HP MSA Family Installation and Startup Service

HP Services

HP MSA Family Installation and Startup Service provides the necessary activities required to deploy the HP Modular Storage Array (MSA) into your storage environment.

With the assistance of your designated IT storage administrator and using best practices, an HP service specialist will help plan, design, and deploy your HP MSA array system, resulting in a more efficiently configured system. The HP service specialist will also perform installation verification tests and provide a customer orientation session.

Service benefits

- Allows your IT resources to stay focused on their core tasks and priorities
- Reduces implementation time, impact, and risk to your storage environment
- Helps you effectively utilize HP products from the knowledge gained during onsite delivery of the service
- Provides an installation plan that supports your unique configuration requirements

Service feature highlights

- Service planning
- Service deployment
- Installation verification tests (IVT)
- Customer orientation session

Service features

Table 1. Service features

Feature	Delivery specifications
Service planning	The HP service specialist will work with the Customer to plan all necessary activities and schedule the delivery of the service at a mutually agreed-upon time during local HP standard business hours excluding HP holidays, unless otherwise agreed to by HP or the HP certified channel partner. Any services provided outside of HP standard business hours will be subject to additional charges.
	The service specialist will contact the Customer to review expectations and to validate that predelivery requirements have been, or will be, met prior to installation.
	The service planning activities will include:
	• Communication with the Customer, including queries by the Customer regarding service delivery
	• Verification, using a predelivery checklist, that all service prerequisites have been met, including OS, hardware, software, driver, and environmental prerequisites required for the installation of HP MSA 2040/1040/P2000 Array System
	• Collection, using a predelivery checklist, of the information needed to plan the deployment, including:
	− Confirmation that the hosts are in a supported configuration and determination of any steps that are needed to bring them into a supported configuration
	− Verification of the hardware RAID levels to be implemented
	• Agreement on the proposed configuration and review of the service completion criteria
	• Confirmation of the viability of the installation of the HP MSA 2040/1040/P2000 hardware into the customer-supplied rack
	• Creation of a written installation plan to serve as both the project plan and completion point for this service
Service deployment	The service deployment activities will include:
	• Communicating the service delivery agenda
	• Verification that service prerequisites have been met
	• Installation of the array into the customer-supplied rack
	• Confirmation of appropriate operating system patch levels and firmware version on a selected number of hosts, as identified in the installation plan
