

MEETING REQUEST EMAIL TO CLIENT (SAMPLE)

*Clients are tricky, and as such the best way to go about an email in this category is to be concise and straight to the point, stating the purpose of the meeting and how it can benefit the client, also adding contact information in closing the email. It is important not to force a client to wade through unnecessary information that they may not even be patient enough to read through.

(Take note that meetings with clients should not be requested on first contact).

2018 CFR Annual Print Title 20 Employees' Benefits Part 657 to End Office of The Federal Register, 2018-04-01 The Power of Virtual Distance Karen Sobel Lojeski, Richard R. Reilly, 2020-04-06 This revised second edition presents 15 years of data on Virtual Distance metrics and their predictive impact on organizational success factors shedding new light on how to correct for communication challenges that often show up as a foggy set of digital disconnects where the vitality of the virtual workforce often gets lost in transmission This still evolving Digital Age conundrum continues to present new complications The rise of remote work which rests on an

increasing reliance on electronic communication and the overall growth of virtual interactions has led to the escalation of a phenomenon called Virtual Distance. Virtual Distance influences our behavior through three components: Physical Distance, Operational Distance, and Affinity Distance. Affinity Distance affects not only how we relate to others thousands of miles away but even to co-workers sitting right next to each other. Perhaps even more problematic, Virtual Distance causes measurable malfunctions in teamwork, innovation, leader effectiveness, and overall performance. But it doesn't have to be this way. The Power of Virtual Distance offers specific, proven, and predictable solutions that can reverse these trends and turn Virtual Distance into a unification strategy to capture untapped competitive advantage. Surprised? The Power of Virtual Distance, 2nd Edition is a must-read for leadership who want to understand the true and quantifiable costs of the virtual workplace. For the first time ever, readers can take the guesswork out of managing the virtual workforce by applying a mathematical approach derived from the extensive Virtual Distance data set. The Virtual Distance Ratio: The Virtual Distance Ratio can precisely pinpoint the particular impacts of Virtual Distance on the organization's critical success factors. Beyond business metrics, Virtual Distance solutions also detail ways to restore meaningfulness and well-being into people's experience of work, enhancing life lived in the Digital Age. The Power of Virtual Distance reveals an updated set of data, including the first award-winning analysis collected from an extended range of executives to individual contributors that represent situations and solutions in more than 36 industries in 55 countries across the globe. Readers will get a first look at the data and its revelations on how to be less isolated and more integrated. Helping managers globally, this book offers new real-world case studies and a chance for readers to participate in thought experiments to help with personal performance, group synergy, and by extension, relationship dynamics of all kinds. Demonstrates with statistically significant trend analyses that Virtual Distance is growing at exponential rates in every corner of communities worldwide. Offers expert advice on how to manage the unintended human consequences of today's digital technologies. Companies that successfully harness the power of Virtual Distance demonstrate better performance. The second edition of The Power of Virtual Distance is a valuable one-of-a-kind resource for everyone from the C-suite to human resource professionals, from divisional leaders to project managers. Everyone in the organization can benefit by discovering how to improve financials, innovation, trust, employee engagement, satisfaction, organizational citizenship, and other key performance indicators. And perhaps best of all, by following the prescriptions on how to reduce Virtual Distance, the entire workforce will have the tools they need to bring about a revival of meaning, purpose, and an enlivened sense of humanness back into everyday work and everyday life.

Fortress Conservation and International Accountability for Human Rights Violations against Batwa in Kahuzi-Biega National Park Colin Luoma,2022-05-05 The Kahuzi Biega National Park PNKB in the Democratic Republic of the Congo presents an existential threat to the indigenous Batwa people For millennia Batwa occupied the forests surrounding Mount Kahuzi and Mount Biega utilizing traditional ecological knowledge and sustainable practices to foster one of the most biodiverse places on the planet The creation of the PNKB in the 1970s forced Batwa from their ancestral lands rendering them deeply impoverished landless dependent and culturally disconnected When they seek to return home and access their lands and resources they are subjected to extreme violence by park authorities who treat them as trespassers poachers and enemies of conservation This report situates the serious human rights violations suffered by Batwa in the PNKB within the broader global phenomenon of fortress conservation and analyses the respective roles and accountability of the park s core international partners Ongoing violence against Batwa in the PNKB is a stark reminder of the immense human and environmental costs associated with pursuing conservation policies that prevent indigenous peoples from owning governing accessing and benefiting from their territories and resources These policies are bolstered by donors global NGOs and international organizations which enable

and tacitly uphold a violent and anti indigenous status quo in the PNKB and other protected areas Donors conservation organizations and other international partners of the PNKB have failed to adequately ensure that their support did not contribute to human rights violations committed against Batwa These international partners had explicit knowledge of unresolved human rights abuses committed by ecoguards as well as threats of imminent violence against Batwa communities living inside the park Yet they continued to equip fund and train ecoguards and actively promoted the increasing militarization of the PNKB This militarization has resulted in overly aggressive policing and military style actions by ecoguards often jointly with the Congolese Army who explicitly target criminalize and brutalize Batwa At the same time the park consistently fails to meet environmental expectations and objectives Thus the PNKB represents a clear case of how fortress conservation fails both people and the environment Regrettably it is not an isolated example of flawed conservation policy Instead it is indicative of the institutional shortcomings and systemic failures inherent in the dominant ways in which conservation is pursued by states and promoted by international conservation actors in the Congo Basin and in other parts of the world
