The Resources of the Past in Early Medieval Europe Clemens Gantner, Rosamond McKitterick, Sven Meeder, 2015-02-05

This volume analyses the importance of history the textual resources of the past and the integration of Christian and imperial Rome into the cultural memory of early medieval Europe within the wider question of identity formation The case studies in this book shed new light on the process of codification and modification of cultural heritage in the light of the transmission of texts and the extant manuscript evidence from the early Middle Ages The authors demonstrate how particular texts and their early medieval manuscript representatives in Italy Francia Saxony and Bavaria not only reflect ethnic social and cultural identities but themselves contributed to the creation of identities gave meaning to social practice and were often intended to inspire guide change or prevent action directly or indirectly These texts are shown to be part of a cultural effort to shape the present by restructuring the past

**Courts and Regions in Medieval Europe** Sarah Rees Jones, Richard Marks, Alastair J. Minnis, 2000 Studies draw on history archaeology art history and literature to examine the phenomenon of the court and its relationship with outlying and distant areas *Medieval Times Gr. 4-6* Leslie Fowler, 2002-01-01 Serfs up Medieval Times everything from knights and castles to Crusades and feudal feasts Students will delight as they examine the many aspects of the Middle Ages including significant events the roles of the people and the different cultures The unit starts off with core teaching lessons to build a base for knowledge followed by student worksheets that compliment the core lessons Optional lessons are included to add a degree of flexibility and possible enrichment activities to the lesson This History lesson provides a teacher and student section with a variety of reading passages activities and word search to create a well rounded lesson plan Inner Asia and Its Contacts with Medieval Europe Denis Sinor, 1977 In Search of 'the Genuine Word of God'

Rajmund Pietkiewicz, 2020-12-14 The Polish Lithuanian Commonwealth familiarized itself with Christian Hebraism in the first half of the 16th century In Search of the Genuine Word of God sketches out the process in three chapters The first one deals with the development of modern Hebrew studies in Western Europe the second gives an account of the academic and religious level of Hebrew scholarship in the Commonwealth in the 16th century and at the beginning of the 17th century and the third is devoted to Polish translations of the Hebrew Bible which were the most significant consequences of the reception of the West European Christian Hebraism in the Polish Lithuanian Commonwealth in Renaissance Knowledge of Hebrew would be spread in the Polish Lithuanian Commonwealth through personal contacts of magnates and church dignitaries with the Western European Hebrew experts through Jewish converts teaching Semitic languages through foreign studies at European universities and through books Polish Christian Hebraism was not creative local humanists and reformers who communicated with adherents of Judaism contributed but little to domestic Hebrew studies Only scholarly trends occasioned by different Christian confessions come to our notice Hebrew studies were undertaken within universities or religious movements The purpose was practical to have direct access to the original Hebrew Bible for the sake of theological disputes

or to have proper translation tools for rendering the Scripture in Polish      Reading Programs for Young Adults Martha Seif Simpson, 2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme related films The units are highly flexible allowing any public or school library to adapt them to their particular needs      Abraham's Heirs Leonard B. Glick, 1999-01-01 Leonard B Glick recounts the history of the Ashkenazic Jewish experience in medieval western Europe from the fifth to fifteenth centuries focusing on interaction between Jews and Christians during this vital formative period He demonstrates that Ashkenazic Jewish culture was profoundly shaped and conditioned by life in an overwhelmingly Christian society Drawing on diverse Christian documents he portrays Christian beliefs about medieval Jews and Judaism with a degree of detail seldom found in Jewish histories Emphasizing social political and economic history but also discussing religious topics Glick describes the evolution of a complex inherently unequal relationship Because the Ashkenazic Jews of medieval Europe were ancestral to almost the entire Jewish population of eastern Europe their historical experience played a major role in the heritage of most Jewish Americans      *Medieval Monstrosity* Charity Urbanski, 2023-10-13 This volume examines various manifestations and understandings of the concept of monstrosity in medieval Europe around 500 1500 ce through a collection of contextual chapters and primary sources The main chapters focus on a specific theme a type of monster or representation of monstrosity and consist of a contextual essay synthesizing recent scholarship on that theme excerpts from primary sources and a bibliography of additional primary and secondary sources on the topics addressed in the chapter In addition to building upon the wealth of scholarship on monsters and monstrosity produced in recent decades the book engages with the current fascination with monsters in popular culture especially in movies television and video games The book presents a survey of medieval monstrosity for a non specialist audience and provides a theoretical framework for interpreting the monstrous This book is ideal for undergraduate students working on the theme of monstrosity as well as being useful for undergraduate courses that cover the supernatural and manifestations of the monstrous covered in the book With materials drawn from a wide range of medieval sources it will also appeal to courses in English French Art History and Medieval Studies      **From Dual to Cooperative Federalism** Robert Schütze, 2009-10-15 What is the federal philosophy underlying the law making function in the European Union Which federal model best characterizes the European Union This

book analyses and demonstrates how the European legal order evolved from a dual federalism towards a cooperative federalist philosophy

**The Search for Authority in Reformation Europe** Elaine Fulton, 2016-03-03 The problem of authority was not an invention of the Protestant Reformation but as the essays contained in this volume demonstrate its discussion in ever greater complexity was one of the ramifications if not causes of the deepening divisions within the Christian church in the sixteenth century Any optimism that the principle of sola scriptura might provide a vehicle for unity and concord in the post Reformation church was soon to be dented by a growing uncertainty and division evident even in early evangelical writing and preaching Representing a new approach to an important subject this volume of essays widens the understanding and interpretation of authority in the debates of the Reformation The fruits of original and recent research each essay builds with careful scholarship on solid historiographical foundations ensuring that the content and ultimate conclusions do much to challenge long standing assumptions about perceptions of authority in the aftermath of the Reformation Rather than dealing with individual sources of authority in isolation the volume examines the juxtapositions of and negotiations between elements of the authoritative synthesis and thereby throws new light on the nature of authority in early modern Europe as a whole This volume is thus an ideal vehicle with which to bring high quality new and significant research into the public domain for the first time whilst adding substantially to the existing corpus of Reformation scholarship
