Beauclerc had already persuaded himself that he now detested as much as he had at first been delighted with a London life. From his metaphysical habits of mind and from the sensibility of his temper he had been too soon disgusted by that sort of general politeness which as he said takes up the time and place of real friendship and as for the intellectual pleasures they were he said too superficial for him and his notions of independence too were at this time quite incompatible with the conventional life of a great capital. His present wish was to live all the year round in the country with the woman he loved and in the society of a few chosen friends. Helen quite agreed with him in his taste for the country she had scarcely

Elizabeth's Sea Dogs and their War Against Spain Brian Best, 2021-03-15 This maritime history recounts the exploits of sixteenth century English privateers in conflict with the Spanish Empire. The Sea Dogs were seafaring merchants who originally traded mainly with Holland and France. During Queen Elizabeth's reign however they began sailing further afield spreading the reach of English exploration and plundering. At that time England was a relatively impoverished country. But it soon found a new source of wealth in the Caribbean a region that had been the colonial domain of wealthy Catholic Spain. The first man to trade with the Spanish Main was John Hawkins who traveled to West Africa captured the natives and transported them to the Caribbean. There he sold them to plantation owners in exchange for goods such as pearls, hides and spices. His backers included the Queen herself who encouraged the Sea Dogs to seek greater riches. This led to conflict with Spanish ships that would spark the Anglo Spanish War. The main thorn in the Spanish side was Francis Drake. Despite efforts to kill or capture him he continued to plunder the high seas bringing back Spanish riches to England. This allowed Elizabeth to flourish. It was thanks in main to the privateering exploits of the Sea Dogs that England became so wealthy paving the way for the Renaissance that followed.

Elizabethan Sea-Dogs: A Chronicle of Drake and His Companions William Charles Henry Wood, In the early spring of 1476 the Italian Giovanni Caboto who like Christopher Columbus was a seafaring citizen of Genoa transferred his allegiance to Venice. The Roman Empire had fallen a thousand years before Rome now held temporal sway only over the States of the Church which were weak in armed force even when compared with the small republics, dukedoms and principalities which lay north and south. But Papal Rome as the head and heart of a spiritual empire was still a world power and the disunited Italian states were first in the commercial enterprise of the age as well as in the glories of the Renaissance. North of the Papal domain which cut the peninsula in two parts stood three renowned Italian cities. Florence the capital of Tuscany leading the world in arts. Genoa the home of Caboto and Columbus teaching the world the science of navigation and Venice mistress of the great trade route between Europe and Asia controlling the world's commerce. Thus in becoming a citizen of Venice Giovanni Caboto the Genoese was leaving the best home of scientific navigation for the best home of sea borne trade. His very name was no bad credential. Surnames often come from nicknames and for a Genoese to be called Il Caboto was as much as for an Arab of the Desert to be known to his people as The Horseman. Cabottaggio now means no more than coasting trade. But before there was any real ocean commerce it referred to the regular sea borne trade of the

time and Giovanni Caboto must have either upheld an exceptional family tradition or struck out an exceptional line for himself to have been known as John the Skipper among the many other expert skippers hailing from the port of Genoa
