Deploying F5 with Microsoft SharePoint 2013 and 2010

Welcome to the F5 deployment guide for Microsoft® SharePoint®. This document contains guidance on configuring the BIG-IP system, version 11.4 and later for Microsoft SharePoint 2010 and 2013 implementations, resulting in a secure, fast, and available deployment. This guide shows how to quickly and easily configure the BIG-IP system using the SharePoint iApp Application template. There is also an appendix with manual configuration tables for users who prefer to create each individual object.

Why F5?

F5 offers a complete suite of application delivery technologies designed to provide a highly scalable, secure, and responsive SharePoint deployment. In addition, the F5 solution for SharePoint Server includes management and monitoring features to support a cloud computing infrastructure.

- F5 can reduce the burden on servers by monitoring SharePoint Server responsiveness across multiple ports and protocols, driving intelligent load balancing decisions.
- The BIG-IP Access Policy Manager, F5's high-performance access and security solution, can provide proxy authentication and secure remote access to Microsoft SharePoint.
- Access Policy Manager enables secure mobile device access management, as well as pre-authentication to SharePoint.
- CPU-intensive operations such as compression, caching, and SSL processing can be offloaded onto the BIG-IP system, which can extend SharePoint Server capacity by 25%.
- F5 WAN optimization technology can dramatically increase SharePoint performance.
- F5 enables organizations to achieve dramatic bandwidth reduction for remote office SharePoint users.
- F5 protects SharePoint deployments that help run your business with powerful application-level protection, as well as network- and protocol-level security. This includes using the iApp template to deploy the BIG-IP Advanced Firewall Manager.
- F5 can be used as a reverse proxy alternative to TMG.

Products and applicable versions

Product	Version
BIG-IP LTM, AAM, APM, AFM, ATM	11.4 - 11.5.0
Microsoft SharePoint	2010, 2013
iApp version	f5.microsoft_sharepoint_2010_2013.v1.2.2
Deployment Guide version	2.1 (see Document Revision History on page 54)
