Questions and Replies of the National Council of Provinces South Africa. Parliament (1994-). National Council of Provinces,2002 South Africa News Update ,1997 Consists of reproductions of articles from South African newspapers

Annual Report South Africa. Department of Education,1998 South African Education Policy Review, 1993-2000 Linda Chisholm,Shireen Motala,Salim Vally,2003 The South African Education Policy Review is an invaluable historical archive It is a source book on policies conflicts developments and perspectives on education policy in the period 1993 to 2000 Drawing from a selection of articles from the successful Quarterly Reviews of Education and Training produced by the Education Policy Unit of the University of Witwatersrand this book provides readers with detailed accounts of educational changes in South Africa over the past decade It reflects upon significant events trends and debates and provides insightful analysis of this extremely momentous period of South Africa s history *Suid-Afrikaanse Holverslae. Bealissings Van: Die Hooggeregshof Van Suid-Afrika, Die Suidwes-Afrika Afdeling, Die Hoërhof Van Rhodesië* ,2011 Sexual Orientation, Gender Identity, and Schooling Stephen Thomas Russell,Stacey S. Horn,2017 Sexual Orientation Gender Identity and Schooling brings together contributions from a diverse group of researchers policy analysts and education advocates from around the world to synthesize the practice and policy implications of research on sexual orientation gender identity and schooling Local Solutions to Global Challenges ,2003 **Acid Mine Drainage and its Governance in the Gauteng City-Region** Kerry Bobbins,2015-05-29 Acid mine drainage AMD has generated an enormous amount of media interest and public concern in the Gauteng City Region GCR over the last decade However it has been framed as a narrow technical concern with government action being directed towards securing the necessary engineering and processing solutions as quickly as possible to prevent decant and treat acid mine water to industrial standards This has arguably limited the scope for full discussion and debate on the impacts of AMD particularly for the environment and this bears implications for how AMD has been managed in the GCR Government s immediate short and long term interventions to address AMD have been set out as a straight forward solution but over time more complex environmental concerns have emerged Becoming more evident over the last few years is that one of the main impacts of AMD will be its effect on the overall water security in the Vaal River System VRS on which the GCR relies for its supply of potable water Limits on water abstraction from the VRS together with the increasing need to maintain the overall water quality in the system through dilution and treatment activities means that AMD is beginning to manifest as a binding constraint on economic development and a burden on society in particular via escalating costs for water consumers Fiscal constraints are likely to see GCR residents and businesses pick up more and more of the costs associated with the treatment of AMD through the format of increased municipal tariffs With final decisions on municipal tariffs now pending the broader yet invisible impacts of AMD loom large This means that the debate has moved far beyond the issue of predicted decant in each of the Witwatersrand s mining basins Water security for

the GCR and who will carry the costs associated with the long term treatment of AMD have instead taken centre stage This paper carefully updates the historical record on AMD since the publishing of a GCRO Provocation on the issue in 2010 In doing so it argues that the way in which AMD has been governed raises a flag around how the political economy of an issue such as AMD should be understood publicly debated and managed In particular it suggests that the governance of an environmental challenge such as AMD is not only about finding a technical solution The lack of platforms to ensure well informed public deliberation especially over such issues as who will pay and how must be addressed to ensure more equitable and transparent decision making In light of the broader mine waste legacy inherited by the GCR and the strong likelihood of environmental contamination becoming more commonplace in the future these concerns are not only limited to AMD They will only grow in importance over time Drum,2006 **Interpellations, Questions and Replies of the National Assembly** South Africa. Parliament (1994-). National Assembly,1999 *Debates of the National Assembly (Hansard)* South Africa. Parliament (1994-). National Assembly,1995 *Annual Report* South Africa. Department of Basic Education,2016 **Politics in South Africa** Tom Lodge,2003 Further chapters consider the future prospects of South African democracy and provide assessments of both Nelson Mandela and his successor Thabo Mbeki BOOK JACKET
