Gauteng Prilim Exam Papers 2014:

Twenty Years of Education Transformation in Gauteng 1994 to 2014 Maringe, Felix, Prew, Martin, 2015-05-05
Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years

Anatomy of a South African Karst Hydrosystem Philip J. Hobbs, Harrison Pienaar, Eddie van Wyk, Yongxin Xu, 2022-08-05 This book combines the results of the research activities in the assessment of water resources environment and an integrated water resource monitoring program to support preservation efforts of the aquatic environment of the Cradle of Humankind COH World Heritage Sites A poor understanding of the surface and groundwater resources of the COH property has precipitated often alarmist reporting in the media regarding the negative impacts associated with various sources of poor quality water The most notable of these is the acid mine drainage threat to karst ecosystems and fossil sites across the property These circumstances have generated wide and considerable concern for the preservation of the UNESCO inscribed fossil sites and integrity of the water resources of the property

The GCRO Barometer 2014 Darlington Mushongera, 2015-04-24 The GCRO Barometer 2014 depicts developmental progress in the Gauteng City Region GCR in a single interactive graphic using 38 indicators across ten key sectors It serves as a tracking and diagnostic tool to inform policy makers and the public on where development progress is being made and areas of concern It also serves as a tool for benchmarking Gauteng against other South African provinces and similar sized city regions across the world The GCRO Barometer 2014 is the first release and shows progress in 2012 against three base years 2002 2007 and 2011 Overall the Barometer shows that the developmental outlook for Gauteng is positive with significant progress realised between 2002 and 2012 in nearly all sectors For instance the poverty rate has fallen dramatically since 2002 and access to basic services has improved However there are challenges in areas such as Social Cohesion Governance the Labour Market and Sustainability Sadly people's perceptions of government as well as their unwillingness to participate in governance matters do not correspond to the achievements made by government during this period This should be a cause for concern for policy makers in all spheres of government as it reflects dissatisfaction with the

nature and quality of services being provided as well as the methods of provision The Barometer also shows that the impact of government programmes is minimal over shorter time spans change between 2002 and 2012 is considerable but change between 2011 and 2012 is insignificant This is a cause for concern given the 5 year cycle of electoral terms for local government in South Africa The Barometer's outcomes underscore the need for government to step up policy and programme monitoring with a view to achieving immediate and positive short term impacts on communities

Acid Mine Drainage and its Governance in the Gauteng City-Region Kerry Bobbins, 2015-05-29 Acid mine drainage AMD has generated an enormous amount of media interest and public concern in the Gauteng City Region GCR over the last decade However it has been framed as a narrow technical concern with government action being directed towards securing the necessary engineering and processing solutions as quickly as possible to prevent decant and treat acid mine water to industrial standards This has arguably limited the scope for full discussion and debate on the impacts of AMD particularly for the environment and this bears implications for how AMD has been managed in the GCR Government's immediate short and long term interventions to address AMD have been set out as a straight forward solution but over time more complex environmental concerns have emerged Becoming more evident over the last few years is that one of the main impacts of AMD will be its effect on the overall water security in the Vaal River System VRS on which the GCR relies for its supply of potable water Limits on water abstraction from the VRS together with the increasing need to maintain the overall water quality in the system through dilution and treatment activities means that AMD is beginning to manifest as a binding constraint on economic development and a burden on society in particular via escalating costs for water consumers Fiscal constraints are likely to see GCR residents and businesses pick up more and more of the costs associated with the treatment of AMD through the format of increased municipal tariffs With final decisions on municipal tariffs now pending the broader yet invisible impacts of AMD loom large This means that the debate has moved far beyond the issue of predicted decant in each of the Witwatersrand's mining basins Water security for the GCR and who will carry the costs associated with the long term treatment of AMD have instead taken centre stage This paper carefully updates the historical record on AMD since the publishing of a GCRO Provocation on the issue in 2010 In doing so it argues that the way in which AMD has been governed raises a flag around how the political economy of an issue such as AMD should be understood publicly debated and managed In particular it suggests that the governance of an environmental challenge such as AMD is not only about finding a technical solution The lack of platforms to ensure well informed public deliberation especially over such issues as who will pay and how must be addressed to ensure more equitable and transparent decision making In light of the broader mine waste legacy inherited by the GCR and the strong likelihood of environmental contamination becoming more commonplace in the future these concerns are not only limited to AMD They will only grow in importance over time

SOUTH AFRICA

AA.VV., 2016-11-14 Has the new South Africa once an inspiring rainbow nation failed the expectations it had generated Is the

country now in a crisis Two decades after the end of the apartheid regime Africa's southernmost state faces multiple political economic and social challenges A lackluster growth performance is compounded by mounting corruption and political turbulence as well as by the frustration of many ordinary citizens who expected much more rapid social and economic improvement Labour strikes student protests and anti immigrant riots have all been on the rise As a clear sign of increasing dissatisfaction uncertainty and decline the ruling African National Congress recently ran into its worst electoral result ever if still only at local levels Meanwhile Jacob Zuma's embattled presidency marred by allegations of corruption and political cronyism sent South Africa's international image plummeting alongside the Rand the national currency This volume sheds light on the current difficulties and discusses future prospects The new South Africa is a country in dire need for change

