Yearbook of Transnational History Thomas Adam, 2018-05-31 The Yearbook of Transnational History is dedicated to disseminating pioneering research in the field of transnational history This inaugural volume provides readers with articles on topics such as soccer travel music and social policy These articles highlight the movement of ideas people policies and practices across various cultures and societies and explore the relations and connections and spaces created by these movements These articles make clear that historical phenomena from travel to music cannot be contained and explained within just one national setting The volume offers further a number of theoretical and methodological articles that provide insights into the concept of transnational history and the approach of intercultural transfer studies Last but not least the volume also includes a number of review articles These review articles provide an examination of books central to teaching transnational history as well as a historiographical exploration of the impact of transnational history on the field of sports history **Oral history in South Africa** Sekgothe Mokgoatšana, 2025-05-06 Colonial and apartheid era historical narratives in South Africa often disregard oral testimonies leaving significant gaps in understanding the country's rich and complex past

This scholarly book explores the methodologies and ethics of oral history to address these omissions and to elevate oral testimonies as vital tools in historical scholarship. This book brings together ten chapters authored by leading academics and researchers. It critically examines how oral history methodologies can be contextualised within South Africa's diverse and multifaceted society. Rather than focusing on Eurocentric approaches, it emphasises the need to rethink the ethics and practices of oral history from an Afrocentric perspective. Through its transdisciplinary and interdisciplinary lens spanning history, indigenous knowledge studies, museum and archival studies, and folklore, this book advocates for the recognition of interviewees as knowledge holders fostering meaningful exchanges rather than mere knowledge extraction. The authors emphasise the need to protect and expand oral history archives ensuring the representation of marginalised voices and redressing past injustices. With original research, this volume sheds light on the transformative potential of oral history in South Africa, offering new arguments and perspectives. It aims to inspire scholars, researchers, and specialists to rethink conventional practices and to bridge the divide between written and oral histories. This is essential literature for scholars and practitioners in history, oral history, theology, museum studies, and related fields as it reimagines the role of oral testimonies in producing inclusive and credible historical narratives.

PREPPERS: HISTORY AND THE CULTURAL PHENOMENON

Lynda King, 2014-08-07 The word prepper seems to have burst onto the scene within the last 10 years and has increasingly become associated with fringe extremists. They have been labeled by some as domestic terrorists. But is prepping a new phenomenon? Or is it a manifestation of a growing collective psyche that has learned from traumatic events throughout our history that preparedness is critical to human survival? For new preppers who think the worst is yet to come, this book offers a walk through history that shows the worst has been here before. For those who wonder why so many people are concerned about being prepared, this book will show that when the worst has made an appearance, those who weathered it best were those who were prepared. For those already familiar with history's worst, who think THAT will never happen again, this book offers a reminder of the Wall Street adage: Past performance is no guarantee of future results. For those who wonder what a prepper is, this book offers a look at what they used to be and what they are today.

History in the Humanities and Social Sciences Richard Bourke, Quentin Skinner, 2022-12-22 This interdisciplinary volume explores the relationship between history and a range of disciplines in the humanities and social sciences: economics, political science, political theory, international relations, sociology, philosophy, law, literature, and anthropology. The relevance of historical approaches within these disciplines has shifted over the centuries. Many of them, like law and economics, originally depended on self-consciously historical procedures. These included the marshalling of evidence from past experience, philological techniques, and source criticism. Between the late nineteenth and the middle of the twentieth century, the influence of new methods of research, many indebted to models favoured by the natural sciences such as statistical, analytical, or empirical approaches, secured an expanding intellectual authority while the hegemony of historical methods declined in relative terms. In the aftermath of this

change the essays collected in *History in the Humanities and Social Sciences* reflect from a variety of angles on the relevance of historical concerns to representative disciplines as they are configured today The History of Music Production Richard James Burgess,2014-06-25 In *The History of Music Production* Richard James Burgess draws on his experience as a producer musician and author Beginning in 1860 with the first known recording of an acoustic sound and moving forward chronologically Burgess charts the highs and lows of the industry throughout the decades and concludes with a discussion on the present state of music production Throughout he tells the story of the music producer as both artist and professional including biographical sketches of key figures in the history of the industry including Fred Gaisberg Phil Spector and Dr Dre Burgess argues that while technology has defined the nature of music production the drive toward greater control over the process end result and overall artistry come from producers The result is a deeply knowledgeable book that sketches a critical path in the evolution of the field and analyzes the impact that recording and disseminative technologies have had on music production A key and handy reference book for students and scholars alike it stands as an ideal companion to Burgess's noted multi edition book *The Art of Music Production* A History of Canberra Nicholas Brown,2014-06-18 In this charming and concise book Nicholas Brown looks beyond the clichés to illuminate the colourful history of Australia's capital

