Deresh Ramjugernath

Gauteng Province Economics Paper 2014 Scope:

The Geography of South Africa Jasper Knight, Christian M. Rogerson, 2018-10-03 This edited collection examines contemporary directions in geographical research on South Africa. It encompasses a cross section of selected themes of critical importance not only to the discipline of Geography in South Africa but also of relevance to other areas of the Global South. All chapters are original contributions providing a state of the art research baseline on key themes in physical human and environmental geography and in understanding the changing geographical landscapes of modern South Africa. These contributions set the scene for an understanding of the relationships between modern South Africa and the wider contemporary world including issues of sustainable development and growth in the Global South. **ICIE 2015 3rd**

International Conference on Innovation and Entrepreneurship Deresh Ramjugernath, 2015-02-24 These proceedings represent the work of researchers participating in the 3rd International Conference on Innovation and Entrepreneurship ICIE 2015 which is being co-hosted by The University of KwaZulu Natal Durban and the Ethekewini Municipality Durban South Africa on the 19-20 March 2015. The ICIE Conference constitutes a valuable platform for individuals to present their research findings, display their work in progress and discuss conceptual advances in many different branches of innovation and entrepreneurship in business and management. At the same time it provides an important opportunity for researchers and managers to come together with peers, share knowledge and exchange ideas. ICIE builds on the now well-established European Conference on Innovation and Entrepreneurship and allows universities outside the European boundaries the opportunity to host an academic conference on these important topics. In addition to the presentations of research, the conference will feature a knowledge cafe led by Dr Shawren Singh looking at this topic. How can academics focus research efforts to better serve the business and public sector communities? The second day will open with a panel discussion looking at Smart cities, Opportunities for Entrepreneurship and Economic growth. Following an initial submission of 85 abstracts that have undergone a double-blind peer review process, 26 research papers, 3 PhD research papers, 2 work-in-progress papers are published in these Conference Proceedings representing research results from the Czech Republic, Denmark, Italy, Kazakhstan, Kenya, Lithuania, Nigeria, Poland, Saudi Arabia, South Africa, Sweden, The Netherlands, UK, USA and Zambia. **The Oxford**

Companion to the Economics of South Africa Haroon Bhorat, Alan Hirsch, Ravi Kanbur, Mthuli Ncube, 2014-11-27 In 1994 South Africa saw the end of apartheid. The new era of political freedom was seen as the foundation for economic prosperity and inclusion. The last two decades have seen mixed results. Economic growth has been volatile. While inequalities in public services have been reduced, income inequality has increased and poverty has remained stagnant. As the twentieth anniversary of the transition to democracy approaches in 2014, the economic policy debates in South Africa are in full flow. They combine a stocktake of the various programs of the last two decades with a forward-looking discussion of strategy in the face of an ever-open but volatile global economy. Underlying the discourse are basic and often unresolved differences on an appropriate

strategy for an economy like South Africa with a strong natural resource base but with deeply entrenched inherited inequalities especially across race This volume contributes to the policy and analytical debate by pulling together perspectives on a range of issues micro macro sectoral country wide and global from leading economists working on South Africa Other than the requirement that it be analytical and not polemical the contributors were given freedom to put forward their particular perspective on their topic The economists invited are from within South Africa and from outside from academia and the policy world from international and national level economic policy agencies The contributors include recognized world leaders in South African economic analysis as well as the very best of the younger crop of economists who are working on the study of South Africa the next generation of leaders in thought and policy
