South African national bibliography, 1999 Classified list with author and title index *Development In Modern Africa*
Martin S. Shanguhya, Toyin Falola, 2019-10-08 Development in Modern Africa Past and Present Perspectives contributes to our understanding of Africa's experiences with the development process. It does so by adopting a historical and contemporary analysis of this experience. The book is set within the context of critiques on development in Africa that have yielded two general categories of analysis: skepticism and pessimism. While not overlooking the shortcomings of development, the themes in the book express an optimistic view of Africa's development experiences, highlighting elements that can be tapped into to enhance the condition of African populations and their states. By using case studies from precolonial, colonial, and postcolonial Africa, contributors to the volume demonstrate that human instincts to improve material, social, and spiritual worlds are universal. They are not limited to the Western world, which the term and process of development are typically associated with. Before and after contact with the West, Africans have actively created institutions and values that they have actively employed to improve individual and community lives. This innovative spirit has motivated Africans to integrate or experiment with new values and structures, challenges, and solutions to human welfare that resulted from contact with colonialism and the postcolonial global community. The book will be of interest to academics in the fields of history, African studies, and regional studies. **The Shorter Wisden India Almanack 2014** Bloomsbury Publishing, 2014-10-23 Wisden has grown through the years to embrace innovation and maintain its status as the most revered and cherished brand in cricket. The Bible of Cricket, Wisden Cricketers Almanack, has been published every year since 1864. Wisden's Cricketers of the Year Awards, one of the oldest honours in the sport, dates back to 1889. The Almanack, known for editorial excellence, has been a perennial bestseller in the UK. The second edition with India-specific content is even more engrossing. Contributors include Bishan Singh Bedi, Anil Kumble, Mahele Jayawardhene, Sanjay Manjrekar, Shashi Tharoor, Gideon Haigh, Kamila Shamsie, Shehan Karunatilaka, Rahul Bhattacharya, and many others. Mud to bricks: A review of school infrastructure spending and delivery Carmen Abdoll, Conrad Barberton, 2014-07-04 The Centre for Child Law commissioned this study by Cornerstone Economic Research to track school infrastructure spending and delivery. The report, written by Carmen Abdoll and Conrad Barberton, makes the concerning finding that the national Department of Basic Education has woefully underspent the School Infrastructure Backlog grant for two years running. In 2011/2012, spending was a little over 10 per cent, and only at 23 per cent in 2012/2013 at the end of the third quarter. The ASIDI target for the number of schools to be built in 2011/2012 and 2012/2013 was 49. However, only 10 had been completed by the end of the first year. They predict that if the DBE continues at the same delivery rate, a realistic timeframe for the eradication of schools with inappropriate structures is probably 2023/24. They make recommendations which, if followed, could shorten the delay significantly. This study shows the importance of monitoring and evaluating progress against court orders and out-of-court settlements to ensure that the right to a basic

education is made real **Making Public in a Privatized World** David A. McDonald, 2016-02-15 How do we provide effective public services in a deeply neoliberal world In the wake of the widespread failure of privatisation efforts societies in the global south are increasingly seeking progressive ways of recreating the public sector With contributors ranging from cutting edge scholars to activists working in health water and energy provision and with case studies covering a broad spectrum of localities and actors *Making Public in a Privatized World* uncovers the radically different ways in which public services are being reshaped from the grassroots up From communities holding the state accountable for public health in rural Guatemala to waste pickers in India and decentralized solar electricity initiatives in Africa the essays in this collection offer probing insights into the complex ways in which people are building genuine alternatives to privatization while also illustrating the challenges which communities face in creating public services which are not subordinated to the logic of the market or to the monolithic state entities of the past **Corruption and Constitutionalism in Africa** Charles M. Fombad, Nico Steytler, 2020-03-12 This collection of essays focuses on the critical issue of corruption that lies at the heart of the crisis of constitutionalism in Africa Most anti corruption measures over the years have been inadequate serving merely as symbolic gestures to give the impression something is being done The African Union's declaration of 2018 as the African anti corruption year belated though it be is an open recognition by African governments of the impact corruption will have on the continent unless urgent steps are taken The key objective of this volume is to draw attention to the problem of corruption the complexity of the situation with all its multi faceted social political economic and legal dimensions and the need for remedial action **Bombardier Abroad** David P. Thomas, 2018-10-10T00:00:00Z In *Bombardier Abroad* Thomas examines several cases of the Canadian aerospace giant's work in the high speed rail sector in South Africa China Tibet and Israel Palestine and argues that these projects are deepening existing social and political tensions By participating in these infrastructure projects Thomas argues Bombardier is both inserting itself into highly contested social and political climates and profiting from actions that further exacerbate existing conditions of dispossession and inequality Thomas also examines the various ways in which the Canadian state supports the work of Bombardier in these countries Centred around a theoretical framework that combines concepts of dispossession political economy and important interventions from the field of settler colonial studies *Bombardier Abroad* is a critical look at the problematic practices of a Canadian corporation and the ways in which the Canadian state is culpable **Sexual Orientation, Gender Identity, and Schooling** Stephen Thomas Russell, Stacey S. Horn, 2017 *Sexual Orientation Gender Identity and Schooling* brings together contributions from a diverse group of researchers policy analysts and education advocates from around the world to synthesize the practice and policy implications of research on sexual orientation gender identity and schooling **Naturalizing Inequality** Michela Marcatelli, 2021-10-05 More than twenty five years after the end of apartheid water access remains a striking reminder of racial inequality in South Africa This book compellingly argues that in the post apartheid period inequality has not only been

