the field of transnational crime

*The Closing of the Liberal Mind* Kim R. Holmes, 2017-12-12 A former U S Assistant Secretary of State and currently Acting Senior Vice President for Research at The Heritage Foundation Kim R Holmes surveys the state of liberalism in America today and finds that it is becoming its opposite illiberalism abandoning the precepts of open mindedness and respect for individual rights liberties and the rule of law upon which the country was founded and becoming instead an intolerant rigidly dogmatic ideology that abhors dissent and stifles free speech Tracing the new illiberalism historically to the radical Enlightenment a movement that rejected the classic liberal ideas of the moderate Enlightenment that were prominent in the American Founding Holmes argues that today s liberalism has forsaken its American roots incorporating instead the authoritarian anti clerical and anti capitalist prejudices of the radical and largely European Left The result is a closing of the American liberal mind Where once freedom of speech and expression were sacrosanct today liberalism employs speech codes trigger warnings boycotts and shaming rituals to stifle freedom of thought expression and action It is no longer appropriate to call it liberalism at all but illiberalism a set of ideas in politics government and popular culture that increasingly reflects authoritarian and even anti democratic values and which is devising new strategies of exclusiveness to eliminate certain ideas and people from the political process Although illiberalism has always been a temptation for American liberals lurking in the radical fringes of the Left it is today the dominant ideology of progressive liberal circles This makes it a new danger not only to the once venerable tradition of liberalism but to the American nation itself which needs a viable liberal tradition that pursues social and economic equality while respecting individual liberties

**Governomics** Ian McAuley, Miriam Lyons, 2015-05-01 People have good reason to demand decent public education and a well funded health system to yearn for an economy that doesn t trash the environment or for a smaller gap between rich and poor Almost without exception sound economics is on their side We ve grown used to public debates that pit people and the planet against an abstract distorted image of the economy but it doesn t have to be this way Governomics shows that an emaciated state is bad for business and that standing up for government means standing up for a public sector that truly serves the public Everybody knows governments are wasteful incompetent and a drag on the economy But if you re not sure that s true read this book Ross Gittins Sydney Morning Herald and The Age Governomics shows that a market economy can only work when sustained by a strong and active public sector It will inject some much needed economic sanity into conversations on the role of government in Australia John Quiggin Australian Research Council Laureate Fellow University of Queensland

**The Activist 1960s** Robert C. Cottrell, 2023-05-01 Throughout the Long Sixties which spanned much of the seemingly quiescent 1950s and continued into the 1970s progressive activists sought to change American policy both foreign and domestic Beginning with a civil rights crusade that later expanded to a campaign against the Vietnam War the movement eventually splintered into a series of focuses racial ethnic demographic political cultural gender based and environmental This work details activists efforts to ensure basic rights through fostering civic engagement Chapters demonstrate how the various campaigns within the movement were all successful to some extent but none brought about the results that many desired Nonetheless they contributed to a more open egalitarian participatory and emancipated nation that is still being shaped today
