Towards Building Pillars of Hope, Unity and Transformation in Africa* Mawere, Munyaradzi,Marongwe, Ngonidzashe,2016-09-01 The myths of peace and democracy in Africa are at the heart of this volume Democracy and peace have become buzz words across postcolonial Africa The gospel of democracy and peace is preached by national governments and by civil society and international organisations alike But to what extent are the ongoing sideshows and charades of quasi oligarchies in Africa really democracy What do ordinary Africans mean when they hunger and thirst for democracy and peace Positive and noble as the loud sounding rhetoric about democracy and peace in Africa might seem the reality of propaganda and dissemblance and of multi dimensional violence are simply too overwhelming not to be disillusioning This book interrogates the rampant violence enduring conflicts autocratic governance and facades of democracy amidst claims and calls for enduring peace on the continent This is a monumental resource book for human rights activists conflict management practitioners civil society activists political scientists statesmen and development practitioners It poses a challenge to those African governments who claim to embrace principles of democracy and respect for human rights to rethink and reconsider their role as ambassadors of peace hope transformation and good governance *International Water Law and the Human Right to Water* Imad Antoine Ibrahim,2024-11-19 This book examines the development of international law applicable to Transboundary Aquifers TBAs considering the Human Right to Water and Sanitation HRWS The purpose is to determine how International Water Law IWL and the HRWS can be

harmonized in the context of TBAs This is important given rules and instruments adopted to address this topic are relatively nascent and the field itself is still in the process of developing regulatory frameworks Taking the application of the HRWS to shared aquifers as a case study the work discusses whether IWL and International Human Rights Law complement each other The response to this question requires an analysis of the development of International Groundwater Law and its challenges the evolution of the HRWS the nature of transboundary groundwaters and the interplay between these two fields The author argues that IWL agreements should contain a provision related to the HRWS to ensure the protection of this right with a stipulation included in the nonbinding instrument that tackles shared groundwaters the Draft Articles on the Law of Transboundary Aquifers adopted in 2008 through the United Nations General Assembly Resolution The book will be of interest to international lawyers water and human right experts geologists and anyone interested in water and human rights issues
