# Medieval European Armies

**Thomas Griffiths**

## **Medieval European Armies:**

**Medieval European Armies** Terence Wise, 2012-12-20 Almost continual warfare raged in Europe during the period 1300 1500 These wars were the furnaces in which many of the modern European nations were forged Parallel with this emergence of the nations came the development of national armies to protect the newly won borders and independence yet throughout this period the old feudal method of raising an army persisted This fascinating study by Terence Wise explores the organisation weapons and equipment of the armies who fought across medieval Europe from the Hundred Years War to the fight against the Moors in Spain and the French invasion of Italy

**Medieval European Armies** Terence Wise, 2012-12-20 Almost continual warfare raged in Europe during the period 1300 1500 These wars were the furnaces in which many of the modern European nations were forged Parallel with this emergence of the nations came the development of national armies to protect the newly won borders and independence yet throughout this period the old feudal method of raising an army persisted This fascinating study by Terence Wise explores the organisation weapons and equipment of the armies who fought across medieval Europe from the Hundred Years War to the fight against the Moors in Spain and the French invasion of Italy

**Armies and Warfare in the Middle Ages** Michael Prestwich, 1999-01-01 A history of the war experience of 13th and 14th century England With anecdotes and illustrations it explores how English medieval armies fought how men were recruited how the troops were fed supplied and deployed the development of weapons and the structure of military command

**Medieval Armies and Weapons in Western Europe** Jean-Denis G.G. Lepage, 2015-03-20 The Middle Ages are commonly divided into three periods early high or central and late Each period was marked by its own crises and wars and the weapons and fighters reflected the technological and other advancements being made This book is a richly illustrated history of warfare in Western Europe during those years Part One the early Middle Ages covers the late Romans the Germanic invaders and Byzantines the Franks the Vikings and Hungarians and the Anglo Saxons and Normans in England Part Two the high or central Middle Ages considers the feudal system knights and chivalry knights at war infantrymen land warfare siege and naval warfare crusades in Palestine templars and hospitalers the Reconquista in Spain and the Teutonic knights Part Three the late Middle Ages discusses the evolution of new types of armor and weapons the Hundred Years War mercenaries and firearms

*Twenty Battles That Shaped Medieval Europe* Georgios Theotokis, 2019-07-31 Warfare has been central to European history for millennia *Twenty Battles that Shaped Medieval Europe* examines the strategy military and equipment and battle tactics of European armies in the Middle Ages Its fundamental aim is to stimulate the reader's interest in the importance of pitched battles in war and to explain the geopolitical gravity of twenty of them from the Battle of Frigidus in AD394 to the Battle of Varna in 1444 taking in such key battles as Hastings in 1066 and Bouvines in 1214

**Warfare in Medieval Europe c.400-c.1453** Bernard S.

Bachrach, David S. Bachrach, 2021-08-30 Warfare in Medieval Europe now in its second edition offers considerably more

attention to the transition from the later Roman Empire to the early Middle Ages the composition of the armies of the opponents of the West and the experience of commanders and individual combatants on the battlefield This second revised and expanded edition provides a more in depth thematic discussion of the nature and conduct of war with an emphasis on its overall impact on society from the late Roman Empire to the end of the Hundred Years War The authors explore the origins of the institutions physical infrastructure and intellectual underpinnings of warfare with chapters on military topography military technology logistics combat and strategy Bernard and David Bachrach have also added a new chapter which provides two detailed campaign narratives that highlight the themes treated throughout the text The geographical scope of the volume encompasses Latin Europe the Slavic World Scandinavia and the eastern Mediterranean with a particular focus on the conflict between Western Christianity and the Islamic Near East Written in an accessible and engaging way *Warfare in Medieval Europe* is the ideal resource for all students of the history of medieval warfare

**The Oxford Encyclopedia of Medieval Warfare and Military Technology** Clifford J. Rogers, 2010 From the Viking invasions to the Crusades to the Hundred Years War wars were crucial agents of change in medieval Europe They fostered many economic and political changes They also affected the science technology religion and culture of the parties involved Examines all aspects of warfare and military technology in medieval times and provides an exhaustive and accurate view of how and why wars were waged throughout Europe the Byzantine Empire and the Crusader States from circa 500 CE to circa 1500

