The Bedford Guide for College

Writers with Reader, Research Manual, and Handbook with 2009 MLA and 2010 APA Updates X. J. Kennedy, Dorothy M. Kennedy, Marcia F. Muth, 2010-04 When it was first published twenty years ago, *The Bedford Guide for College Writers* brought a lively and innovative new approach to the teaching of writing. Since that time, authors X. J. and Dorothy M. Kennedy have won praise for their friendly tone and their view apparent on every page of the text: that writing is the usually surprising, often rewarding art of thinking while working with language. More recently, experienced teacher and writer Marcia F. Muth joined the author team, adding more practical advice to help all students, even those underprepared for college work, become successful academic writers. While retaining the highly praised Kennedy touch, *The Bedford Guide* continues to evolve to meet classroom needs. The new edition does even more to build essential academic writing skills with expanded coverage of audience analysis, source-based writing, argumentation, and reasoning, and more.

Writing Their Future Selves: Instructional Strategies to Affirm Student Identity Miriam Plotinsky, 2023-11-07 Whatever subject you teach, you can encourage students' sense of self-worth. I'm a bad writer is a disclaimer every secondary teacher has heard many times. Overcoming that negative self-image, Plotinsky argues, is key to helping students build a positive academic identity, and because of the vulnerability associated with sharing what we write, the benefits of interrupting this particular form of deficit thinking extend far beyond English class. Drawing on her years of experience as an English teacher and literacy specialist, Miriam Plotinsky uses writing instruction as a powerful vehicle to examine how teachers can help students build a sense of themselves as legitimate, valuable contributors to the world around them. The chapters move fluidly through ways to build capacity, such as celebrating student voice, separating grading from class participation, giving feedback that inspires trust, and avoiding the labeling of students. Along the way, teachers in other content areas contribute insights into how the identity-building strategies in the book can be applied to their own disciplines.
