computer science and the GCC conference has become one of the premier forums for presentation of new and exciting research in all aspects of grid and cooperative computing. The program committee is pleased to present the proceedings of the 3rd International Conference on Grid and Cooperative Computing GCC2004 which comprises a collection of excellent technical papers, posters, workshops and keynote speeches. The papers accepted cover a wide range of exciting topics including resource grid and service grid, information grid and knowledge grid, grid monitoring, management and organization tools, grid portal, grid service Web services and their QoS, service orchestration, grid middleware and toolkits, software glue technologies, grid security, innovative grid applications, advanced resource reservation and scheduling, performance evaluation and modeling, computer supported cooperative work, P2P computing, automatic computing and meta information management. The conference continues to grow and this year a record total of 581 manuscripts including workshop submissions were submitted for consideration. Expecting this growth, the size of the program committee was increased from 50 members for GCC 2003 to 70 in GCC 2004. Relevant differences from previous editions of the conference it is worth mentioning a significant increase in the number of papers submitted by authors from outside China and the acceptance rate was much lower than for previous GCC conferences. From the 427 papers submitted to the main conference, the program committee selected only 96 regular papers for oral presentation and 62 short papers for poster presentation in the program.