continuously reproduced but also legitimized Michela Marcatelli unravels this inequality paradox through an ethnography of water in a rural region of the country The Waterberg Plateau is a space where agriculture conservation and extraction coexist and intersect Marcatelli examines the connections between neoliberalism race and the environment by showing that racialized property relations around water and land are still recognized and protected by the post apartheid state to sustain green growth She argues that the government depicts growth as the best if not only solution to inequality While white landowners maintain access to water however black ex farmworkers are dispossessed once again of this essential to life resource If the promise of growth serves to normalize inequality the call to save nature has the effect of naturalizing it even further

Sankofa: Appreciating the Past in Planning the Future of Early Childhood Education, Care and Development in Africa UNESCO,2023-04-01 [A Hidden History of Youth Development in South Africa](#) Margaret Perrow,2021-03-15

Drawing on two decades of interviews and ethnographic fieldwork 1998 2018 this book presents a unique and multi faceted history of youth development in South Africa through the lens of a South African non governmental organization NGO prominent in youth development from the mid 1980s until 2008 The book weaves history ethnography and discourse analysis to contextualize the Joint Enrichment Project JEP in the politics and history of South African education It examines JEP s role leading up to and during South Africa s transition to democracy its work and influence in post apartheid South Africa and the continued relevance of its legacy to contemporary initiatives seeking to address youth development and social justice While JEP repeatedly repositioned itself as an organization from fighting the effects of apartheid on young people to becoming a potential partner with the new African National Congress ANC led government its most significant role may have been to reposition people After tracing JEP s twenty year history the book focuses on the participants in a 1998 Youth Work Scheme exploring their learning experiences and the program s immediate impact on their lives It then revisits these participants twenty years later in 2018 analyzing their life trajectories after JEP and comparing them with the life trajectories of former JEP staff over the same period shedding light on broader patterns of socio economic reproduction and change in the country The book concludes with a discussion of a perennial paradox facing youth development institutions This book will be of great interest to academics researchers and post graduate students in the fields of education international development anthropology and African studies

Just faith Stephan de Beer,2018-12-01 The purpose of this scholarly book is to expand the body of knowledge available on urban theology It introduces readers to the concept of planetary urbanisation with the view of deepening an understanding of urbanisation and its all pervasive impact on the planet people and places from a theological perspective A critical theological reading of the urban is also provided deliberating on bridging the divide between voices from the Global South and the Global North In doing so this book simultaneously seeks out robust and dynamic faith constructs expressed in various forms and embodiments of justice The methodology chosen transcended narrow disciplinary boundaries situating reflections between and across disciplines in the interface between scholarly

reflection and an activist faith as well as between local rootedness and global connectedness This was facilitated by the collected gathering of authors spanning all continents various Christian faith traditions and multiple disciplines as well as a range of methodological approaches The book endeavours to contribute to knowledge production in a number of ways Firstly it suggests the inadequacy of most dominant faith expressions in the face of all pervasive forces of urbanisation and it also provides clues as to the possibility of fostering potent alternative imaginaries Secondly it explores a decolonial faith that is expressed in various forms of justice It is an attempt to offer concrete embodiments of what such a faith could look like in the context of planetary urbanisation Thirdly the book does not focus on one specific urban challenge or mode of ministry but rather introduces the concept of planetary urbanisation and then offers critical lenses with which to interrogate its consequences and challenges It considers concrete and liberating faith constructs in areas ranging from gender race economic inequality a solidarity economics and housing to urban violence indigeneity and urbanisation the interface between economic and environmental sustainability and grass roots theological education

Emerging Technologies for Smart Cities Oluwayemi-Oniya Aderibigbe, Trynos Gumbo, Samson Olawale Fadare, 2024-08-13 This book examines the use of smart city associated technologies to enhance sustainable transportation planning in cities of both the global north and south focusing specifically on sustainable transportation The authors of the book examine technologies and tools such as UAVs GIS cutting edge information and communication technologies machine learning and big data to assess their potential for reducing traffic redirecting traffic to assigned routes monitoring traffic growth and development in our urban centres with the ultimate aim of reducing congestion commuting time accidents and pollution to promote climate action and a just transition The book offers a comparative study of transport situation and planning in the developed and developing countries focusing on the United States of America Germany and Singapore in the Global North on one hand and South Africa Nigeria and India from the Global South on the other As more and more of the world s population lives in urban centers proactively monitoring and managing car traffic is essential The book will be of interest to academics and researchers in the built environment architecture urban and regional planning construction management quantity surveying geography engineering environmental sciences social sciences public policy design in both the developed and developing countries
