Handbook of Research on Medical Interpreting Souza, Izabel E.T. de V., Fragkou, Effrossyni (Effie), 2019-12-13

Providing efficient and safe healthcare services is tenuous even at the best of times. Hospital staff who must also circumnavigate language barriers are placed in problematic, perhaps disastrous situations if they have not received the proper training. The *Handbook of Research on Medical Interpreting* is a compendium of essential reference material discussing the educational, ethical, pedagogical, and specialized aspects of medical interpreting. Featuring research on topics such as patient care, competent healthcare, and specialized training, this book is ideally designed for hospital staff, healthcare administrators, medical specialists, professional interpreters, industry professionals, academicians, researchers, and students seeking coverage on a new international perspective to the medical sciences.

Langdon,Terry Irvine Saenz,2015-10-15 Working with Interpreters and Translators A Guide for Speech Language Pathologists and Audiologists offers state of the art procedures to conduct interviews assessments and conferences with students with limited English language proficiency and their families As no research base is available in the field of communicative disorders on this specific topic the information presented in this guide is supported by a critical review of the literature on best practices in interpreting for international conferences and legal and medical fields Furthermore the authors experience working with language interpreters and training professionals as well as graduate students in communicative disorders makes this a very valuable resource for professionals interpreters translators as well as undergraduate and graduate students Federal and state laws specify that if necessary English language learners ELL need to be assessed in their native language when referred for possible special education The number of ELL students attending public schools across the nation has increased in the past few decades

There are not enough speech language pathologists SLPs or audiologists who are proficient in the various languages spoken by ELL students even in Spanish the most common language spoken by ELL students in the United States The next best solution is to conduct assessments in collaboration with a trained interpreter translator Key features include Information and references for the most common languages spoken by ELL students Discussion of culturally based variables that need to be considered in the process of interviewing and working with linguistically and culturally diverse populations Description of the roles and responsibilities for individuals who will be collaborating as interpreters and translators with SLPs and audiologists in various contexts such as interviews assessments and various meetings such as IEPs and IFSPs as well as suggestions on training individuals in this collaborative process Review of best practices in speech language and audiological assessments both with and without materials in the given language Disclaimer Please note that ancillary content such documents audio and video may not be included as published in the original print version of this book Working with Interpreters and Translators A Guide for Speech Language Pathologists and Audiologists is a must have reference for anyone working with ELL students Although the process was developed with the pediatric population in mind much of this information can be applied to older culturally and linguistically diverse populations in need of speech language and or hearing services It will also be useful to professionals working with language interpreters in allied health professions in other countries
