„Trust Me - It's Paradise“ The Escapist Motif in Into the Wild, The Beach and Are You Experienced? Hannes Krehan, 2014 The author analyzes three books on escapism and the various ways in which it is represented in them. He focuses on Alex Garland's backpacker cult novel *The Beach* and William Sutcliffe's satire of the gap year traveler *Are You Experienced* as well as Jon Krakauer's non-fiction book *Into the Wild*. The first part of the analysis deals with the influence of literary genres like the Bildungsroman and travel literature. Unreliable narration as a narrative strategy is taken into consideration as well as the colonial subtext of *The Beach* and *Are You Experienced*. In *Into the Wild* nature writing and road narratives are an integral part of the narrative. The second part deals with cultural aspects such as questions of authenticity that are raised during the narratives, the role of drugs as a means of escape and also the problematic relationship between travelers and tourists. Finally, the author compares two film adaptations: Danny Boyle's *The Beach* (2000) and Sean Penn's *Into the Wild* (2007) with their corresponding literary source texts

Wild Games Dennis Ray Cutchins, Eric Alden Eliason, 2009 Humans understand at least some of what it means to be human both literally and figuratively in reference to wild animals Our relationships with wildlife have traditionally been expressed in terms of hunting more recently these relationships have also been manifest as efforts to prevent hunting Hunting and fishing traditions are in fact under fire by critics at the same time that they are receding of their own accord perhaps becoming even more endangered than any of the pursued animals These traditions form the major focus of Wild Games a new collection of essays that looks at the folklore and culture of various hunting and fishing practices documenting the central importance of hunting to many rural societies even in modern times Editors Dennis Cutchins and Eric Eliason contend that hunters often don't perceive of themselves as separate from the wild but rather identify strongly with a natural order integrated with rather than standing apart from the fluctuation of ecosystems And they frequently don't see wild animals as set apart but understand them as food sources competitors friendly rivals and even equals Featuring contributions from a variety of distinguished scholars and writers including an essay by the noted folklorist Simon Bronner on the culture of the deer camp a fascinating account of coyote tracking by Eric Eliason and an examination of the role of gender in outdoor life by Diane Humphrey Lueck this book shows how the traditions of hunting and fishing tend to bind hunter and prey into ancient patterns that often defy contemporary culture Book Jacket
