CONNECTIONS-SCIENCE FICTION TO FACT

1. There are many hidden meanings in the words used in this film.
What does the word GATTACA mean?
The letters are taken from the letters that represent the four nitrogenous DNA bases: A adenine, T thymine, G guanine, C cytosine.
2. How about the name Eugene? (Hint: what other biology words start with "eu?")
The name Eugene can refer to eugenics, which is the science of improvement of the human race through the application of genetics. Other biology words that start with "eu" are: eukaryotic (having a true nucleus), euchromatin (active genes), euglena (both plant and animal), and eustachian tube (the auditory canal). The root "eu" in biology means "true."
3. After watching this film, how do you think genetic screening today might affect a person's ability to get a job, or get health insurance? Explain.
If a genetic disease is discovered, it could result in higher premiums for health insurance, denial of claims because of a pre-existing condition, or denial of health insurance. Some employers may not hire people that might have a disease that results in poor attendance or becoming disabled. Some employers may not hire people they deem to be a safety risk to themselves, or the public.
