2. Attach the paper support and plug in the printer.

## 2 Installing the Ink Cartridges

1. Press the power button to turn on the printer.

2. Shake the ink cartridge four or five times before opening the package, and remove the ink cartridges from their protective bags.

**Caution:**

- Do not touch the hook on the side of the ink cartridge when you remove it from the protective bag.
- Do not shake the ink cartridge after removing it from the bag. This can cause leakage.
- Do not remove or tear the label on the cartridges. This can cause leakage.

3. Install the ink cartridges as shown below.

**Caution:**

- Push the ink cartridge down until it clicks into place.
- Do not move the print head by hand; otherwise, you may damage the printer.
- Do not load paper until ink charging is complete.

**Note:**

Install all the cartridges. The printer will not work unless all cartridges are installed properly.

4. Press the ink button.

The printer begins ink charging. It takes about one and a half minutes. While charging, the printer produces a variety of mechanical sounds. This is normal. When the green light stops flashing, ink charging is complete.

**Caution:**

- Do not turn off the printer during the ink charging process.

**Note:**

The ink cartridges packaged with your printer are partly used during initial setup. In order to produce high quality printouts, the print head in your printer will be fully charged with ink. This one-off process consumes a quantity of ink and subsequent cartridge sets will last for their full rated life.

See the other side of this sheet to install the printer software.
