text for public administration implementing the rule of law as a fundamental issue in American democracy in pursuit of the  
common interest It presents public administration as a tension between the necessary exercise of power and the search for  
responsiveness to achieve maximum accountability from public servants The authors have initiated a new approach to the  
study of public administration by focusing on middle and lower level managers These are positions that most public servants  
will occupy for the bulk of their professional careers The book recognizes that most of the administration is in field offices in  
state and local government and in cooperation with the private and nonprofit sectors It then focuses on power and its  
potential for influencing the behavior of the bureaucracy to perform its goal oriented and balancing functions in a pluralistic  
open system This leads to the relationship between theories about administration and the actual practice and how best  
results imperative of accountability are achieved in the increasingly globalized environment     **Clearinghouse Review**