**Medieval Warfare 1300-1450** Kelly DeVries, 2017-05-15 War was epidemic in the late Middle Ages It affected every land and all peoples from Scotland and Scandinavia in the north to the southern Mediterranean Sea coastlines of Morocco North Africa Egypt and the Middle East in the south from Ireland and Spain in the west to Russia and Turkey in the east Nowhere was peaceful for any significant amount of time The period also saw significant changes in military theory and practice which altered the ways in which campaigns were conducted battles fought and sieges laid and changes in the leadership recruitment training supply and financing of armies There were changes in the relationship between those waging warfare from generals to irregular troops and the society in which they lived and for or against which they fought the frequency of popular rebellions and the participation in them by townspeople and peasants changes in the desire to undertake Crusades and changes in technology including but not limited to gunpowder weapons This collection gathers together some of the best published work on these topics The first section of seven papers show that throughout Europe in the later Middle Ages generals led and armies followed what are usually defined as modern strategy and tactics contrary to popular belief The second part reprints nine works that examine the often neglected aspects of the process of putting and keeping together a late medieval army In the third section the authors discuss various ways that warfare in the fourteenth and fifteenth century affected the society of that period The final sections cover popular rebellions and crusading

*Warfare in Medieval Europe 400-1453* Bernard S Bachrach, David Bachrach, 2016-10-04 *Warfare in Medieval Europe c 400 c 1453* provides a thematic

discussion of the nature and conduct of war including its economic technological social and religious contexts from the late Roman Empire to the end of the Hundred Years War The geographical scope of this volume encompasses Latin Europe from Iberia to Poland and from Scandinavia and Britain to Sicily and includes the interaction between Europe and the eastern Mediterranean particularly in the context of the crusading movement Bernard and David Bachrach explore the origins of the institutions physical infrastructure and intellectual underpinnings of medieval warfare and trace the ways in which medieval warfare was diffused beyond Europe to the Middle East and beyond Written in an accessible and engaging way and including chapters on military topography military technology logistics strategy and combat this is a definitive synthesis on medieval warfare The book is accompanied by a companion website which includes interactive maps of the chief military campaigns chapter resources a glossary of terms and an interactive timeline which provides a chronological backbone for the thematic chapters in the book Warfare in Medieval Europe is an essential resource for all students of medieval war and warfare

**Ancient & Medieval Wargaming** Neil Thomas, 2007-06-21 Re fight some of the bloodiest battles of the ancient and medieval worlds Seasoned wargamer and author Neil Thomas brings historical perspective to the hobby with a description and interpretation of significant military developments from 3 000BC to AD1500 Wargaming is the simulation of accurate historical battles using miniature figures to fight over three dimensional terrain their movement and combat being regulated by clearly defined rules Neil Thomas new book provides specific coverage of ancient and medieval wargaming thanks to its division into biblical classical Dark Age and medieval sections Each section has its own set of rules and much expanded army lists The wargamer gains additional perspective from data panels containing facts about weaponry personalities and chroniclers and quotations from original document sources Useful suggestions for further reading are also included while battle reports in each section provide tactical insights for both novice and veteran wargamers *Military Cultures and Martial Enterprises in the Middle Ages* John D. Hosler, Steven Isaac, 2020 Essays on aspects of medieval military history encompassing the most recent critical approaches *East Central Europe in the Middle Ages, 1000-1500* Jean W. Sedlar, 2013-03-01 Although the Middle Ages saw brilliant achievements in the diverse nations of East Central Europe this period has been almost totally neglected in Western historical scholarship East Central Europe in the Middle Ages provides a much needed overview of the history of the region from the time when the present nationalities established their state structures and adopted Christianity up to the Ottoman conquest Jean Sedlar s excellent synthesis clarifies what was going on in Europe between the Elbe and the Ukraine during the Middle Ages making available for the first time in a single volume information necessary to a fuller understanding of the early history of present day Poland the Czech Republic Slovakia Hungary Romania Bulgaria Albania and the former Yugoslavia Sedlar writes clearly and fluently drawing upon publications in numerous languages to craft a masterful study that is accessible and valuable to the general reader and the expert alike The book is organized thematically within this framework Sedlar has sought to integrate nationalities and to draw comparisons

Topics covered include early migrations state formation monarchies classes nobles landholders peasants herders serfs and slaves towns religion war governments laws and justice commerce and money foreign affairs ethnicity and nationalism languages and literature and education and literacy After the Middle Ages these nations were subsumed by the Ottoman Habsburg Russian and Prussian German empires This loss of independence means that their history prior to foreign conquest has acquired exceptional importance in today's national consciousness and the medieval period remains a major point of reference and a source of national pride and ethnic identity This book is a substantial and timely contribution to our knowledge of the history of East Central Europe *Guns and Men in Medieval Europe, 1200-1500* Kelly DeVries, 2024-10-28

These articles are devoted to the two main aspects of medieval warfare men and technology Men fought led and ultimately killed in war while the technology that they used facilitated these tasks The first group of essays highlights human strengths in the fighting of medieval wars with a focus on events of the 14th and 15th centuries specifically the Anglo French wars and wars against the Turks A second group addresses the technological side of warfare in particular the advent and proliferation of early gunpowder weapons which evolved rapidly during the late Middle Ages although never replacing the role of men The articles study various facets of this evolution from the increased use and effectiveness of guns in battles sieges and naval warfare to changes in their science and metallurgy surgical treatment of wounds caused by them and governmental centralization of the technology

**A Cumulative Bibliography of Medieval Military History and Technology** Kelly DeVries, 2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense *Warfare in the Global Middle Ages* David S.

