J. Farmer,N. I. training and ongoing learning and organization of youth serving librarians mirror each country's values and priorities. The essays in *Youth Serving Libraries in Japan, Russia, and the United States* address the universal and culture-specific aspects of library services to children and teens in these three countries. This collection shows how libraries have developed in light of each country's political, educational, and social history. They examine how government and citizen roles in youth serving libraries also reflect culturally defined social structures. The chapters highlight unique collections and services within each country and also show how librarians deal with the challenges they encounter both from within their culture as well as from outside, including natural disasters. Each country's authors discuss contemporary issues that face youth serving libraries such as information literacy, reading in a multimedia world, and the overarching influence of technology. This book will be of interest to youth serving librarians around the world, library educators, and for those studying international and young adult librarianship.
