Curtis, 2022-12-10 This book explores the concept of the best loved self in teaching and teacher education asserting that the best loved self is foundational to the development of teacher identity growth in context and learning in community Drawing on the work of Joseph Schwab who was the first to name the best loved self the editors and their contributors extend this knowledge further through the collaboration of their group of teacher educators known as the Faculty Academy who have been involved in examining teacher education for over two decades **American Lumberman** , 1929 **Field and Fancy** , 1922 The Medical times and gazette , 1871 Federal Supplement , 1968 Currere and Legacy in the Context of Family Business Samuel Chen, 2023-03-28 This book presents a new conceptualization of the idea of

legacy in a family business setting as an educational experience of teaching and learning between generations Using the lived experience of the author it combines autoethnography with a discussion on the influence of Chinese culture on family business and expectations placed on the eldest son as well as Bill Pinar s model of Currere to investigate the processes around intergenerational learning The author argues that legacy is the process of journeying to full personhood and the results of connected and collective aspirations shifting the focus from succession that is often marked by silence and power control The author s approach to business as a field has transformed its strong instrumental approach into an existential orientation with self discovery and self creation as an ongoing process Providing the new and innovative beginnings of a theoretical curriculum that could foster legacy processes and taking a unique and interdisciplinary approach to looking at family business and legacy this book will be relevant to scholars and researcher of both education and business studies
