The conference was organized in two simultaneous tracks: Artificial Intelligence and Agents. The book is based on the same structure. ICAART 2009 received 161 paper submissions from more than 37 different countries in all continents. After a blind review process, only 26 were accepted as full papers, of which 21 were selected for inclusion in this book based on the classifications provided by the Program Committee. The selected papers reflect the interdisciplinary nature of the conference. The diversity of topics is an important feature of this conference, enabling an overall perception of several important scientific and technological trends. These high quality standards will be maintained and reinforced at ICAART 2010 to be held in Valencia, Spain, and in future editions of this conference. Furthermore, ICAART 2009 included five plenary keynote lectures given by Juan Carlos Augusto (University of Ulster), Marco Dorigo (IRIDIA, Free University of Brussels), Timo Honkela (Helsinki University of Technology), Edward H. Shortliffe (Arizona State University), and Paulo Urbano (University of Lisbon). We would like to express our appreciation to all of them and in particular to those who took the time to contribute with a paper to this book.