Bachrach, Bernard S. Bachrach, 2025-09-30 War preparation for war and dealing with war's aftermath consumed the greater part of the surplus resources of societies around the globe throughout the pre modern period Military matters affected men women and children alike as direct participants in organized violence as the victims of conflicts or through broad based impositions on ostensibly civilian populations in cash kind and labor Warfare in the Global Middle Ages illuminates the organization and conduct of war as well as the impact of warfare on societies in Europe Asia Africa and the Americas across a long millennium spanning from the third century CE to the sixteenth century CE The volume is organized in eight chapters which address the current state of scholarship regarding warfare over this long period the source materials available to scholars to investigate the myriad questions related to this broad field and the institutions developed by societies to defend themselves and engage in wars of conquest military technology the logistics of war the education and training of military leaders and individual combatants as well as strategy military intelligence and diplomacy The authors argue that an analysis of these topics illuminates broad similarities among polities across the globe the transmission of ideas and technologies on a regional and global level and also important differences in the ways that societies responded to similar challenges This work is intended broadly both for specialists in the history of warfare across the globe for an interested lay public as well as for use in the classroom

**Infantry Warfare in the Early Fourteenth Century** Kelly DeVries, 1996 This book departs from the conventional view of the dominance of cavalry in medieval warfare demonstrating the importance of infantry and the nature of infantry tactics through a detailed examination of 19 battles fought between 1302 and 1347

**Introduction to Medieval Europe 300-1500** Wim Blockmans, Peter Hoppenbrouwers, 2014-02-03 Introduction to Medieval Europe 300 1500 provides a comprehensive survey of this complex and varied formative period of European history Covering themes as diverse as barbarian migrations the impact of Christianization the formation of nations and states the emergence of an expansionist commercial economy the growth of cities the Crusades the effects of plague and the intellectual and cultural life of the Middle Ages the book explores the driving forces behind the formation of medieval society and the directions in which it developed and changed In doing this the authors cover a wide geographic expanse including Western interactions with the Byzantine Empire and the Islamic World Now in full colour this second edition contains a wealth of new features that help to bring this fascinating era to life including A detailed timeline of the period putting key events into context Primary source case boxes Full colour illustrations throughout New improved maps A glossary of terms Annotated suggestions for further reading The book is supported by a free companion website with resources including for instructors assignable discussion questions and all of the images and maps in the book available to download and for students a comparative interactive timeline of the period and links to useful websites The website can be found at [www.routledge.com/cw/blockmans](http://www.routledge.com/cw/blockmans) Clear and stimulating the second edition of Introduction to Medieval Europe is the ideal companion to studying Europe in the Middle Ages at undergraduate level

Warfare, Crusade and Conquest in the Middle Ages John France, 2023-04-21 This volume

brings together a series of articles by John France published over a span of more than forty years covering a number of aspects of the military and crusading history of the Middle Ages both in Europe and the Near East An interest in understanding how war worked and why informs a first group of articles ranging from Carolingian armies to the organisation of war in the 13th century The focus then turns to the Crusades the most ambitious conquests of the era with a set of studies on the First Crusade and others on the manner and conduct of warfare in the territories of the Latin East The volume also includes a major unpublished analysis co authored with Nicholas Morton of the problems faced by the local Islamic powers in the early Crusading period reminding us that an army is only as strong as its enemies permit and suggesting that the crusaders should be seen in this light

*Importing the European Army* David B. Ralston, 1996-06 In a study that extends well beyond military history David B Ralston documents the ways in which five different countries Russia the Ottoman Empire Egypt China and Japan refashioned their armed forces along European lines during the three centuries after 1600 The appropriation of Western military institutions in countries outside of Europe was Ralston argues the major force driving these countries to adopt European administrative economic and cultural modes Following the same format in his discussion of each country Ralston makes this central theme in world history easily accessible to students while offering scholars a sophisticated understanding of the exact nature of the changes brought about by Europeanizing military reforms David B Ralston associate professor of history at the Massachusetts Institute of Technology is the author of *The Army of the Republic*

**DBMM Army Lists: Book 4 The High Medieval Period 1071 AD to 1525 AD** Phil Barker, 2019-05-18 DBMM Army Lists Book 4 The High medieval Period 1071 AD to 1525 AD This is the final volume in a series of WRG publications providing detailed guidance on the structure and organisation of ancient and medieval armies for use with the DBMM wargame rules
