

Report Card Comments (& helpful hints)

Helpful Hints for Parent-Teacher Conferences

- sit next to the parents, not across from them
- start with a positive comment
- provide a suggestion for reinforcement or further work at home
- short, sweet and simple is the way to go (avoid educational jargon)
- LISTEN to the parents and their concerns
- end on time (commit to another conference or phone conference to avoid going over the allotted time)

Stanton Grace Brown Galvin, Tiffany Galvin Green, Ronald E. Galvin, 2009 Since 1868 Florida's oldest continually operating high school has been destroyed, rebuilt, moved, and refocused, existing under several names: Old Stanton High School, New Stanton High School, Stanton Vocational High School, and now Stanton College Preparatory School. Campus History Series. Stanton gives a pictorial history of the buildings, faculty, student life, and traditions that have left an indelible mark on African American life in Jacksonville through the years, reflecting also its evolution into a nationally recognized, diverse student body of the highest academic caliber. Stanton's story, accomplishments, and pride are showcased through photographs obtained from a variety of school records and from generous contributions by alumni, previous staff and faculty, and their families.

The Big6 Curriculum Michael B. Eisenberg, Janet Murray, Colet Bartow, 2016-05-26 This practical, hands-on book explains how to ensure that your students are information and communication technology literate—that is, competent with a range of tools, technologies, and techniques for seeking out and applying information. The importance of teaching information and communication technology (ICT) literacy is clear: without it, students will be ill-equipped to find and use information in all its forms, as well as to produce and present information in all forms. Unfortunately, most ICT literacy educational programs are irregular, incomplete, or arbitrary. Classroom teachers, teacher librarians, and technology teachers need a complete ICT program—one with clearly defined goals and objectives, planned and coordinated instruction, regular and objective assessment of learning, and formal reporting of results. This book explains how to integrate the objectives of ICT literacy into your school's established curricular structure. The book explains the rationale for having a comprehensive ICT program, describes how to develop a Big6 by the Month program, and defines the challenges in the areas of information seeking, strategies, location, and access; use of information; synthesis and evaluation. It also includes templates for grade-level objectives, a scenario plan, program plan, lesson plan, and unit plan summary; evidence and criteria; performance descriptors; a presentation readiness checklist; and Big6 by the Month checklists for instructional leaders, teachers, and teacher librarians.

The Other Side of the Report Card Maurice J. Elias, Joseph J. Ferrito, Dominic C. Moceris, 2015-12-14 To better serve the whole child, look at the whole report card. Although parents and teachers spend more time in conferences talking about behavior than they do about rubrics and test scores, too many teachers are still guessing when it comes to using outdated behavior ratings and comments to describe the whole child. With this book, you'll take report cards to the next level, integrating social, emotional, learning, and

character development into any grading system Resources include Guided exercises for analyzing existing report cards Suggested report card designs Tips on improving teacher parent communication Case studies Testimonials from teachers and students Days Gone By D'lores Buckner Simmons,2019-05-20 These are stories from my childhood through adulthood written while I was a member of a memoir writing group at the Maplewood YMCA in Rochester NY The "New" Epidemic- Grading Practices Andre' Mathews,2016-03-16 This book is a comprehensive view on the grading practices and policies in American public schools The content of the book identifies the lack of alignment amongst the Federal State and Local Districts and the need to adopt a unified policy Educational institutions are creating their own versions of grading systems that lack integrity flawed in design hinder many students from graduating and or achieving opportunities to become a more productive citizen after high school completion Section I The structure of the book begins with a systemic view of development by identifying the philosophical and theoretical aspects involved in the grading system Section II The authors work then transitions to the structure of the grading system addressing the mathematical aspects of calculating a students grade point average to the teachers validity of grades Section III This section identifies the parents role and need to understand the grade itself and its effect on the students overall outcome and class ranking Section IV The book ends with a strong analysis of the system parental rights examples of educational disasters and schools quest for new grading systems All in all this book takes a journey throughout the entire educational system identifying a need for change on all levels as it relates to the grading system The overall message emphasizes the parents need to be cognizant of the importance of being involved and properly motivating mentoring monitoring modeling and managing their childs educational careers All stakeholders should walk away with a sense of ownership to the problem and an understanding that the time for change is now The ethnic margin is widening and too many students are graduating unmarketable A grade is more than a number its a quality of life