Indian History - 38 Previous Papers -CSAT Paper I - Civil Services Exam 1st Edition Mocktime Publication, 38 Previous Papers Indian History CSAT Paper I Civil Services Exam 1st Edition Upsc ias csat previous year papers topicwise Upsc Solved previous last year question papers subjectwise Indian polity laxmikanth Indian economy Ramesh singh Gc leong ethics tmh general studies manual old ncert upsc ias history polity economy objective geography ecology Shankar environment general science objective Gs general studies csat paper I II 1 1 paper 2 Women in the History of Science Hannah Wills,Sadie Harrison,Erika Lynn Jones,Farrah Lawrence-Mackey,Rebecca Martin,2023-03-06 *Women in the History of Science* brings together primary sources that highlight women's involvement in scientific knowledge production around the world Drawing on texts images and objects each primary source is accompanied by an explanatory text questions to prompt discussion and a bibliography to aid further research Arranged by time period covering 1200 BCE to the twenty first century and across 12 inclusive and far reaching themes this book is an invaluable companion to students and lecturers alike in exploring women's history in the fields of science technology mathematics medicine and culture While women are too often excluded from traditional narratives of the history of science this book centres on the voices and experiences of women across a range of domains of knowledge By questioning our understanding of what science is where it happens and who produces scientific knowledge this book is an aid to liberating the curriculum within schools and universities *Iraq in Crisis* Anthony H. Cordesman,Sam Khazai,2014-06-04 *Iraq is a nation in crisis bordering on civil war The country now faces growing violence a steady rise in Sunni Islamist extremism an increasingly authoritarian leader that favors Iraq's Sunnis and growing ethnic tension between Arabs and Kurds The recent Iraqi election offers little promise that it can correct the*

corruption the weaknesses in its security forces and the critical failures in governance economic development and leadership The problems Iraq faces in 2014 are a legacy of mistakes made during and after the U S led invasion in 2003 but increasingly the nation is dealing with the self inflicted wounds of its leaders who abuse human rights repress opposing factions and misuse the Iraqi police and security forces to their own end *Visualizing Film History* Christian Gosvig Olesen,2025-01-07 Though many archival digital objects were not born digital film archives are now becoming important resources for digital scholarship as a consequence of digitization Moreover with advancements in digital research methods involving video annotation visual analysis and GIS affecting the way we look at archival films material stylistic histories and circulation new research practices are more important than ever *Visualizing Film History* is an accessible introduction to archive based digital scholarship in film and media studies and beyond With a combined focus on the history of film historiography archiving and recent digital scholarship covering a period from the first wave of film archiving in the early 1900s to recent data art this book proposes ways to work critically with digitized archives and research methods Christian Olesen encourages a shift towards new critical practices in the field with an in depth assessment of and critical approach to doing film historiography with the latest digital tools and digitized archives Olesen argues that if students scholars and archivists are to fully realize the potential of emerging digital tools and methodologies they must critically consider the roles that data analysis visualization interfaces and procedural human machinery interactions play in producing knowledge in current film historical research If we fail to do so we risk losing our ability to critically navigate and renew contemporary research practices and evaluate the results of digital scholarship *Methodology in Sports History* Wray Vamplew,Dave Day,2018-12-07 The process of converting the past into history involves engagement with a multitude of different sources and methods and sports historians inevitably participate in the same debates over approaches and methodologies as their counterparts in other historical disciplines At its heart history remains a genre of empirical knowledge that is based upon the remains of the past and without suitable evidence there can be no sports history A burgeoning range of sources has stimulated new ways of thinking and a significant expansion in the sports historian s evidentiary base as textual sources have been supplemented by photos films and cartoons uniforms architecture maps and landscapes and material culture more generally This book deals with some of these innovations It is divided into two sections the first offering chapter length studies of particular methodologies and the second brief responses from experts in their fields to the question what can sports historians learn from other disciplines **The Creation of the Boer Identity** Wiets Buys,2024-02-19 The history of the Boer identity is an epic saga The Boer identity emerged in the isolation of an expansive landscape and evolved as a unique cultural entity deeply rooted in the principles of individualism localism independence and freedom The development of the Boer identity is an action packed tale of sacrifice suffering loss victory and resilience that shaped the Boer identity What sets *The Creation of the Boer Identity* apart is that it challenges the traditional perspective which has never focused on

the creation and development of the Boer identity It is a comprehensive exploration of the formation of the Boer identity The book has been extensively researched and include information and insights not previously published in history books The book describes correspondence and public statements by key figures discussing specific events of that time adding a personal and historical dimension to the story It not only narrates the events but also provides factual insights behind them This work presents a fresh perspective on the history of the Boers from the viewpoint of the Boer identity DISCOVER THIS ASTOUNDING CHRONICLE AND WITNESS THE BIRTH OF A NATION THROUGH THE LENS OF ITS TRUE IDENTITY

