Human Purpose and Transhuman Potential Ted Chu, 2014-03-01 For millennia great thinkers have contemplated the meaning and purpose of human existence but while most assumed that humanity was the end point of creation or the pinnacle of evolution Ted Chu makes the provocative claim

that the human race may in fact be a means rather than an end that humankind will give rise to evolutionary successors In this wide ranging and authoritative work Chu reexamines the question of human purpose in light of the extraordinary developments of science and technology Arguing that a deep understanding of our place in the universe is required to navigate the magnitude of the choices that lie ahead he surveys human wisdom from both East and West traces the evolutionary trajectory that has led to this point and explores the potentials emerging on the scientific frontier The book addresses the legitimate fears and concerns of playing God but embraces the possibility of transcending biological forms and becoming or creating entirely new life forms

Question Authority; Think for Yourself Beverly A. Potter,Mark James Estren,2022-01-10 We have freedom of speech but we re afraid to speak Our lives have become subjected to PC tyranny a constant fear of offending someone We think that we are independent and that it is the other guy who is influenced brain washed duped persuaded We feel like we think for ourselves How can we feel otherwise There s no way to know because countless influences and interactions have molded us We re members of various groups circles of friends family professional groups hobby group and workplace groups Groups have a way of developing a view that it imposes with a kind of group think We want to belong to be liked and included so go along and get along We don t make waves by questioning If we have a different view we keep it to ourselves Why rock the boat Thinking for yourself is not so easy When encountering an argument to a long held opinion or a wild idea we use critical thinking to evaluate it as we were taught to do in school The problem is that critical thinking is critical It focuses our thinking on the negative what doesn t work what s wrong with the idea and encourages my side thinking where we evaluate evidence in a way that favors our beliefs and entraps us into closed mindedness Thinking for yourself requires open mindedness Open mindedness is being receptive and when the issue is important calls for actively searching for evidence against your beliefs Thinking is not driven by answers but by questions Every intellectual field is born out of a cluster of questions to which

answers are needed Had no questions been asked by those who laid the foundation for a field for example Physics or Biology the field would never have been developed We define tasks express problems and delineate issues with questions Answers signal an end point and stop thought except when an answer generates a further question Timothy Leary said to think for yourself you must question authority To think you must question To think through or rethink anything one must ask questions that stimulate thought The quality of your questions determines the quality of your thinking Thinking begins within some content when questions are generated No questions equals no understanding To engage in thinking through your content you must stimulate your thinking with questions that lead to further questions Our own opinions is one authority we should frequently question Times change We change Perspectives and values change Book explores how opinions and values we held in the past need periodic evaluation and challenge Independent thinkers evolve and need to shed the shackles of old views and opinions Ridicule is the strongest weapon for pressing us to conform It is a kind of bait that if you go for it will entrap you in an argument you can't win and leave you looking ridiculous and deflated Question Authority Think for Yourself offers techniques with examples of how to deflect attacks side tracks and put downs If you've bitten your tongue and later wished you'd spoken up and not been cowed into silence by a mocking co worker when you revealed a politically incorrect viewpoint you'll find much of interest in Question Authority Think for Yourself
