hypocenter In addition to a foreword introduction postscript and reference section it includes translations of A bomb literature written by several atomic survivors      **In a Generous Spirit** Christina Looper Baker,1996 Dorothy Markey s family and culture prepared her to be a proper southern lady Yet Markey broke free of her cultural bonds and became instead a feminist a communist and under the pen name Myra Page a radical journalist and novelist Her activism on behalf of social justice racial equality and women s rights spanned the 1920s through her death in 1993 Page s work carried her far from her Virginia home to Moscow Mexico the rural South and New York As a journalist she wrote for the Daily Worker the New Masses Working Woman and Southern Worker Her novels captured workers struggles in an authentic voice The Gathering Storm Daughter of the Hills and Moscow Yankee With consummate skill Christina Baker weaves together historical research her own and others conversations with Page and Page s letters and other writings The resulting narrative is a vivid recreation of the life of an uncommon woman and her more than seventy years of striving for the things she believed in      **The Blitzkrieg Legend** Karl-Heinz Frieser,2013-04-11 Here for the first time in English is an illuminating

new German perspective on the decisive Blitzkrieg campaign of 1940 Karl Heinz Frieser s account provides the definitive explanation for Germany s startling success and the equally surprising and rapid military collapse of France and Britain on the European continent In a little over a month Germany decisively defeated the Allies in battle a task that had not been achieved in four years of brutal fighting during World War I First published in 1995 as the official German history of the 1940 campaign in the west the book goes beyond standard explanations to show that German victory was not inevitable and French defeat was not preordained Contrary to the usual accounts of the campaign Frieser illustrates that the military systems of both Germany and France were solid and that their campaign planning was sound The key to victory or defeat he argues was the execution of operational plans both preplanned and ad hoc amid the eternal Clausewitzian combat factors of friction and the fog of war Frieser shows why on the eve of the campaign the British and French leaders had good cause to be confident and why many German generals were understandably concerned that disaster was looming for them This study explodes many of the myths concerning German Blitzkrieg warfare and the planning for the 1940 campaign A groundbreaking new interpretation of a topic that has long interested students of military history it is being published in cooperation with the Association of the U S Army      **American and British Poetry** Harriet Semmes Alexander,1984

**The Pearl Harbor Secret** Sewall Menzel,2020-05-04 This book provides a penetrating look into Franklin D Roosevelt s strategy to bait Adolf Hitler into declaring war on America in order to defeat Germany militarily thus preventing the Nazis from developing the atomic bomb In late 1939 President Roosevelt learned that Hitler was attempting to develop an atomic bomb to use against the United States The president responded by directing his own scientific community to develop an atomic bomb and began making plans to go to war with Germany However he was hampered by public opinion with 80 percent of the American people against U S involvement in another ground war in Europe Roosevelt seized an opportunity in

1940 when Japan and Nazi Germany formed a military alliance To bait Germany into war FDR shut down Japan's war making economy prompting Tokyo to attack Pearl Harbor A few days later Hitler declared war on America Using declassified documents this book shows how Pearl Harbor was not about Japan it was about the United States going to war with Germany It reveals how the U S Navy's intelligence gathering system could break virtually any Japanese naval code but Admiral Husband E Kimmel the commander of the U S Pacific Fleet was kept in the dark about the impending Pearl Harbor attack by his own government

**Two Roads to War** Robin Higham, 2012-06-15 Noted aviation historian Robin Higham has written this comparative study of the evolution of the French and British air arms from 1918 to 1940 to determine why the Armée de l'Air was defeated in June 1940 but the Royal Air Force was able to win the battle over Britain in September After analyzing the structure men and material of the air arms and the government and economic infrastructure of both countries he concludes that the French force was dominated by the Armée de Terre had no suitably powerful aero engines and suffered from the chaos of French politics In contrast the independent RAF evolved into a sophisticated scientifically based force supported by consistent government practices Higham's thorough examination however finds the British not without error

