metaphor and symbolic system this paper emphasizes how art direction is used to engage the audience into a form of immersion that helps audience to interpret films and induce emotions and embeds film into larger cultural discourses The discussion also highlights the necessity of further attention to art direction in multinational cinema especially on the examples of such countries like Bangladesh where industrial cultural and aesthetic problems collide In summary the paper postulates that the art direction is a key component in invoking the reality in cinema production expressing the scripts used into worlds experienced on the screen framing reception of the audience of the reality seen and ensuring the perpetual vitality of the cinematic reality as entertainment and cultural texts *Academic Writing and Information Literacy*
