Olivier,2020-03-23 Expertise in every classroom should be the norm not the exception We have all had that magical teacher who we remember years later We remember how this teacher made us believe we could do anything The mythical experts exist and have much to teach us in our quest to build a powerhouse education system Unfortunately forty years of research and over 25 years of reform models have led to few changes in the teaching profession and in the overall outcomes in education Both national and international research demonstrates expertise in teaching can be clearly defined and developed Countries around the world have successfully revamped their systems to develop and support expert teachers While we
