

Emma by Jane Austen- Essay topics

Social life

Emma is structured around a number of marriages recently consummated or anticipated, and, in each case, the match solidifies the participant's social status. In Austen's time, social status was determined by a combination of family background, reputation, and wealth—marriage was one of the main ways in which one could raise one's social status. This method of social advancement was especially crucial to women, who were denied the possibility of improving their status through hard work or personal achievement.

Yet, the novel suggests, marrying too far above oneself leads to strife. Mr. Weston's first marriage to Miss Churchill had ostensibly been a good move for him, because she came from a wealthy and well-connected family (Mr. Weston is a tradesman), but the inequality of the relationship caused hardship to both. He marries Mrs. Weston just prior to the novel's opening, and this second marriage is happier because their social statuses are more equal—Mrs. Weston is a governess, and thus very fortunate to be rescued from her need to work by her marriage. Emma's attempt to match Harriet with Mr. Elton is also shunned by the other characters as inappropriate. Since Harriet's parentage is unknown, Emma believes that Harriet may have noble blood and encourages her to reject what turns out to be a more appropriate match with Robert Martin. By the time it is revealed that Harriet is the daughter of a tradesman, Emma admits that Mr. Martin is more suitable for her friend.

The relationship between marriage and social status creates hardship for other characters. Frank Churchill must keep his engagement to the orphan Jane Fairfax secret because his wealthy aunt would disapprove. Jane, in the absence of a good match, is forced to consider taking the position of a governess. The unmarried Miss Bates is threatened with increasing poverty without a husband to take care of her and her mother. Finally, the match between Emma and Mr. Knightley is considered a good one not only because they are well matched in temperament but also because they are well matched in social class.

Austen is very careful to maintain the importance of British class structure in "Emma." Though it is a small town, Highbury has a very specific social structure that mirrors the larger class system of Britain. Emma, as heroine, is at the top of the social ladder with the rest of her family and Mr. Knightley, while Harriet Smith, Miss Bates, and Robert Martin are at lower levels of respectable society. Although Austen permits her heroine to associate with Harriet and Miss Bates, she emphasizes the importance of knowing one's proper place. Emma's first significant blunder in this regard is elevating Harriet to an inappropriately-high social level. As a result of her interference,

SCM Studyguide: Philosophy and the Christian Faith Ben Pugh ,2018-12-04 The challenges that Western culture keeps posing to the Christian faith are ever new The goal posts keep changing This study guide will equip theology students to understand the culture shaping beliefs that are driving the kinds of questions it brings to faith It will be an historical overview of the key stages in the history of Western philosophy with each section carefully tracing the genealogical line of

ideas and the Christian responses to them right up to the present day For most theology students learning abstract philosophical concepts involves literally learning a new language a language that the initiated converse in with ease but which leaves the uninitiated baffled Thus each chapter in this study guide opens with a glossary of terms Throughout the studyguide students are encouraged to reflect on the ways in which what has been learned might be applied in both explicitly theological and wider cultural contexts for example they might be asked to think of a film or book that seems to express elements of existentialism or postmodernism or to describe how something very like the extreme subjectivity of idealism can sometimes shows itself in Sunday morning worship *SCM Studyguide: Anglicanism, 2nd Edition* Stephen

Eighteenth-Century Education in Britain Rebecca Davies, 2016-02-11 Examining writing for and about education in the period from 1740 to 1820 Rebecca Davies s book plots the formation of a written paradigm of maternal education that associates maternity with educational authority Examining novels fiction for children conduct literature and educative and political tracts by Samuel Richardson Sarah Fielding Mary Wollstonecraft Maria Edgeworth Ann Martin Taylor and Jane Austen Davies identifies an authoritative feminine educational voice She shows how the function of the discourse of maternal authority is modified in different genres arguing that both the female writers and the fictional mothers adopt maternal authority and produce their own formulations of ideal educational methods The location of idealised maternity for women

Davies proposes is in the act of writing educational discourse rather than in the physical performance of the maternal role. Her book contextualizes the development of a written discourse of maternal education that emerged in the enlightenment period and explores the empowerment achieved by women writing within this discourse albeit through a notion of authority that is circumscribed by the rules of a discipline.
