## **Jesaiah Ben Aharon:**

*The New Experience of the Supersensible* Jesaiah Ben-Aharon, 2007 According to Rudolf Steiner's spiritual science the greatest spiritual event of our time is the renewal and reawakening of our human suprasensory relationship to the higher spiritual worlds. The force that leads to this development, called by various names in different cultural and religious traditions, is called the Christ impulse by Anthroposophy in accordance with Christian terminology. Because of new naturally endowed suprasensory faculties, human beings are increasingly able to experience and perceive through an act of grace the great spiritual force of the Christ impulse. This experience is said to be a naturally given initiation, and today we increasingly hear of such suprasensory experiences. Today, however, a healthy approach to these natural phenomena requires us to comprehend suprasensory experiences with full awareness and clear thinking. This book builds an all-important bridge between the naturally given suprasensory experience and its conscious cognition. As a result, empirical suprasensory research can investigate the different aspects of Christ's etheric becoming and appearance in a way that both methodically and experientially fulfils the justified cognitive and scientific requirements of our age. This new paperback edition adds a new introductory chapter.

**Spiritual Science in the 21st Century** Yeshayahu Ben-Aharon, 2017-06-21 With love, humour, and brilliant insight, Ben Aharon addresses some of the most critical questions of our age, ranging from artificial intelligence and global politics to education and postmodern philosophy. Although tackling diverse subject matter, this accessible anthology, delivered initially as lectures in locations as contrasting as New York, Oslo, and Munich, features a coherent inner rhythm. With his lively and intense presentation, the speaker invites us to share and participate in the creative process and the dynamic activity of incarnating new ideas, indeed to awaken to the very Spirit of our Time. Ben Aharon discusses his investigations into the Spiritual Event of the 21st Century, the working of spiritual beings in America, Central Europe, Scandinavia, and Israel; the renewal of education; the creative transformation of antisocial forces; Israel's diverse culture in the midst of the clash of civilizations; the new Christ Event and how it can break through our habitual patterns and our hardened thinking, feeling, and will; and the mission of the anthroposophical movement in our time. Informed throughout by decades of spiritual research and intimate experience, this volume contains mature and illuminating explorations into contemporary culture, history, and spiritual science.

Cognitive Yoga: How a Book is Born Yeshayahu Ben-Aharon, 2017-11-17 This little book relates some experiences I had during the spiritual research which was eventually published in my book Cognitive Yoga Usually I am concerned with communicating the objective results of my research and not what I experienced whilst doing it But an objective description of what the individual soul undergoes during spiritual research can be valuable to the study of anthroposophy and to those who pursue the spiritual path themselves Through faithful inner work says the author the path of spiritual science can become a living spiritual being an intimate friend in the realms of soul and spirit This being can blossom into an extended spiritual community or school One can converse and co create with this spiritual school including the being

of one's teacher by learning its inner language In 2012 Yeshayahu Ben Aharon was confronted with a major obstacle in his research work After struggling alone he felt he could not progress without consulting his colleagues in the spiritual world The intimate soul experiences described in this book took place during such a gathering a special festive occasion with an active and engaged community of spiritual beings I want to share some aspects of what I experienced during this event in the more personal and imaginative language of storytelling It is a kind of new individual Christmas nativity tale about the earthly ripening of a research problem its heavenly conception embryonic life and finally the birth on earth of what becomes a physical book printed black on white **The Event in Science, History, Philosophy and Art** Yeshayahu

Ben-Aharon, 2011-10 In this book Dr Ben Aharon demonstrates how the transformation of human consciousness in modern times is expressed in the fields of Science History Philosophy and Art He shows how creative concepts have been discovered and applied in physics biology genetics and artificial intelligence In the Philosophy chapter Ben Aharon traces the thought of Deleuze and Guattari Foucault Derrida Badiou and Levinas and shows that this radical thinking is no longer abstract theoretical reasoning or mere speculation Rather it is an exercise in generating real cognitive and moral substance taking the human beyond the traditional boundaries of body subjectivity and identity The chapter on Art demonstrates how contemporary artistic work joins together with science and thinking to create a new stream of real becoming and evolution The historical decision of our time is then Are we going to apply this new creativity in social life or will we reverse it into its destructive opposite **The Three Meetings** Yeshayahu (Jesaiiah) Ben-Aharon, 2022-04-12

How can our souls unite with the etheric Christ experienced in the etheric world since the end of the last century What steps should we take in the second century of the age of Michael to unite with Him At the centre of humanity's evolution stands the Mystery of Golgotha through which the Christ impulse entered the earth Anthroposophy said Rudolf Steiner was given at the beginning of the last century to prepare for the second major Christ event the etheric Second Coming beginning in 1933 This Event is the portal that leads to the mighty and transformative happenings taking place in the etheric world right now enabling us to meet the etheric Christ Michael and Anthroposophia At the heart of this book is an existential question Early in his anthroposophical work Ben Aharon came to realize that without the light of spiritual science the meeting with the etheric Christ remained simply a personal experience Likewise without the new life forces streaming from the etheric Christ anthroposophy was merely a body of knowledge frozen in time Both needed each other But how was that mutually enlivening bridge to be built Speaking candidly of his personal spiritual path and inner struggles of consciousness Ben Aharon tackles this fundamental dilemma as a prelude to the forthcoming second edition of his book The New Experience of the Supersensible Contents include The Ur Phenomena of the Modern Christ Experience Paul's Christ Experience and the Birth of Christian Platonism The Michaelic Yoga The Platonic Aristotelian Essence Exchange at the End of the Twentieth Century The Meeting with the Etheric Christ The Abyss and the Event of the Threshold The Knowledge Drama of the Second Coming The Meeting with Michael The

Steffen Hartmann,2025-04-21 Over the course of the last decades there has been an increasing demand by people for spiritual experience whether it involves elemental beings past incarnations or encounters with angels But how should we distinguish between reality and illusion in such perceptions particularly when efforts are often focused on instantaneous experience Is it really possible to build a scientific foundation for metaphysics today And what role might thinking play in such a truly contemporary spirituality There is a tradition traceable to Aristotle and leading to Rudolf Steiner that seeks to establish metaphysics as a science Connecting with this noetic practise Steffen Hartmann argues that the sure path of personal development begins with pure thought and meditation Only then under the right conditions does it lead to spiritual experience Through developing our mental faculties to the point where we can properly evaluate such experience we build a new foundation for understanding the I our essential core Self awareness of the I in pure thinking is the eye of the needle through which we should pass In thought we can even unite with the essence of the angels By enriching our thinking we can access as conscious mindful individuals the realm of angelic beings Angels are messengers of light In this book the angels themselves are shining their light in the writings of Steffen Hartmann Johannes Greiner The strength of this text lies in its purposeful progression It is like a guided tour up a mountain that after a lot of effort offers a wonderful panoramic view Matthias Bideau Die Drei
