**Encyclopedia of the Essay** Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies Emerson's Essays Ralph Waldo Emerson, 2015-11-20 LIFE OF EMERSON CRITICAL OPINIONS OF EMERSON AND HIS WRITINGS Chronological List of Emerson s Principal Works THE AMERICAN SCHOLAR COMPENSATION SELF RELIANCE FRIENDSHIP HEROISM MANNERS GIFTS NATURE SHAKSPEARE OR THE POET PRUDENCE CIRCLES **Bulletin of Additions to the Libraries, Classified, Annotated and Indexed** Glasgow (Scotland). Public Libraries, 1919 Monthly Bulletin Los Angeles Public Library, 1921 **Collected Critical Writings** Geoffrey Hill, 2009 The Collected Critical Writings gathers more than forty years of Hill s published criticism in a revised final form and also adds much new work It will serve as the canonical volume of criticism by Hill the pre eminent poet critic whom A N Wilson has called probably the best writer alive in verse or in prose In his criticism Hill ranges widely investigating both poets including Jonson Dryden Hopkins Whitman Eliot and Yeats and prose writers such as Tyndale Clarendon Hobbes Burton Emerson and F H Bradley He is also steeped in the historical context political poetic and religious of the writers he studies Most importantly he brings texts and contexts into new and telling relations neither reducing texts to the circumstances of their utterance nor imagining that they can float free of them A number of the essays have already established themselves as essential reading on particular subjects such as his analysis of Vaughan s *The Night* his discussion of Gurney s poetry and his critical account of *The Oxford English Dictionary* Others confront the problems of language and the nature of value directly as in *Our Word is Our Bond* *Language Suffering and Value* and *Poetry and Value* In all his criticism Hill reveals literature to be an essential arena of civic intelligence

Theism in the Discourse of Jonathan Edwards R. C. De Prospro, 1985 This book proposes that a new semiotic category called theism can more intelligibly classify the discursive pattern that precedes modern humanism in American literature than such standard historicist categories as Puritanism or Calvinism or medievalism and that the writings of Jonathan Edwards exemplify this theist discursive pattern *Beyond Liberalism* Michael K. Briand, 2019-06-14 This book shows how the United States can begin dealing with the most difficult and intractable political issues that afflict liberal democracy today by initiating an inclusive public practice of ethical dialogue and deliberation *Beyond Liberalism* argues that there is a flaw in liberalism the doctrine of individualism Specifically the defect consists in two distinct ideas atomism and subjectivism These ideas underpin the principle of freedom which is our default method for making personal choices and resolving interpersonal

disagreements but contains no standard for determining what might be worth doing and hence no criteria for assigning relative priority to values in conflict Objective ethical judgments can be achieved however if we understand that insofar as they support the fulfillment of empirically identified human needs statements about good and bad are propositions of a factual nature A conception of the good for human beings is implicit in the fulfillment of those needs To articulate that conception we need a constructive productive public practice of ethical dialogue and deliberation To build such a practice will require what amounts to a life of ethical heroism This book seeks to encourage that sort of life

*The Culture of Sentiment* Shirley Samuels,1992 In this important new collection leading scholars in nineteenth century American culture re-examine the vexed subject of sentimentality These essays draw upon a range of interdisciplinary approaches to situate sentimentality in terms of women's culture and issues of race before and after the Civil War Moving beyond the canonical debates about sentimentality the collection makes visible the particular racial and gendered forms that define the aesthetics and politics of the American culture of sentiment The contributors use evidence from American cultural history American studies and literary criticism to examine the process by which nineteenth century American culture was both produced and contested They present incisive readings of scenes like an antebellum murder trial the erotic attention audiences paid to the statues of Hiram Powers and the engravings of Godey's Ladies Book In addition they use the writings of Harriet Jacobs Mark Twain James Fenimore Cooper Pauline Hopkins W E B DuBois and Harriet Beecher Stowe to question the political fables immanent in this literature More generally they portray nineteenth century American sentimentality as a national project a project about imagining the nation's bodies and the national body With essays by Lauren Berlant Ann Fabian Susan Gillman Karen Halttunen Carolyn L Karcher Joy Kasson Amy Schrager Lang Isabelle Lehuu Harryette Mullen Dana Nelson Lora Romero Shirley Samuels Karen Sanchez Eppler Lynn Wardley and Laura Wexler *The Culture of Sentiment* significantly reorients the field of nineteenth century American literature art culture and history It will be of keen interest to those concerned with women's studies American studies cultural studies African American studies and American history and literature

**The Poetics of Poesis** Felicia Bonaparte,2016-01-11

Examining novels written in nineteenth century England and throughout most of the West as well as philosophical essays on the conception of fictional form Felicia Bonaparte sees the novel in this period not as the continuation of eighteenth century realism as has commonly been assumed but as a genre unto itself Determined to address the crises in religion and philosophy

that had shattered the foundations by which the past had been sustained novelists of the nineteenth century felt they had no real alternative but to make the world anew Finding in the new ideas of the early German Romantics a theory precisely designed for the remaking of the world these novelists accepted Friedrich Schlegel's challenge to create a form that would render such a remaking possible They spoke of their theory as poesis etymologically a making to distinguish it from the mimesis associated with realism Its purpose however was not only to embody as George Eliot put it in *Middlemarch* the idealistic in the real giving as faithful an account of the real as observation can yield but also to embody in that conception of the real a discussion of ideas that are its symbolic signification as Edward Bulwer Lytton described it in one of his essays It was to carry this double meaning that the nineteenth century novelist created Bonaparte concludes the language of mythical symbolism that came to be the norm for this form and she argues that it is in this doubled language that nineteenth century fiction must be read *Conservatism, Radicalism, and Scientific Method* Albert Benedict Wolfe, 1923 **A.L.A.
