Persian Royal-Judaean Elite Engagements in the Early Teispid and Achaemenid Empire Jason M. Silverman, 2019-11-14 Jason

Silverman presents a timely and necessary study advancing the understanding of Achaemenid ideology and Persian Period Judaism While the Achaemenid Persian Empire c 550 330 BCE dwarfed all previous empires of the Ancient Near East in both size and longevity the royal system that forged and preserved this civilisation remains only rudimentarily understood as is the imperial and religious legacy bequeathed to future generations In response to this deficit Silverman provides a critically sophisticated and interdisciplinary model for comparative studies While the Achaemenids rebuilt the Jerusalem temple Judaeen literature of the period reflects tensions over its Persian re establishment demonstrating colliding religious perspectives Although both First Zechariah 1 8 and Second Isaiah 40 55 are controversial the greater imperial context is rarely dealt with in depth both books deal directly with the temple s legitimacy and this ties them intimately to kings engagements with cults Silverman explores how the Achaemenid kings portrayed their rule to subject minorities the ways in which minority elites reshaped this ideology and how long this impact lasted as revealed through the Judaeen reactions to the restoration of the Jerusalem temple

Iconographic Exegesis of the Hebrew Bible / Old Testament Izaak Joias de Hulster,Brent A. Strawn,Ryan P. Bonfiglio,2015-10-28 Iconographic exegesis combines the study of biblical texts exegesis with the study of ancient expressions of visual art iconography Studying ancient visual art that is contemporary with the documents of the Old Testament gives remarkable insight not only on the meaning and historical context of the biblical text but also because it facilitates greater understanding of how the ancient authors and audiences saw thought and made sense of the world Iconography thus merits close attention as another avenue that can lead to a more nuanced and more complete understanding of the biblical text Each chapter of this book provides an exegesis of a particular biblical text or theme The book is organized around the tripartite structure of the Hebrew Bible and demonstrates that iconographical exegesis is pertinent to every nook and cranny of the Bible Within the three parts there is special emphasis on Genesis Isaiah and the Psalms in order to make the book attractive for classes that deal with one or more of these books and might therefore include an iconographic perspective In addition to connecting with a major issue in biblical interpretation theology or visual studies each chapter will end with one or two exercises directing the reader student to comparable texts and images enabling them to apply what was described in the chapter for themselves This approach enables beginners as well as advanced readers to integrate iconography into their toolbox of exegetical skills

Sacred Paths of the West Theodore M Ludwig,2015-08-07 This text combines study of the dynamic historical development of each religious tradition with a comparative thematic structure Students are encouraged to discover and explore the nature of religious experience by comparing basic themes and issues common to all religions finding connections with their own personal experiences By sensitively introducing descriptive material within a comparative thematic structure this text helps students to understand how each religion provides for its adherents patterns and meanings that make up a full way of life

consolidated and destroyed The Never Ending Feast transforms our understanding of feasting past and present revitalising the fields of anthropology archaeology history museum studies material culture and food studies for all of which it is essential reading Persian Language, Literature and Culture Kamran Talattof, 2015-03-05 Critical approaches to the study of topics related to Persian literature and Iranian culture have evolved in recent decades The essays included in this volume collectively demonstrate the most recent creative approaches to the study of the Persian language literature and culture and the way these methodologies have progressed academic debate Topics covered include culture cognition history the social context of literary criticism the problematics of literary modernity and the issues of writing literary history More specifically authors explore the nuances of these topics literature and life poetry and nature culture and literature women and literature freedom of literature Persian language power and censorship and issues related to translation and translating Persian literature in particular In dealing with these seminal subjects contributors acknowledge and contemplate the works of Ahmad Karimi Hakkak and other pioneering critics analysing how these works have influenced the field of literary and cultural studies Contributing a variety of theoretical and inter disciplinary approaches to this field of study this book is a valuable addition to the study of Persian poetry and prose and to literary criticism more broadly
