Security and Privacy Assurance in Advancing Technologies: New Developments Nemati, Hamid, 2010-11-30 This book provides a comprehensive collection of knowledge from experts within the field of information security and privacy and explores the changing roles of information technology and how this change will impact information security and privacy Provided by publisher Exchange-Traded Funds and the New Dynamics of Investing Ananth N. Madhavan, 2016-06-27 In *Exchange Traded Funds and the New Dynamics of Investing* Ananth Madhavan examines the quiet transformation of asset management through the rise of passive or index investing A closely related phenomenon is the rise of exchange traded funds ETFs An ETF is an investment vehicle that trades intraday and seeks to replicate the performance of a specific index ETFs have grown substantially in size diversity and market significance in recent years These trends have generated considerable interest especially from retail and institutional investors and increasingly from academics regulators and the press ETFs have the power to be a disruptive innovation to today's asset management industry because many traditional active managers and hedge funds deliver a significant fraction of their active returns via static exposures to factors like value Indeed for the first time ever assets in global ETFs exceeded 3 trillion in 2015 passing the amount in hedge funds **Managing Performance** Geert Bouckaert, John Halligan, 2007-12-20 In recent years concerns over the effectiveness of public administration have encouraged the widespread measurement and management of performance But is performance management an appropriate model for public sector organizations and has it proved successful Moreover how do the principles of performance management affect how public bodies operate and the way they relate to the wider community In this important text the viability of performance management in public sector organizations is systematically assessed across a number of international case studies The book provides a framework through which models of performance management can be understood in terms of both their impact within a public sector organization and the effects that have been seen in countries

with contrasting administrative contexts **Managing Performance International Comparisons** critically examines the effects of performance management models in the public sector and assesses their future evolution It is an important book for all students and researchers with an interest in management public administration and public policy **Managing**

Government Property Assets Olga Kaganova, 2006 Governments own a vast array of real property from large stretches of land to public housing projects from water distribution systems and roads to office buildings Typically management of public property is highly fragmented with responsibility for each type of asset falling within a different agency or bureaucracy In almost all countries different classes of property are managed according to their own rules often following traditional practices rather than any assessment of what type of management is appropriate Over the past decade however a new discipline has emerged that examines this important component of public wealth and seeks to apply standards of economic efficiency and effective organizational management **Managing Government Property Assets** reviews and analyzes this recent wave of activity The authors draw upon a wide variety of national and local practices both in countries that have been leaders in management reforms and in countries just beginning to wrestle with the problem This comparison reveals that the issues of public property management are surprisingly similar in different countries despite striking differences in institutional contexts and policy solutions **Public Management Reform** Christopher Pollitt, Geert Bouckaert, 2017 This is the

thoroughly revised fourth edition of the widely used and established standard text on public management reform The new edition retains the historical perspective back to 1980 but now directly addresses the pervasive effects of the Global Economic Crisis of 2008 on public sectors in the three continents covered *Digital Management and Artificial Intelligence* Richard C. Geibel, *Research Handbook on Global Governance, Business and Human Rights* Marx, Axel, Van Calster, Geert, Wouters, Jan, Otteburn, Kari, Lica, Diana, 2022-03-10 This essential Research Handbook provides a comprehensive and critical assessment of the global governance instruments related to business and human rights from an interdisciplinary perspective Contributions from a diverse range of leading international scholars offer an overview of the existing literature and rapidly evolving research discipline as well as identifying key trends and outlining an ambitious future research agenda
