Packaging Frank A. Paine, Heather Y. Paine, 2012-12-06 This is the second edition of a successful title first published in 1983 and now therefore a decade out of date The authors consider the development of the right package for a particular food in a particular market from the point of view of the food technologist the packaging engineer and those concerned with marketing While the original format has been retained the contents have been thoroughly revised to take account of the considerable advances made in recent years in the techniques of food processing packaging and distribution While efficient packaging is even more a necessity for every kind of food whether fresh or processed and is an essential link between the food producer and the consumer the emphasis on its several functions has changed Its basic function is to identify the product and ensure that it travels safely through the distribution system to the consumer Packaging designed and constructed solely for this purpose adds little or nothing to the value of the product merely preserving form or processor freshness or preventing physical damage and cost effectiveness is the sole criterion for success If however the packaging facilitates the use of the product is reusable or has an after use some extra value can be added to justify the extra cost and promote sales Many examples of packaging providing such extra value can be cited over the last decade Marketing Information Guide, 1954 *Handbook of Meat and Meat Processing, Second Edition* Y. H. Hui, 2012-01-11 Retitled to reflect expansion of coverage from the first edition Handbook of Meat and Meat Processing Second Edition contains a complete update of materials and nearly twice the number of chapters Divided into seven parts the book covers the entire range of issues related to meat and meat processing from nutrients to techniques for preservation and extending shelf life Topics

discussed include An overview of the meat processing industry The basic science of meat with chapters on muscle biology meat consumption and chemistry Meat attributes and characteristics including color flavor quality assessment analysis texture and control of microbial contamination The primary processing of meat including slaughter carcass evaluation and kosher laws Principles and applications in the secondary processing of meat including breeding curing fermenting smoking and marinating The manufacture of processed meat products such as sausage and ham The safety of meat products and meat workers including sanitation issues and hazard analysis Drawn from the combined efforts of nearly 100 experts from 16 countries the book has been carefully vetted to ensure technical accuracy for each topic This definitive guide to meat and meat products it is a critical tool for all food industry professionals and regulatory personnel **Monthly Catalog of United States Government Publications** ,2004 *The Code of Federal Regulations of the United States of America* ,2002 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government **52nd International Congress of Meat Science and Technology** Declan Troy,Rachel Pearce,Briege Byrne,Joseph Kerry,2023-08-28 This book contains over 300 offered papers in addition to 4 papers from invited speakers presented at the 52nd International Congress of Meat Science and Technology held in Dublin Ireland from 13 18 August 2006 Under the theme of harnessing and exploiting global opportunities areas covered in the congress included meat quality encompassing genomics and biotechnology animal production and production systems muscle biology and biochemistry meat safety meat processing and packaging technology consumer topics and meat and health A new approach this year was to address specific hot topics important to the industry and meat scientists in particular electrical stimulation and new instrumental methods for evaluation of meat quality characteristics These proceedings reflect the truly global nature of meat research and give an insight into the current research issues for the industry **Routledge International Handbook of Masculinity Studies** Lucas Gottzén,Ulf Mellström,Tamara Shefer,2019-11-20 The Routledge International Handbook of Masculinity Studies provides a contemporary critical and scholarly overview of theorizing and research on masculinities as well as emerging ideas and areas of study that are likely to shape research and understanding of gender and men in the future The forty eight chapters of the handbook take an interdisciplinary approach to a range of topics on men and masculinities related to identity sex sexuality culture aesthetics technology and pressing social issues The handbook s transnational lens acknowledges both the localities and global character of masculinity A clear message in the book is the need for intersectional theorizing in dialogue with feminist queer and sexuality studies in making sense of men and masculinities Written in a clear and direct style the handbook will appeal to students teachers and researchers in the social sciences and humanities as well as professionals practitioners and activists [Catalog of Copyright Entries](#) Library of Congress.