**An American Political Scientist in Israel** Paul Eidelberg, 2010-08-20 An American Political Scientist in Israel recounts the author's meetings with some of Israel's political and intellectual leaders after he immigrated to Israel in 1976 His book reveals for the first time the flawed mentality of these elites and how this affects their foreign policy As a political scientist and student of the American Founding Fathers he provides a professional critique of Israel's ideological and institutional flaws Eidelberg also provides a detailed account of Israel's economic and technological contribution to the United States Contrary to conventional opinion dollar for dollar the United States receives more from Israel than Israel receives from the United States Finally Eidelberg offers a remedy for Israel's woes He first shows that although Israel is a democracy from a sociological perspective it is not a democracy from a political institutional perspective Not only does Israel lack a written Constitution with institutional checks

and balances but members of the legislature are not individually accountable to the voters in constituency elections Operating in Israel is not representative government so much as multi party cabinet government dominated by the prime minister Eidelberg has therefore drafted a Constitution that empowers the people and is consistent with basic Judaic principles

The Poetical Works of John Dryden John Dryden, 1851 Poetical Works John Dryden, 1873 Winston Churchill in the Twenty First Century David Cannadine, Roland Quinault, 2004-12-16 For many people throughout the English speaking world and beyond Winston Churchill was the greatest statesman of the twentieth century the saviour of his country and a staunch defender of democracy in the face of totalitarianism By writing history as well as by making it Churchill influenced our whole view of the twentieth century and his role in it But how does he look now in a new century with a different agenda and when few can remember him This book confronts and addresses this question partly by including the reminiscences and recollections of four people who still vividly remember Churchill Tony Benn Lord Carrington Lord Deedes and Lady Soames but primarily by bringing together a group of historians David Cannadine Roland Quinault Paul Addison Chris Wrigley Stuart Ball David Reynolds John Charmley David Carlton John W Young and Peter Hennessy who explore the complexities and ambiguities of this extraordinary man

**Pequot Plantation** Richard A. Radune, 2005 Pequot Plantation tells the exciting story of southeastern Connecticut in early colonial days The adventures of many early settlers are followed as they journeyed from England to Massachusetts and then to Pequot Plantation where they shaped the destiny of the new settlement These families made an incredible effort to establish homesteads and create successful communities At the same time Indian fortunes declined in spite of the support they gave the new plantation and the valiant effort the Indians exerted to maintain their place in a changing world This is their story as well

The Soviet High Command John Erickson, 2019-07-11 This book aims to furnish a history of the origins and development of Soviet military leadership together with a survey of its relations with the Communist Party and the governmental apparatus within the chronological limits of the first attempts to organise the Red Army and a military command

**The Time Is Out of Joint** Agnes Heller, 2002-07-23 The Time Is Out of Joint handles the Shakespearean oeuvre from a philosophical perspective finding that Shakespeare's historical dramas reflect on issues and reveal puzzles which were taken up by philosophy proper only in the centuries following them Shakespeare's extraordinary handling of time and temporality the difference between truth and fact that of theory and that of interpretation and revelatory truth are evaluated in terms of Shakespeare's own conjectural endeavors and are compared with early modern modern and postmodern thought Heller shows that modernity which recognized itself in Shakespeare only from the time of Romanticism found in Shakespeare's work a revelatory character which marked the end of both metaphysical system building and a tragic reckoning with the inaccessibility of an absolute timeless truth Heller distinguishes the four stages found in constantly unique relation in Shakespeare's work historical personal political and existential and probes their

significance as time comes to fall out of joint and may be again set aright Rather than initially bestowing upon Shakespeare the dubious honorary title of philosopher Heller probes the concretely situated reflections of characters who must face a blind and irrational fate either without taking responsibility for the discordance of time or with a responsibility which may both transform history into politics and set right the time which is out of joint In the ruminations and undertakings of these characters Shakespeare's dramas present a philosophy of history a political philosophy and a philosophy of im moral personality Heller weighs each as distinctly modern confrontations with the possibility of truth and virtue within a human historical condition no less multifarious for its momentariness
