Cutler, John J. Sramek, Michael F. Murphy, Henry Riordan, Peter Biek, Angelico Carta, 2010-01-22 Covering the latest advances in CNS drug development this book will guide all those involved in pre clinical to early clinical trials The authors describe how recent innovations can accelerate the development of novel CNS compounds improve early detection of efficacy and toxicity signals and increase the safety of later stage clinical trials The current crisis in

the drug development industry is critically reviewed as well as the steps needed to correct the problems including new government backed regulations and industry based innovations designed to accelerate CNS drug development in the future. Animal based models of major CNS disorders are described in detail and the ability of the latest in vitro and computer based models to simulate CNS disease states and predict drug efficacy and side effects are examined. Particular attention is given to the growing use of biomarkers and how they can be used effectively in early human trials as signals of potential drug efficacy as well as the increasingly important role of imaging studies to guide dose selection. Cognitive assessments that can be useful indicators of effect in patient populations are also discussed. Written by a team of clinical scientists involved in CNS drug trials for over 20 years and based on a wealth of drug development and clinical trial experience. Critical Pathways to Success in CNS Drug Development is full of practical advice for successfully designing and executing CNS drug trials avoiding potential pitfalls and complying with government regulations. Artificial Intelligence in Bioinformatics and Drug Repurposing: Methods and Applications Pan Zheng, Shudong Wang, Xun Wang, Xiangxiang Zeng, 2022-04-08 *Drug Nation* Martin Plant, 2011 Humans have been using psychoactive mind altering drugs since ancient times and barely a day goes by without a drug related issue reaching the headlines. This book provides an accessible and lucid introduction to some of the main health and social issues related to illicit drugs and their use. Social Work with Adults Martin Brett Davies, 2012-03-20 This best selling book explores the crucial role of social workers in securing a better future for vulnerable and disadvantaged adult service users. Tackling the problems most common to this branch of social work it focuses on four major themes: personalization, mental health, substance use and old age. Edited by the highly respected Martin Davies and with contributions from some of the leading names in the field, *Social Work with Adults* provides a clear map and guidance to help navigate between the different elements of social work knowledge and practice. Whether a student on an undergraduate degree taking a module on working with adults or a qualified professional wanting to ensure they are providing the very best service they can, this is essential reading. The breadth and depth of coverage makes this text a perfect handbook for students of adult social work. *Globalization and Security Relations across the Taiwan Strait* Ming-chin Monique Chu, Scott L. Kastner, 2014-11-27 This book presents an interdisciplinary examination of cross Taiwan Strait relations and the complex dynamics at play in the region. Since the election of Ma Ying-jeou as Taiwan's president in 2008 the relationship across the Taiwan Strait long viewed as one of Asia's most volatile potential flashpoints has experienced a remarkable détente. Whether the relationship has been truly transformed however remains an open question and the Taiwan Strait remains a central regional and global security issue. A return to turbulence in the Taiwan Strait could also add a new dimension of instability in the already tense maritime disputes in the East and South China Seas. While the relationship across the Taiwan Strait remains critically important it is also changing rapidly and the chapters in this volume present new thinking to help make sense of complex cross Strait dynamics. Specifically these essays explore different security and or globalization dimensions of

China Taiwan ties as well as the globalization security linkages that have emerged As the balance of power in Asia shifts dramatically several chapters in this volume explore how traditional security forces are evolving At the same time there are new dynamics emerging as a consequence of globalization forces such as the tremendous economic and social integration across the Taiwan Strait and several chapters in this volume consider some of these new problems Finally several chapters consider the often under researched dynamics associated with the globalization security interface such as cyber threats transnational criminal networks and the security spill over impact of production globalization This book will of much interest to students of Chinese Politics Asian Security globalisation diplomacy and International Relations

**Harm Reduction in Substance Use and High-Risk Behaviour** Richard Pates,Diane Riley,2012-05-31 Harm Reduction is a philosophy of public health intended as a progressive alternative to the prohibition of certain potentially dangerous lifestyle choices Recognising that certain people always have and always will engage in behaviours which carry risks the aim of harm reduction is to mitigate the potential dangers and health risks associated with those behaviours Harm Reduction in Substance Use and High Risk Behaviour offers a comprehensive exploration of the policy practice and evidence base of harm reduction Starting with a history of harm reduction the book addresses key ethical and legal issues central to the debates and developments in the field It discusses the full range of psychoactive substances behaviours and communities with chapters on injecting dance drugs stimulant use tobacco harm reduction alcohol use and sex work Written by an international team of contributors this text provides an essential panorama of harm reduction in the 21st century for educators and researchers in addiction and public health postgraduate students and policy makers

*Drugs, Law, People, Place and the State* Stewart Williams,Barney Warf,2017-10-02 Though any psychoactive substance can be revered or reviled as a drug as people s cultural norms shift ultimately its status is determined in law by the state This publication explores the regulation of drugs alcohol and cannabis to heroin and cocaine and practices such as social drinking and public injecting under political regimes Drugs are discussed in their geographical contexts the colonial legacy of cannabis prohibition for bioprospecting in Africa the veracity of the persistent notion of the narco state Turkey s governance of drinking amid civil unrest and alcohol s place in the neoliberal political economy of Ireland In addition drug policies are examined from problems in managing drug related litter in the UK to supervised injecting facility provision in Australia harm reduction in Canada and the global network of drug policy activists Place is significant but porous borders territorial overlaps and multi scalar linkages are influential in remaking the world through current challenges to the war on drugs This book was originally published as a special issue of Space Polity
