The Doctor Crisis Jack Cochran,Charles C. Kenney,2014-05-06 Calming fears alleviating suffering enhancing and saving lives this is what motivates doctors virtually every single day When the structure and culture in which physicians work are well aligned being a doctor is a most rewarding job But something has gone wrong in the physician world and it is urgent

that we fix it Fundamental flaws in the US health care system make it more difficult and less rewarding than ever to be a doctor The convergence of a complex amalgam of forces prevents primary care and specialty physicians from doing what they most want to do Put their patients first at every step in the care process every time Barriers include regulation bureaucracy the liability burden reduced reimbursements and much more Physicians must accept the responsibility for guiding our nation toward a better health care delivery system but the pathway forward amidst jarring changes in our health care system is not always clear In The Doctor Crisis Dr Jack Cochran executive director of The Permanente Federation and author Charles Kenney show how we can improve health care on a grassroots level regardless of political policy disputes by improving conditions for physicians and asking them to take on broader accountability by calling on physicians to be effective leaders as well as excellent clinicians The authors clarify the necessary steps required to enable physicians to focus on patient care and offer concrete ideas for establishing systems that place patients needs above all else Cochran and Kenney make a compelling case that fixing the doctor crisis is a prerequisite to achieving access to quality and affordable health care throughout the United States