Development In Modern Africa Martin S. Shanguhya, Toyin Falola, 2019-10-08 *Development in Modern Africa Past and Present Perspectives* contributes to our understanding of Africa's experiences with the development process It does so by adopting a historical and contemporary analysis of this experience The book is set within the context of critiques on development in Africa that have yielded two general categories of analysis skepticism and pessimism While not overlooking the shortcomings of development the themes in the book express an optimistic view of Africa's development experiences highlighting elements that can be tapped into to enhance the condition of African populations and their states By using case studies from precolonial colonial and postcolonial Africa contributors to the volume demonstrate that human instincts to improve material social and spiritual worlds are universal They are not limited to the Western world which the term and process of development are typically associated with Before and after contact with the West Africans have actively created institutions and values that they have actively employed to improve individual and community lives This innovative spirit has motivated Africans to integrate or experiment with new values and structures challenges and solutions to human welfare that resulted from contact with colonialism and the postcolonial global community The book will be of interest to academics in the fields of history African studies and regional studies

Engineering Design and Mathematical Modelling Nnamdi Nwulu, Mammo Muchie, 2020-12-17 *Engineering Design and Mathematical Modelling Concepts and Applications* consists of chapters that span the Engineering design and mathematical modelling domains Engineering design and mathematical modelling are key tools techniques in the Science Technology and Innovation spheres Whilst engineering design is concerned with the creation of functional innovative products and processes mathematical modelling seeks to utilize mathematical principles and concepts to describe and control real world phenomena Both of these can be useful tools for spurring and hastening progress in developing countries They are also areas where Africa needs to skill up in order to build a technological base The chapters in this book cover the relevant research trends in the fields of both engineering design and mathematical modelling This book was originally published as a special issue of the African Journal of Science Technology Innovation and Development

OECD,2011-11-10 Against the backdrop of South Africa s achievements since the fall of apartheid this Review evaluates measures to position economic development policy and to confront economic inequality in the Johannesburg Pretoria region

Long Walk to Nowhere Philip Frankel,2017-07-05 The end of apartheid has triggered massive illegal immigration into South Africa from all parts of Africa and beyond Along with urbanization and internal migration the end of apartheid has encouraged human smuggling and the trafficking of men women and children into the commercial sex market and various sectors of the economy from mining to agriculture and the service industries Long Walk to Nowhere analyses the impact of these developments on Nelson Mandela s vision for a democratic South Africa Frankel explores human rights the political culture public health the criminal justice system and institutional development as South Africa moves into its third decade after liberation Using migration and human trafficking as barometers for democratic success Frankel establishes that South Africa has become more unstable under two post Mandela presidencies The book covers the three major modes of human trafficking commercial sex trafficking child trafficking and labour trafficking It also looks at the dynamics of trafficking with a perpetrator focus the complex issues of dominance and the policy responses in light of South Africa s first comprehensive counter trafficking legislation designed for implementation in late 2015 Long Walk to Nowhere blends South African experiences with contemporary mass political movements which challenge human rights and good governance on a world wide basis Education in a New South Africa Robert J. Balfour,2015-09-24 A collaborative series with the University of Cambridge Faculty of Education highlighting leading edge research across Teacher Education International Education Reform and Language Education

Strengthening the quality of teacher education programs Fika Megawati,Yudhi Arifani,Dodi Mulyadi,2024-01-18 Political Economy of Post-apartheid South Africa Gumede, Vusi,2017-05-05 The book made up of three parts covers a wide spectrum of political economy issues on post apartheid South Africa Although the text is mainly descriptive to explain various areas of the political economy of post apartheid South Africa the first and the last parts provide illuminating insights on the kind of society that is emerging during the twenty one years of democracy in the country The book discusses important aspects of the political history of apartheid South Africa and the evolution of post apartheid society including an important recap of the history of southern Africa before colonialism The text is a

comprehensive description of numerous political economy phenomena since South Africa gained its political independence and covers some important themes that have not been discussed in detail in other publications on post apartheid South Africa. The book also updates earlier work of the author on policy and law making land and agriculture education and training as well as on poverty and inequality in post apartheid South Africa thereby providing a wide ranging overview of the socio economic development approaches followed by the successive post apartheid administrations. Interestingly three chapters focus on various aspects of the post apartheid South African economy economic policies economic empowerment and industrial development. Through the lens of the notion of democratic developmental state and taking apartheid colonialism as a point of departure the book suggests that so far post apartheid South Africa has mixed socio economic progress. The author's extensive experience in the South African government ensures that the book has policy relevance while it is also theoretically sound. The text is useful for anyone who wants to understand the totality of the policies and legislation as well as the political economy interventions pursued since 1994 by the South African Government.

South Africa-China Relations
Chris Alden, Yu-Shan Wu, 2021-01-23. With the pace of trade and investment picking up coupled with closer international cooperation with Beijing through the G20 FOCAC and BRICS grouping South Africa China ties are assuming a significant position in continental and even global affairs. At the same time it is a relationship of paradoxes breaking with many of the assumptions that underpin contemporary analyses of China Africa ties. This edited volume examines the South Africa China relationship through a survey of its diplomatic partnership economic ties and broader community relations. These important aspects that are often conflated as a single relationship yet what is important to explore are how these components reflect different China South Africa relationships and how they intersect.

Glimpses into Primary School Teacher Education in South Africa
Sarah Gravett, Elizabeth Henning, 2020-11-05. This book explores the current landscape of Initial Teacher Education (ITE) in primary schools in South Africa. Considering recent policy directives and initiatives it highlights the dilemmas of ITE for the primary school and gives a thorough account of innovations and initiatives to improve ITE. The book presents what works best for quality preparation of teachers in the Global South where many children rely on their teachers and school life to break the cycle of poverty. Chapters draw on evidence from workplace learning pre service study and primary school teacher education policy to highlight examples of promising change in teacher education in South Africa addressing the clichés of theory versus practice head on. This book successfully brings out the challenging aspects of teacher education for childhood learning which has otherwise been regarded as the softer option for a career in education. This book will be of great interest for academics researchers and post graduate students in the fields of teacher education African education educational policy international education and comparative education.