The Oxford Handbook of Commodity History Jonathan Curry-Machado, Jean Stubbs, William Gervase Clarence-Smith, Jelmer Vos, 2024 The Oxford Handbook of Commodity History features contributions from scholars involved in the field s development across a range of countries and linguistic regions Each of the handbook s thirty one chapters focuses on an important theme within commodity history essential approaches global histories modes of production people and land environmental impact consumption and new methodologies **British librarianship and information work 2011-2015** J. H. Bowman, 2017-01-24 This is the latest in an important series of reviews going back to 1928 The book contains 28 chapters written by experts in their field and reviews developments in the principal aspects of British librarianship and information work in the years 2011 2015 *German Neoliberalism from 1924 to 1963* Arne I. A. Käthner, 2024-09-18 This book offers an in depth study of German neoliberalism between 1924 and 1963 arguing that a neoliberal network was established in the interwar period decades before elite networks in Great Britain and the United States fostered the neoliberal revolution of the Thatcher and Reagan administrations The author shows how this network strongly influenced societal developments in the 1950s and set a precedent for neoliberal projects in other countries This success was largely due to the deliberate and strategic reorganisation of the semantic field abandoning or reacquiring abused concepts challenging existing meanings or introducing new concepts to the political scene The book examines the Aktionsgemeinschaft Soziale Marktwirtschaft ASM an early neoliberal Think Tank founded in 1953 and led by Alexander R stow which became an influential political actor in post war West Germany The author adopts a decidedly transnational approach linking and contrasting inner German debates with those taking place transnationally among neoliberal proponents in the Mont Plerin Society More than just a political study of ideologies this book provides a historical account of the conceptual struggles over neoliberalism the actors who engaged in them the spheres in which they took place and the semantic means and conceptual strategies employed providing useful insights for scholars of German and political history as well as political science more generally **The Meanings of Europe** Claudia Wiesner, Meike Schmidt-Gleim, 2014-01-03 What is Europe What are the contents of the concept of Europe And what defines European identity Instead of only asking these classical questions this volume also explores who asks these questions and who is addressed with such questions Who answers the questions from which standpoints and for what reasons Which philosophical historical religious or political

traditions influence the answers This book addresses its task in three parts The first concentrates on the controversies around the meaning of Europe The second focuses on the role of the European Union The third discusses Europe and its relations to different types of otherness or rather non European ness The volume produces a complex and plural picture of the concepts ideas debates and ex changes associated with the concept of Europe and has a clear significance for today s debates on European identity Europeanization and the EU

The Preservation Management Handbook Ross

Harvey, Martha R. Mahard, 2014-04-10 Cultural heritage professionals museum curators museum professionals archivists and librarians work with their specialized knowledge to prioritize the needs of their collections Preservation managers draw on experts in climate control fire safety pest management and more in developing the large overview of a collection and its needs And all the special materials within the collections have their experts too Here in one volume is a wide range of topic specific expertise that comprises both an enduring text for preservation students as well as an essential one stop reference for cultural heritage professionals particularly those in small to medium sized organizations where resources are limited and professional help is not always at hand The editors introduce the reader to the essential tools and principles of a preservation management program in the twenty first century addressing the realities of diverse collections and materials and embracing the challenges of working with both analog and digital collections The sections on planning and managing a preservation program contain the basic starting point for any kind of collection regardless of size and content Written with the small collection in mind the principles are nevertheless scalable and widely applicable

Australia's Defence Peter

Dean, Brendan Taylor, Stephan Frühling, 2014-07-18 Almost half a century ago the Australian National University s TB Millar penned a seminal book on Australian defence policy in the lead up to the Vietnam War Today Australia s defence forces are returning from long conflicts overseas while the rise of China and the economic integration in the Indo Pacific presents a complex mix of challenges and opportunities Drawing inspiration from Millar s original volume Australia s Defence Towards a New Era brings together leading experts to examine the domestic and international context of Australia s defence policy Australian strategy and the size and state of our armed forces As the country heads towards a new era this book provides an in depth overview and key insights into the past present and future of Australia s defence
